(57) **CLAIM**

The ornamental design for an electrode foil for a capacitor, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an electrode foil for capacitor showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a rear elevational view thereof; and

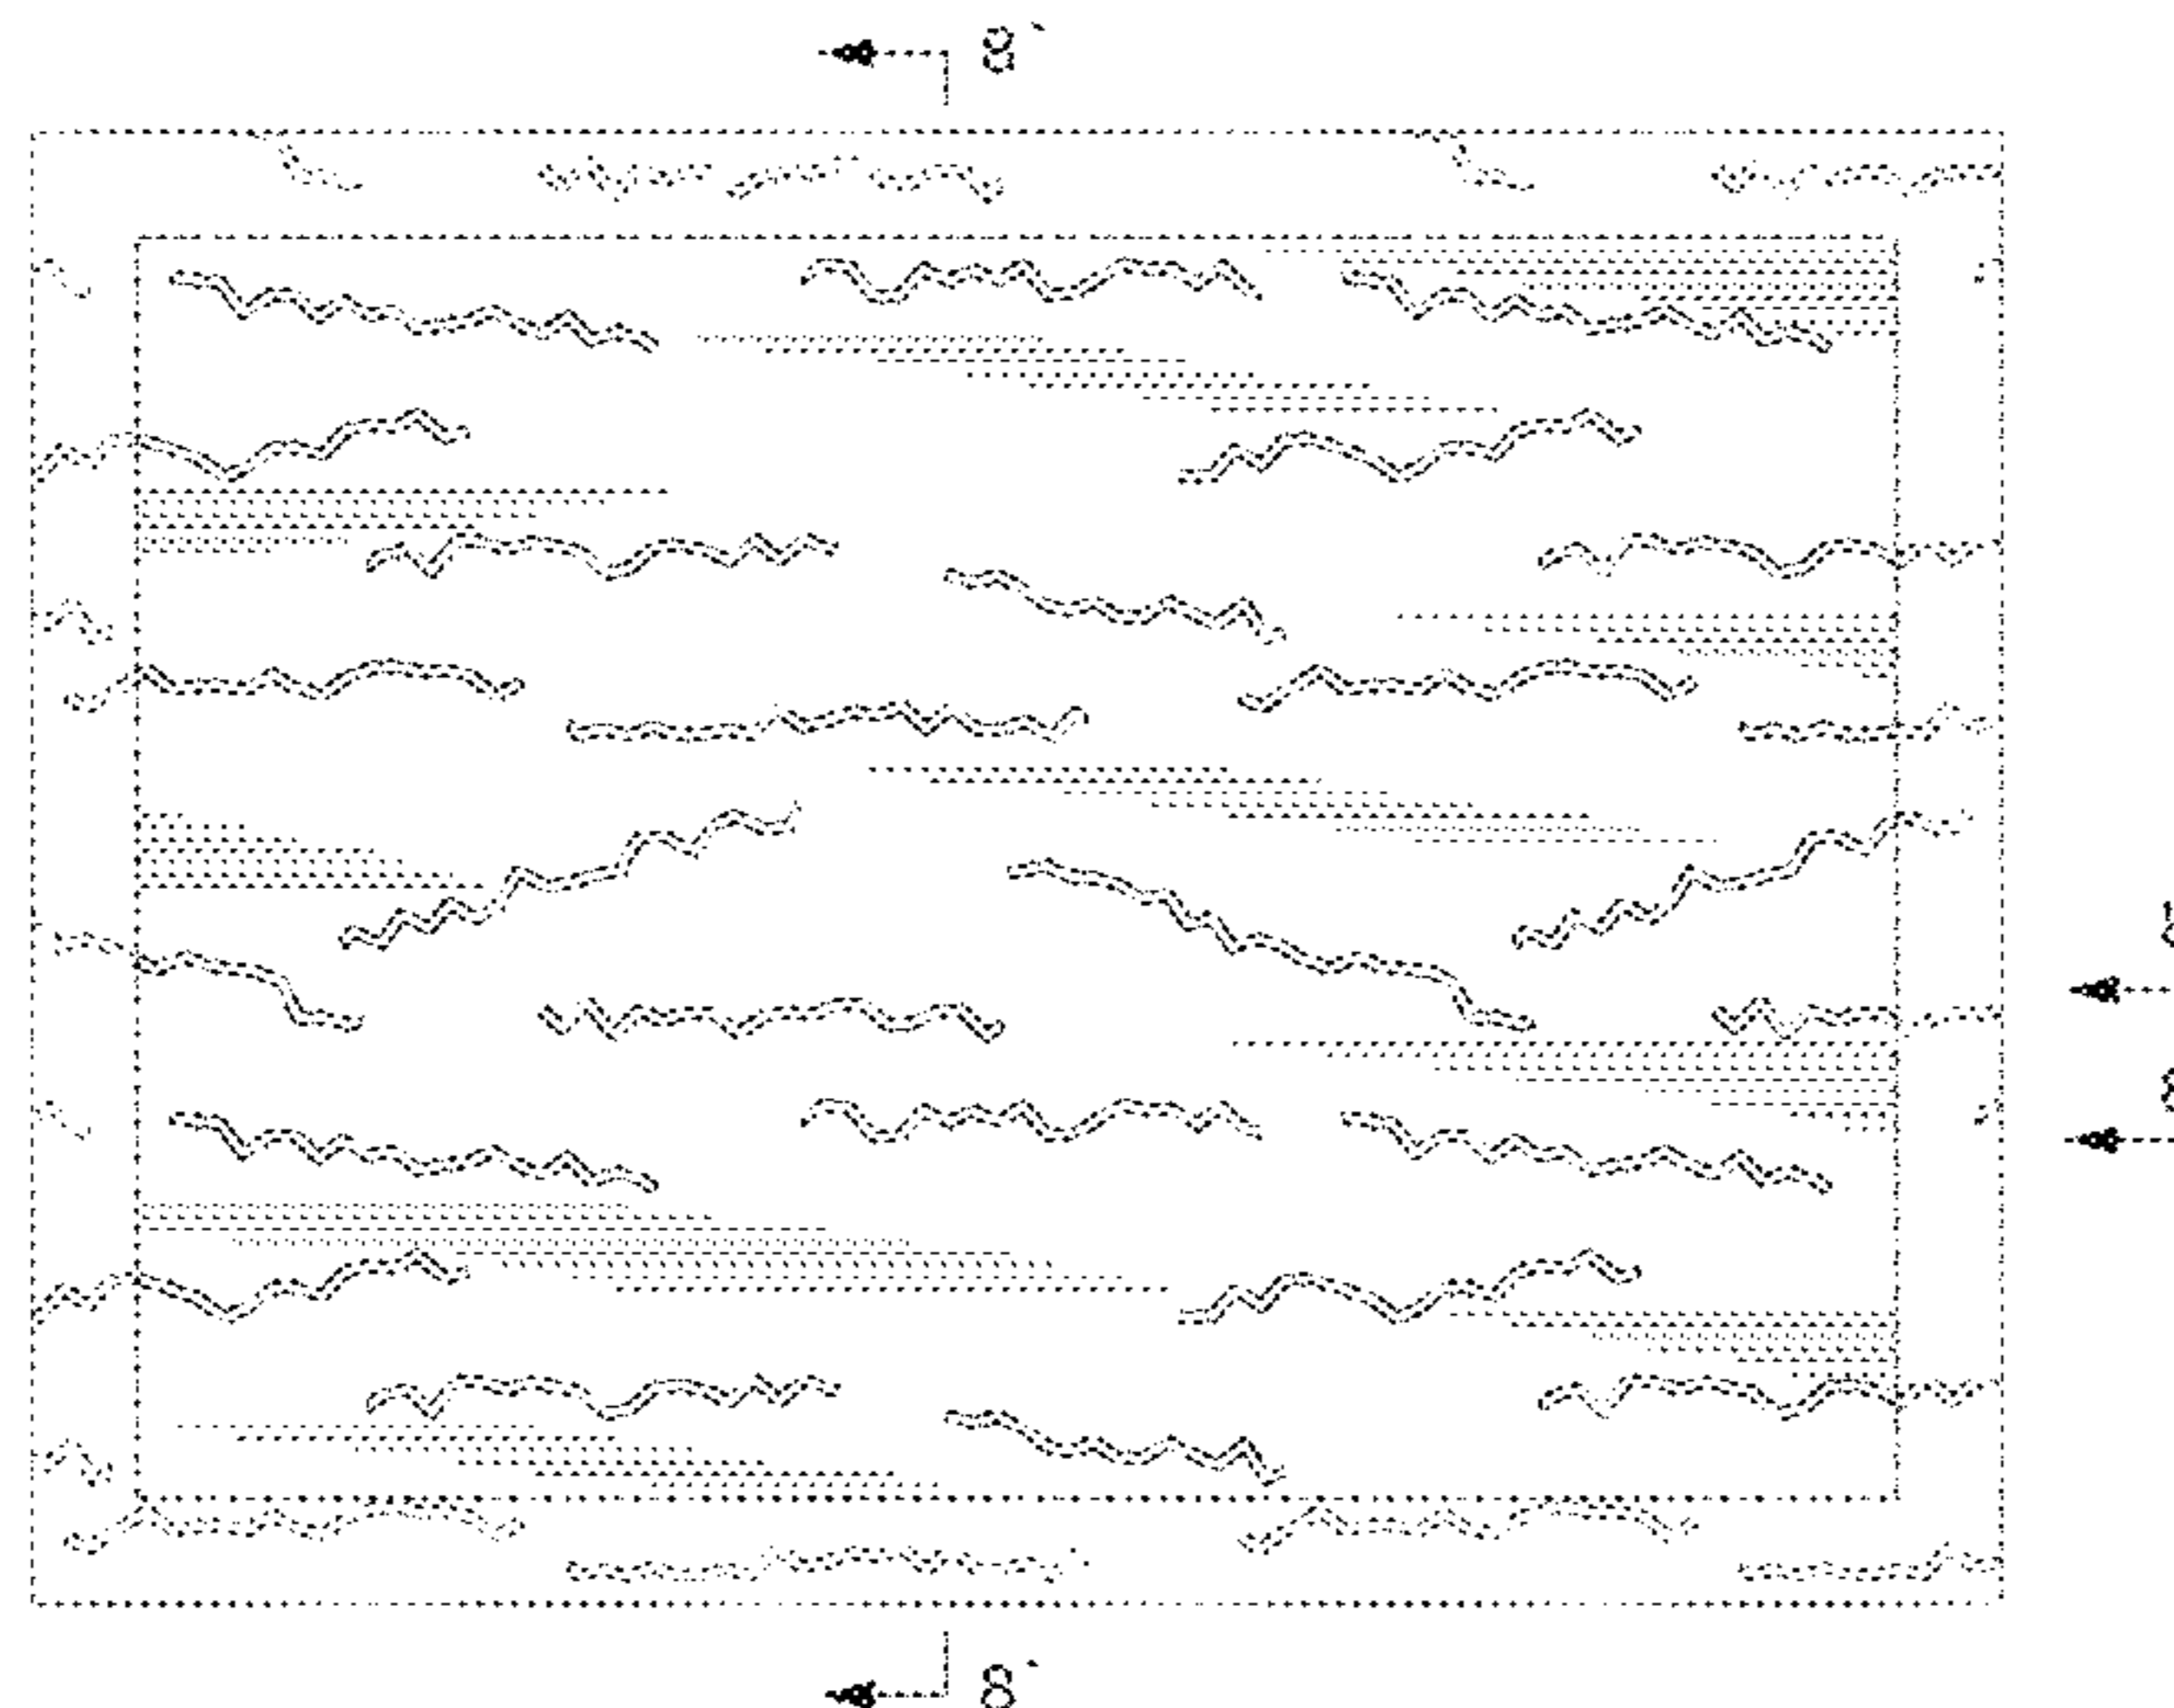

FIG. 6 is a bottom plan view thereof.

FIG. 7 is a partially enlarged top plan view thereof taken along lines 7-7 and 7'-7' of FIG. 2; and,

FIG. 8 is a partially enlarged cross sectional view thereof taken along lines 8-8 and 8'-8' of FIG. 7.

The broken lines shown represent portions of the electrode foil for capacitor that form no part of the claim. Where the dot-dash broken lines about the shaped surface it is understood that those broken lines represent an unclaimed boundary between claimed and unclaimed surfaces. None of the broken lines form any part of the claimed design.
