(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

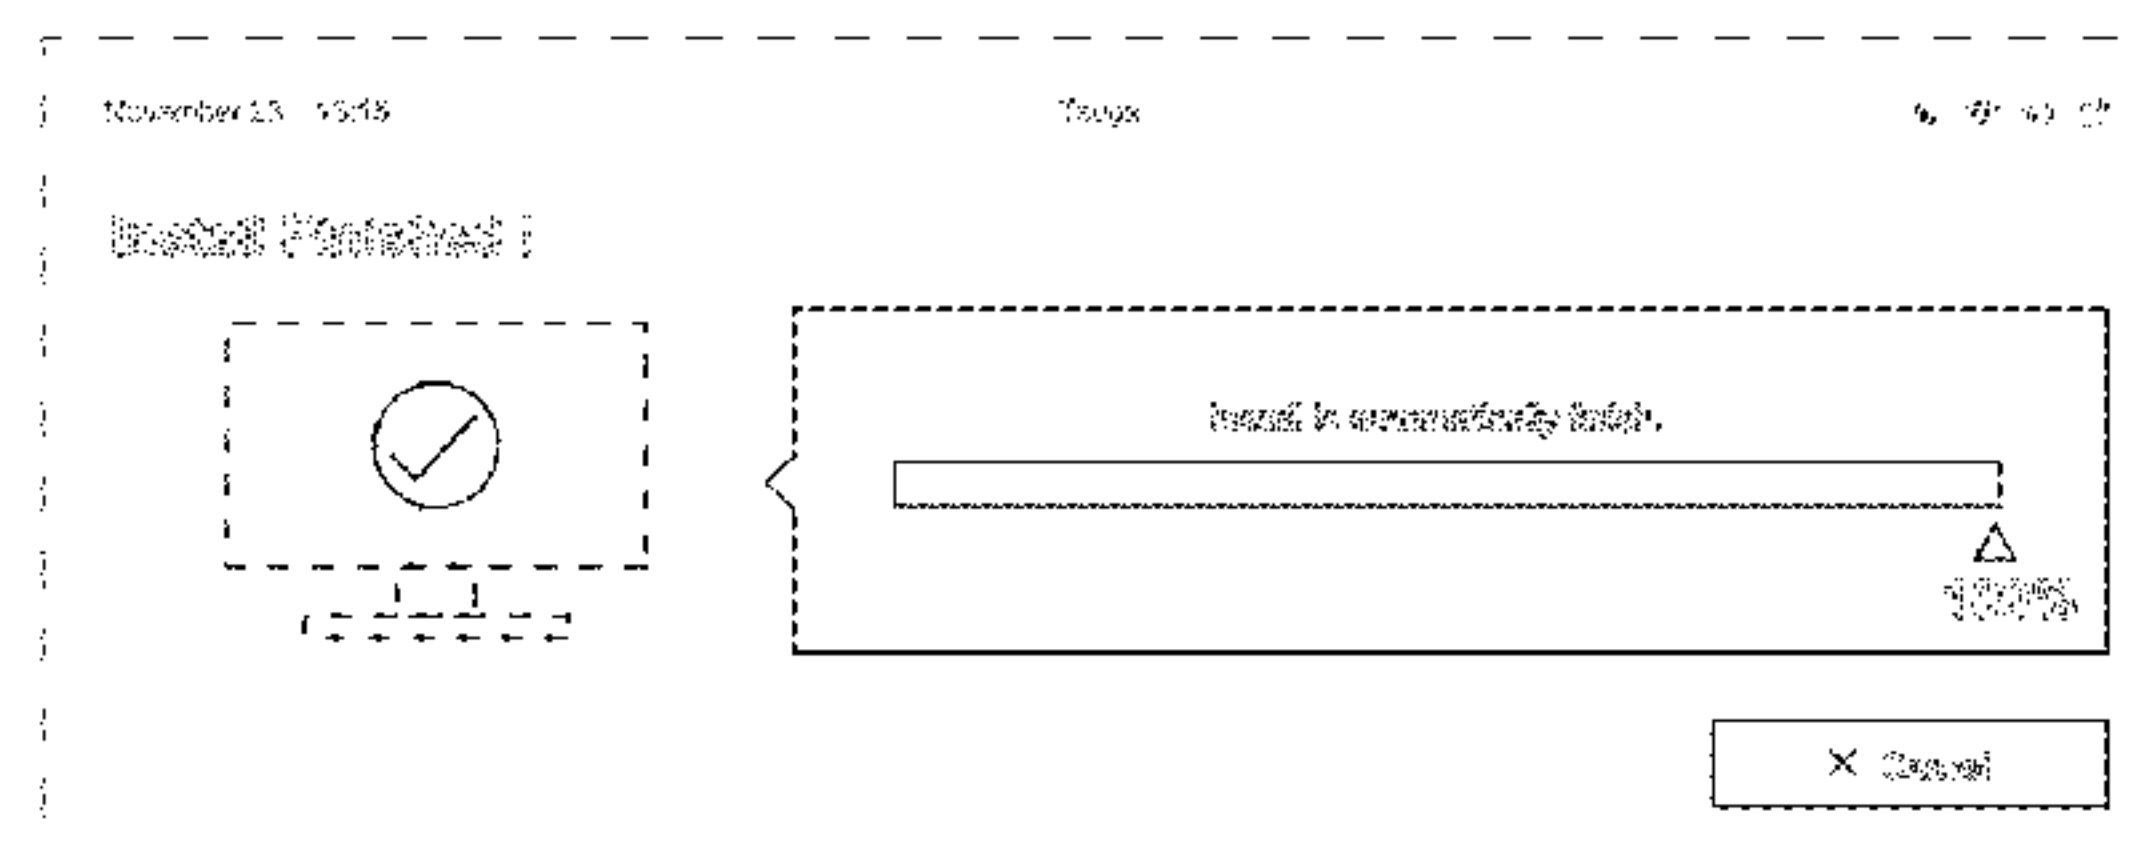

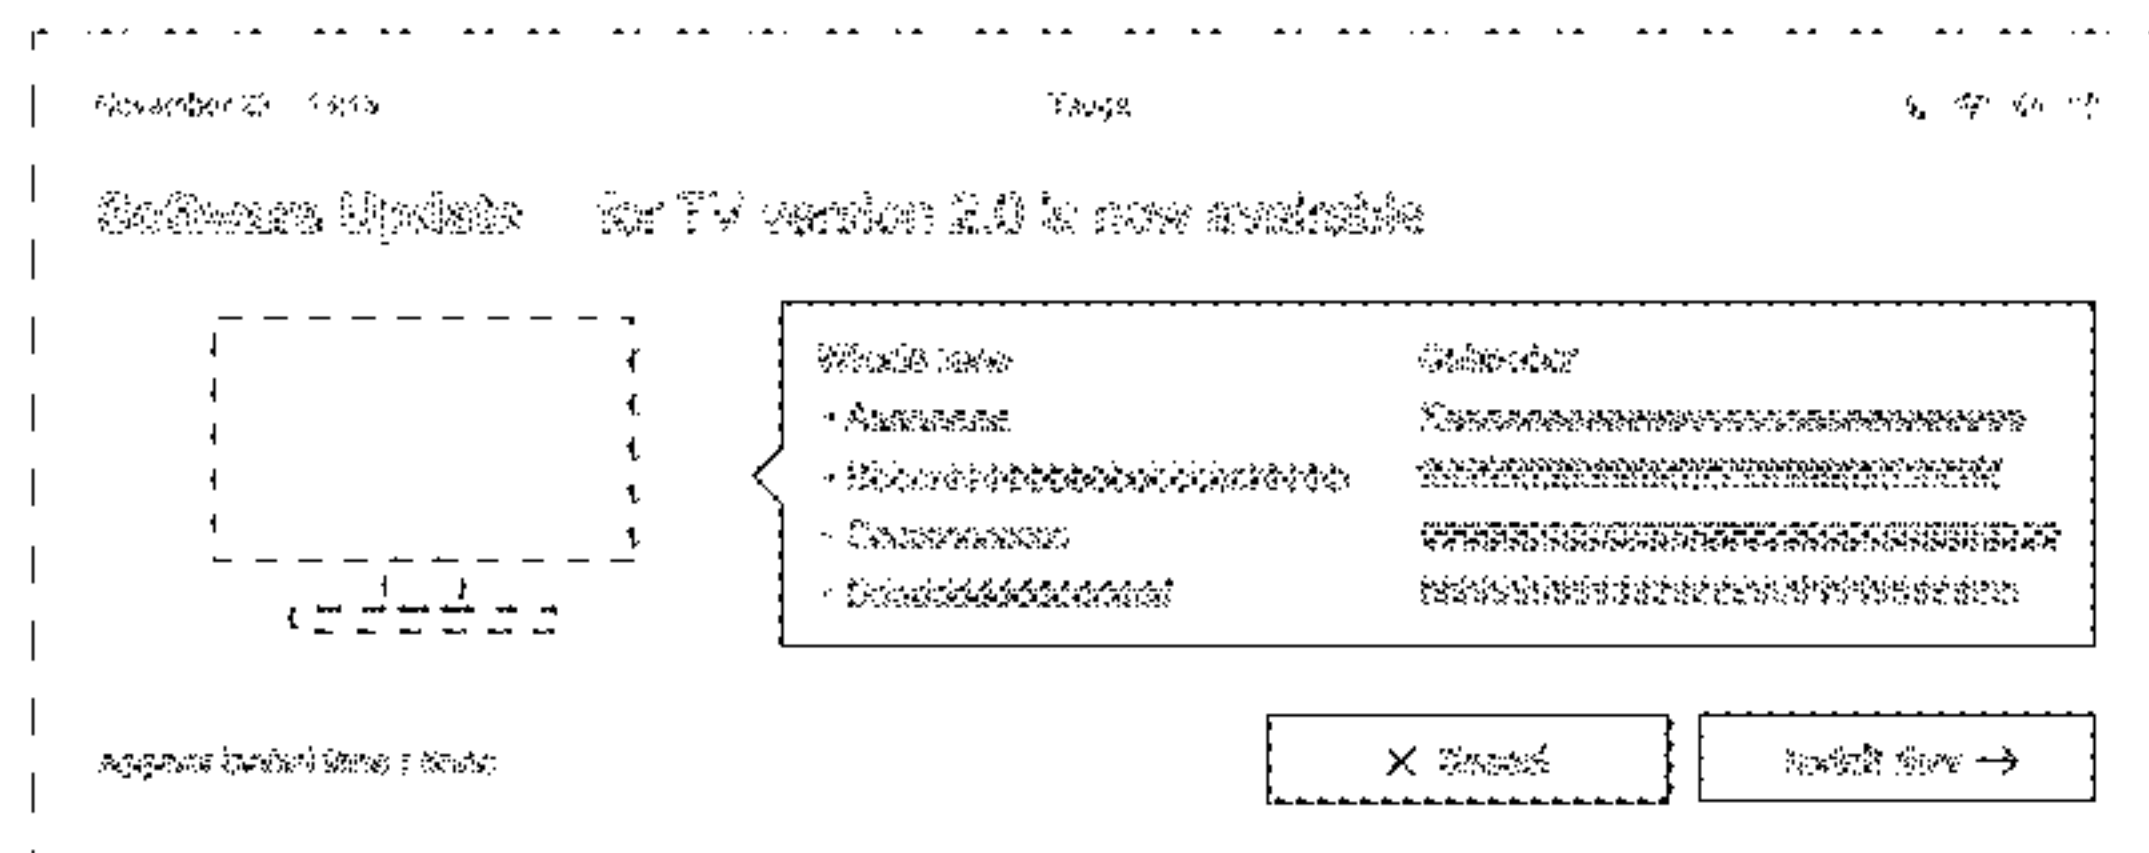

FIG. 1 is a front view showing a display screen with graphical user interface of the present invention shown in a first state;

FIG. 2 is a front view thereof shown in a second state; and, FIG. 3 is a front view thereof shown in a third state.

The broken lines show parts of the display screen with graphical user interface that represent unclaimed subject matter and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between FIGS. 1-3. No ornamental aspects are associated with the process or period in which one image transitions to another image.
