(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence, showing our new design;

FIG. 2 is a front view showing a second image thereof;

FIG. 3 is a front view showing a third image thereof;

FIG. 4 is a front view showing a fourth image thereof;

FIG. 5 is a front view of a second embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;

FIG. 6 is a front view showing a second image thereof;

FIG. 7 is a front view showing a third image thereof;

FIG. 8 is a front view showing a fourth image thereof;

FIG. 9 is a third embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;

FIG. 10 is a front view showing a second image thereof;

FIG. 11 is a front view showing a third image thereof;

FIG. 12 is a front view showing a fourth image thereof;

FIG. 13 is a fourth embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;

FIG. 14 is a front view showing a second image thereof;

FIG. 15 is a front view showing a third image thereof;

(Continued)

FIG. 16 is a front view showing a fourth image thereof;
 FIG. 17 is a front view of a fifth embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;
 FIG. 18 is a front view showing a second image thereof;
 FIG. 19 is a front view showing a third image thereof;
 FIG. 20 is a front view showing a fourth image thereof;
 FIG. 21 is front view of a sixth embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;
 FIG. 22 is a front view showing a second image thereof;
 FIG. 23 is a front view showing a third image thereof;
 FIG. 24 is a front view showing a fourth image thereof;
 FIG. 25 is a front view of a seventh embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;
 FIG. 26 is a front view showing a second image thereof;
 FIG. 27 is a front view showing a third image thereof;
 FIG. 28 is a front view showing a fourth image thereof;
 FIG. 29 is a front view of an eighth embodiment of a display screen or portion thereof with transitional graphical user interface showing a first image in a sequence;
 FIG. 30 is a front view showing a second image thereof;
 FIG. 31 is a front view showing a third image thereof; and,
 FIG. 32 is a front view showing a fourth image thereof.
 The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-4, 5-8, 9-12, 13-16, 17-20, 21-24, 25-28 and FIGS. 29-32. The process or period in which one image transitions to another image forms no part of the claimed design.
 The outer broken lines in the figures illustrate a display screen or portion thereof and form no part of the claimed design. The remainder of the broken lines in the figures illustrate portions of the graphical user interface that form no part of the claimed design.
