(57) **CLAIM**

The ornamental design for a case for a mobile device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the front-right side of a first embodiment of the new design with a bistable spring in a first position;
FIG. 2 is a front view of the first embodiment with the bistable spring in a first position;
FIG. 3 is a right side view of the first embodiment with the bistable spring in a first position;
FIG. 4 is a left side view of the first embodiment with the bistable spring in a first position;
FIG. 5 is a rear view of the first embodiment with the bistable spring in a first position;
FIG. 6 is a bottom view of the first embodiment with the bistable spring in a first position;
FIG. 7 is a top view of the first embodiment with the bistable spring in a first position;
FIG. 8 is a perspective view of the rear-right side of the first embodiment with the bistable spring in a first position, shown with an illustrative mobile device;
FIG. 9 is a perspective view of the front-right side of the first embodiment of the new design with the bistable spring in a second position; and,
FIG. 10 is a right side view of the first embodiment with the bistable spring in a second position, shown positioned on a surface and with an illustrative mobile device.
The broken lines in the drawings illustrate portions of the article and form no part of the claimed design or illustrate environmental structure and form no part of the claimed design.

1 Claim, 9 Drawing Sheets
