(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen with graphical user interface, showing our new design;

FIG. 2 is another front view of the first embodiment of the display screen with graphical user interface, showing our new design;

FIG. 3 is another front view of the first embodiment of the display screen with graphical user interface, showing our new design;

FIG. 4 is a front view of a second embodiment of the display screen with graphical user interface, showing our new design;

FIG. 5 is another front view of the second embodiment of the display screen with graphical user interface, showing our new design; and,

FIG. 6 is another front view of the second embodiment of the display screen with graphical user interface, showing our new design.

The outermost dual set of broken lines and the broken line showing of the outer circular features illustrate an electronic device. The single broken line at the periphery of the figures illustrate a display screen. The remainder of the broken lines illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
