DESCRIPTION
FIG. 1 is a perspective view of the retail and security robot; FIG. 2 is a front view of the retail and security robot; FIG. 3 is a left side view of the retail and security robot; FIG. 4 is a rear view of the retail and security robot; and, FIG. 5 is a top view of the retail and security robot. The broken lines immediately adjacent the areas with solid lines represent the bounds of the claimed design, while all other broken lines are directed to portions of the retail and security robot; the broken lines form no part of the claimed design.
