#### CLAIM

The ornamental design for a display screen with graphical user interface for medical billing workflow management, as shown and described.

#### DESCRIPTION

The FIGURE is a front view of display screen with graphical user interface for medical billing workflow management. The dashed broken line showing of a monitor is included for the purpose of illustrating environmental subject matter and forms no part of the claimed design; the dashed broken line showing of a display screen and fine broken line showing of a graphical user interface is included for the purpose of illustrating portions of the article and forms no part of the claimed design.
