(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of a transitional graphical user interface on a display screen; FIG. 2 is a front view of a second image in the sequence of the transitional graphical user interface on the display screen;

FIG. 3 is a front view of a third image in the sequence of the transitional graphical user interface on the display screen; FIG. 4 is a front view of a fourth image in the sequence of the transitional graphical user interface on the display screen;

FIG. 5 is a front view of a fifth image in the sequence of the transitional graphical user interface on the display screen; FIG. 6 is a front view of a sixth image in the sequence of the transitional graphical user interface on the display screen; FIG. 7 is a front view of a seventh image in the sequence of the transitional graphical user interface on the display screen;

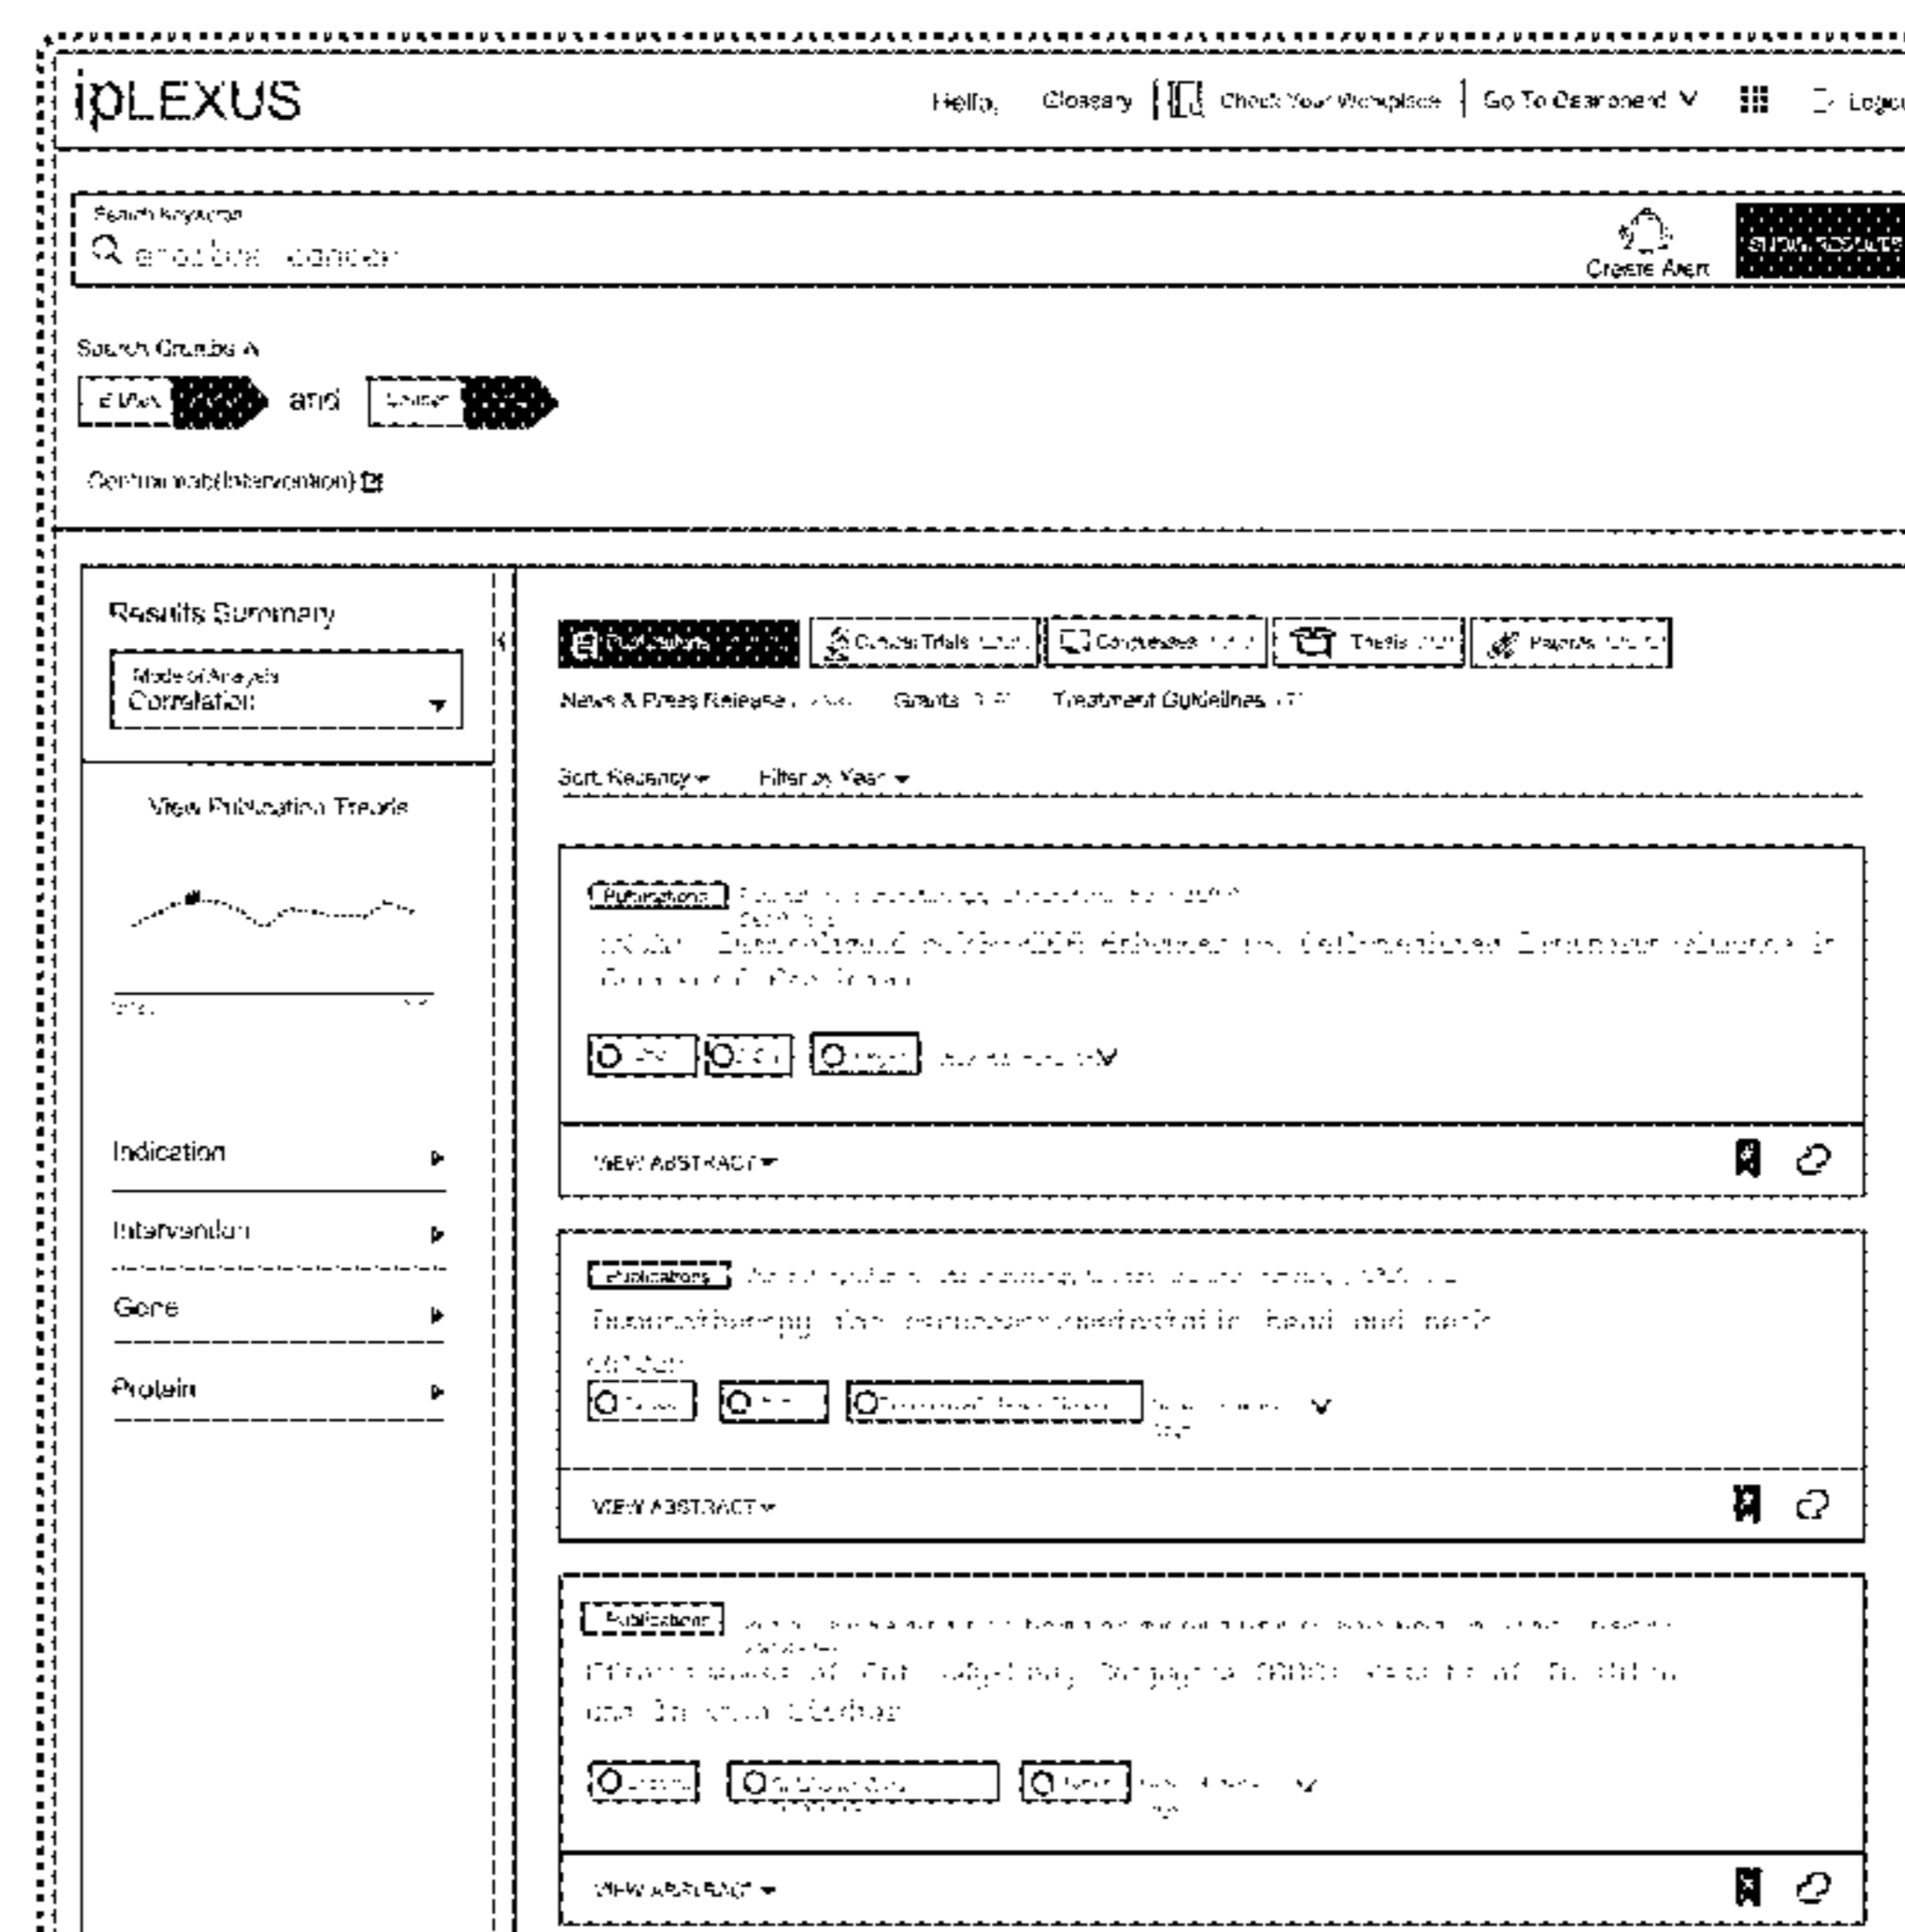

FIG. 8 is a front view of an eighth image in the sequence of the transitional graphical user interface on the display screen; and,

FIG. 9 is a front view of a ninth image in the sequence of the transitional graphical user interface on the display screen.

The appearance of the transitional graphical user interface sequentially transitions between the images shown in FIGS. 1-9. The process or period in which one image transitions to another image forms no part of the claimed design.

The outer broken line rectangle showing the display screen and all other broken lines showing portions of the graphical user interface do not form part of the claimed design.

1 Claim, 9 Drawing Sheets

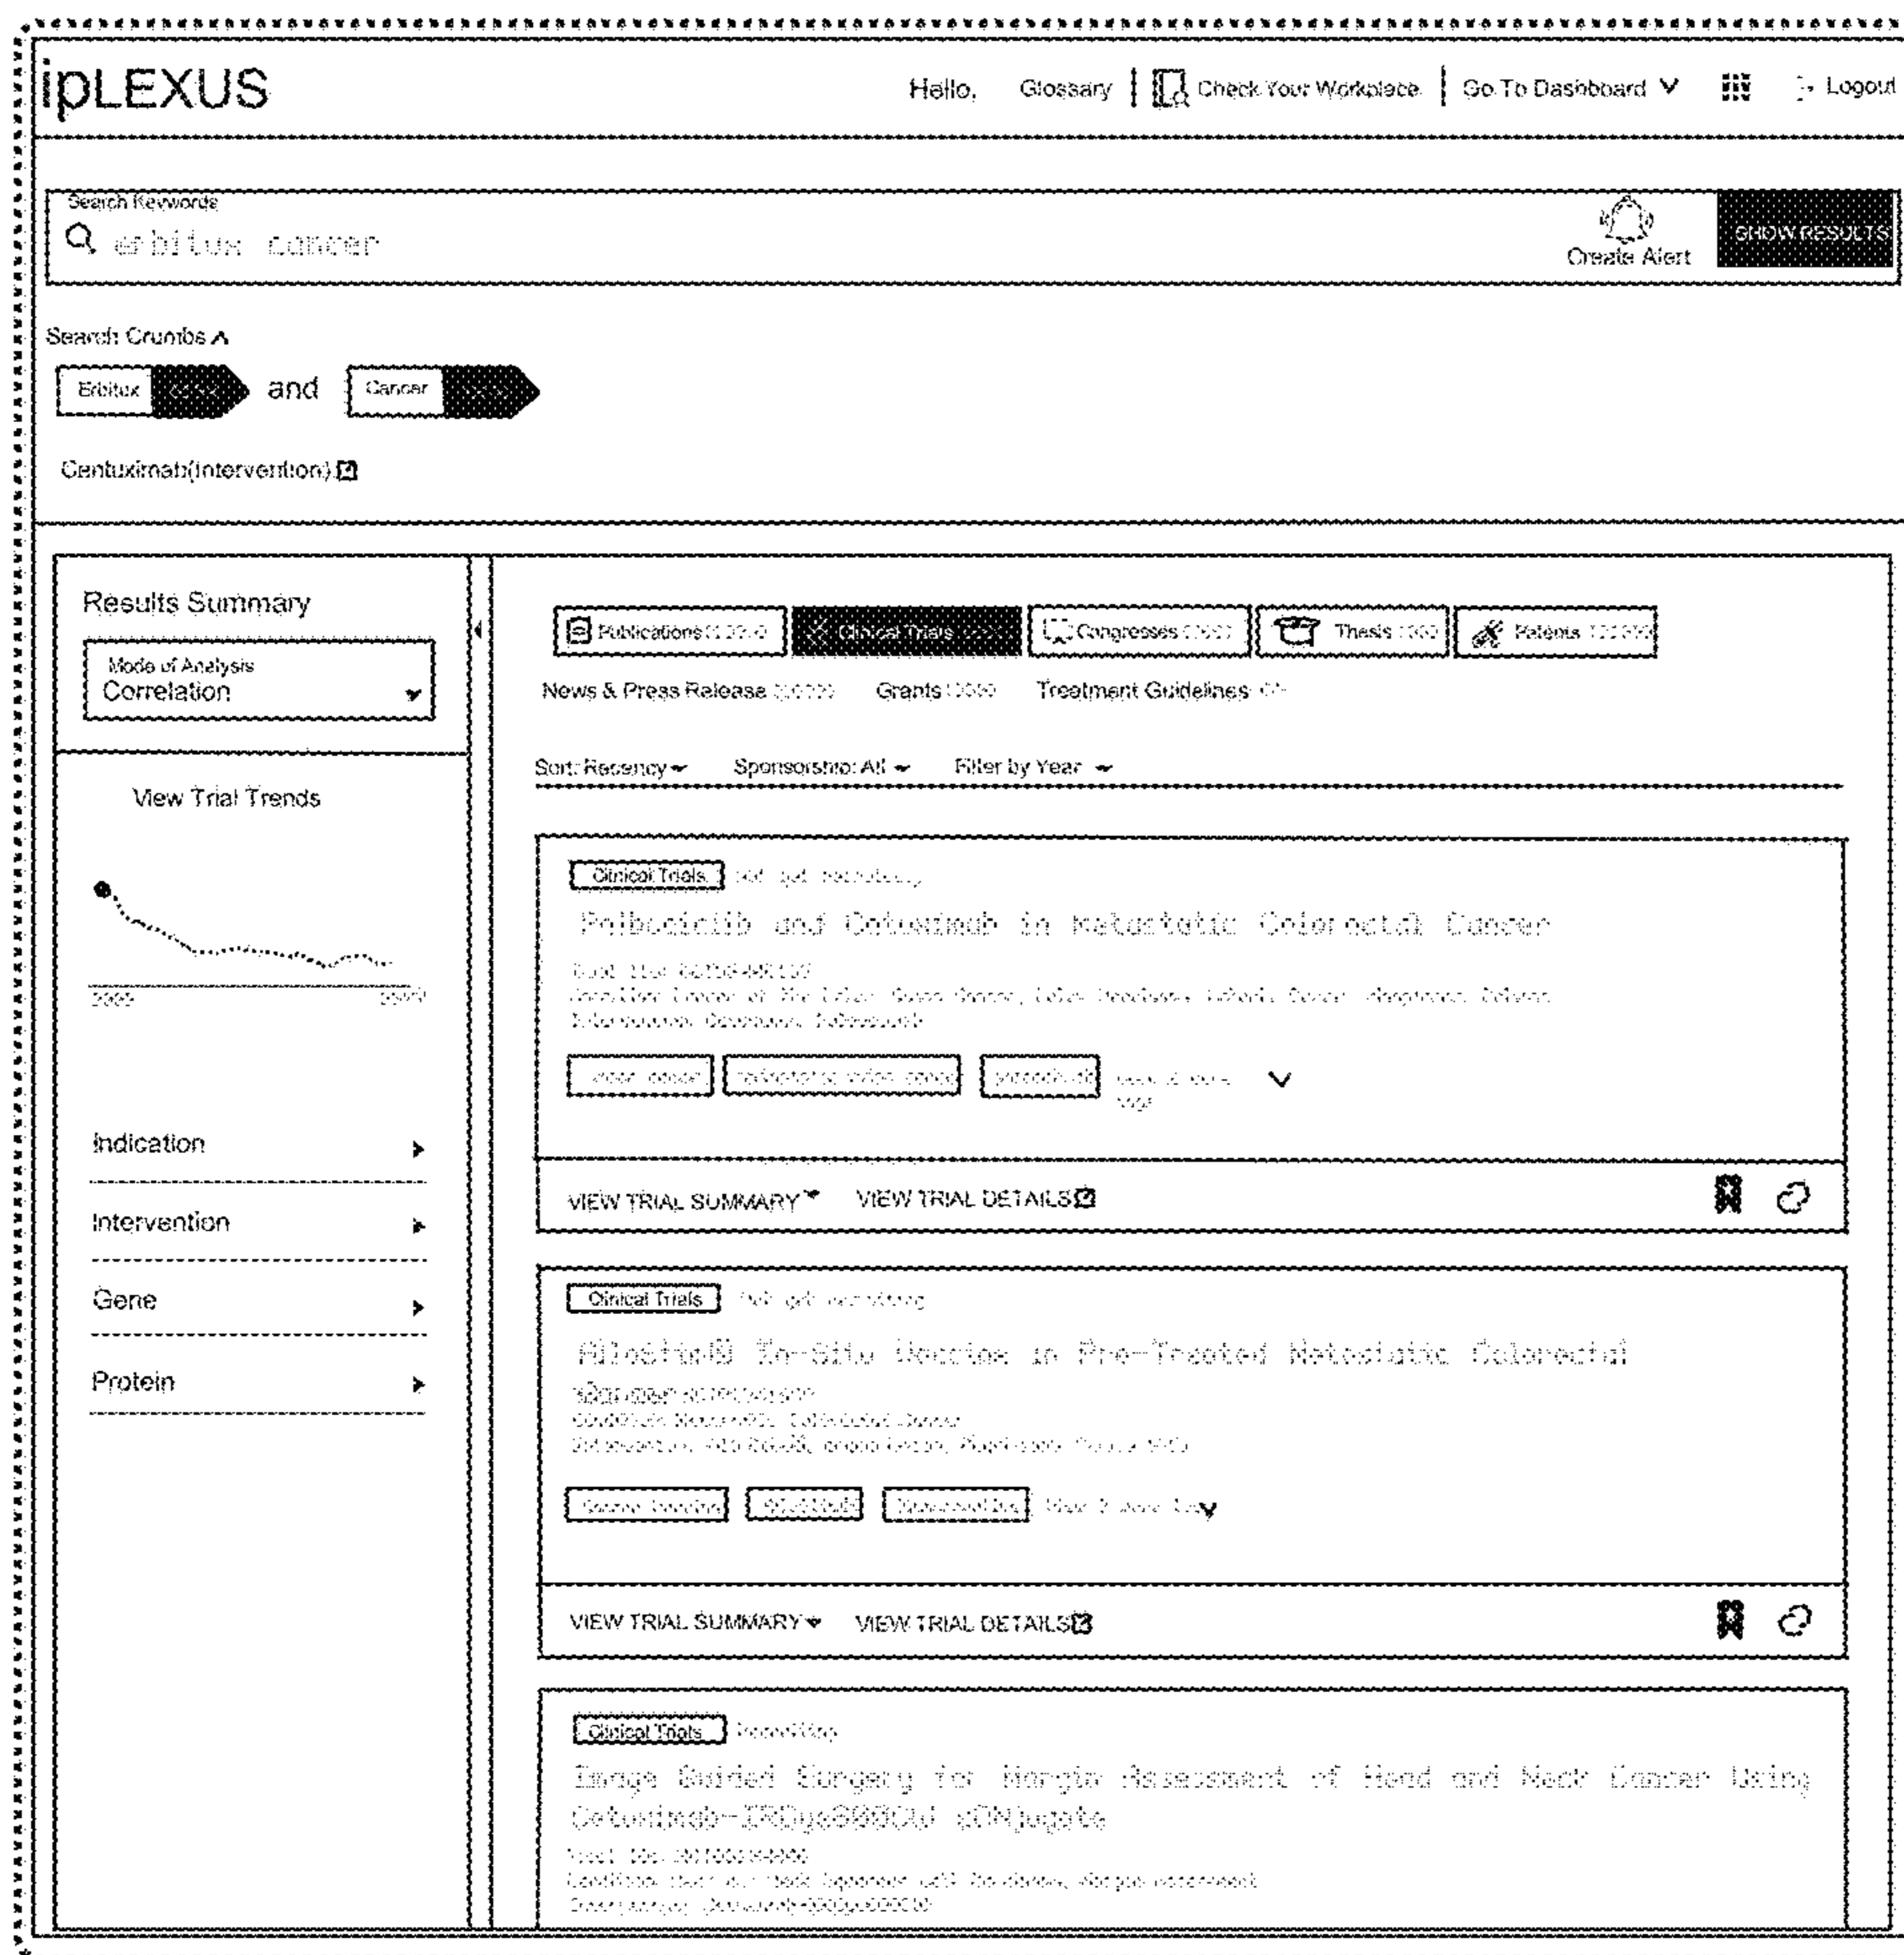

FIG. 3

The screenshot shows the iPLEXUS search results page for the query "erbitux cancer". The page features a navigation bar with the iPLEXUS logo, user information, and utility links. A search bar contains the query "erbitux cancer" and a "SHOW RESULTS" button. Below the search bar, search crumbs show "erbitux" and "cancer" with arrows indicating the search path. A filter for "Centximab(intervention)" is active. The main content area is divided into a left sidebar and a right main panel. The sidebar includes a "Results Summary" section with a "Mode of Analysis" dropdown set to "Correlation", a "View Congress Trends" line graph, and a list of filters for Indication, Intervention, Gene, and Protein. The main panel displays a list of search results, each with a "Congress" tag, a title, a brief description, and a "VIEW ABSTRACT" button. The results are sorted by "Recency" and filtered by "Year".
