(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee
FIG. 1 is a front view of a first image of a display screen or portion thereof with graphical user interface showing a first embodiment of our new design;

FIG. 2 is a front view of a second image thereof;

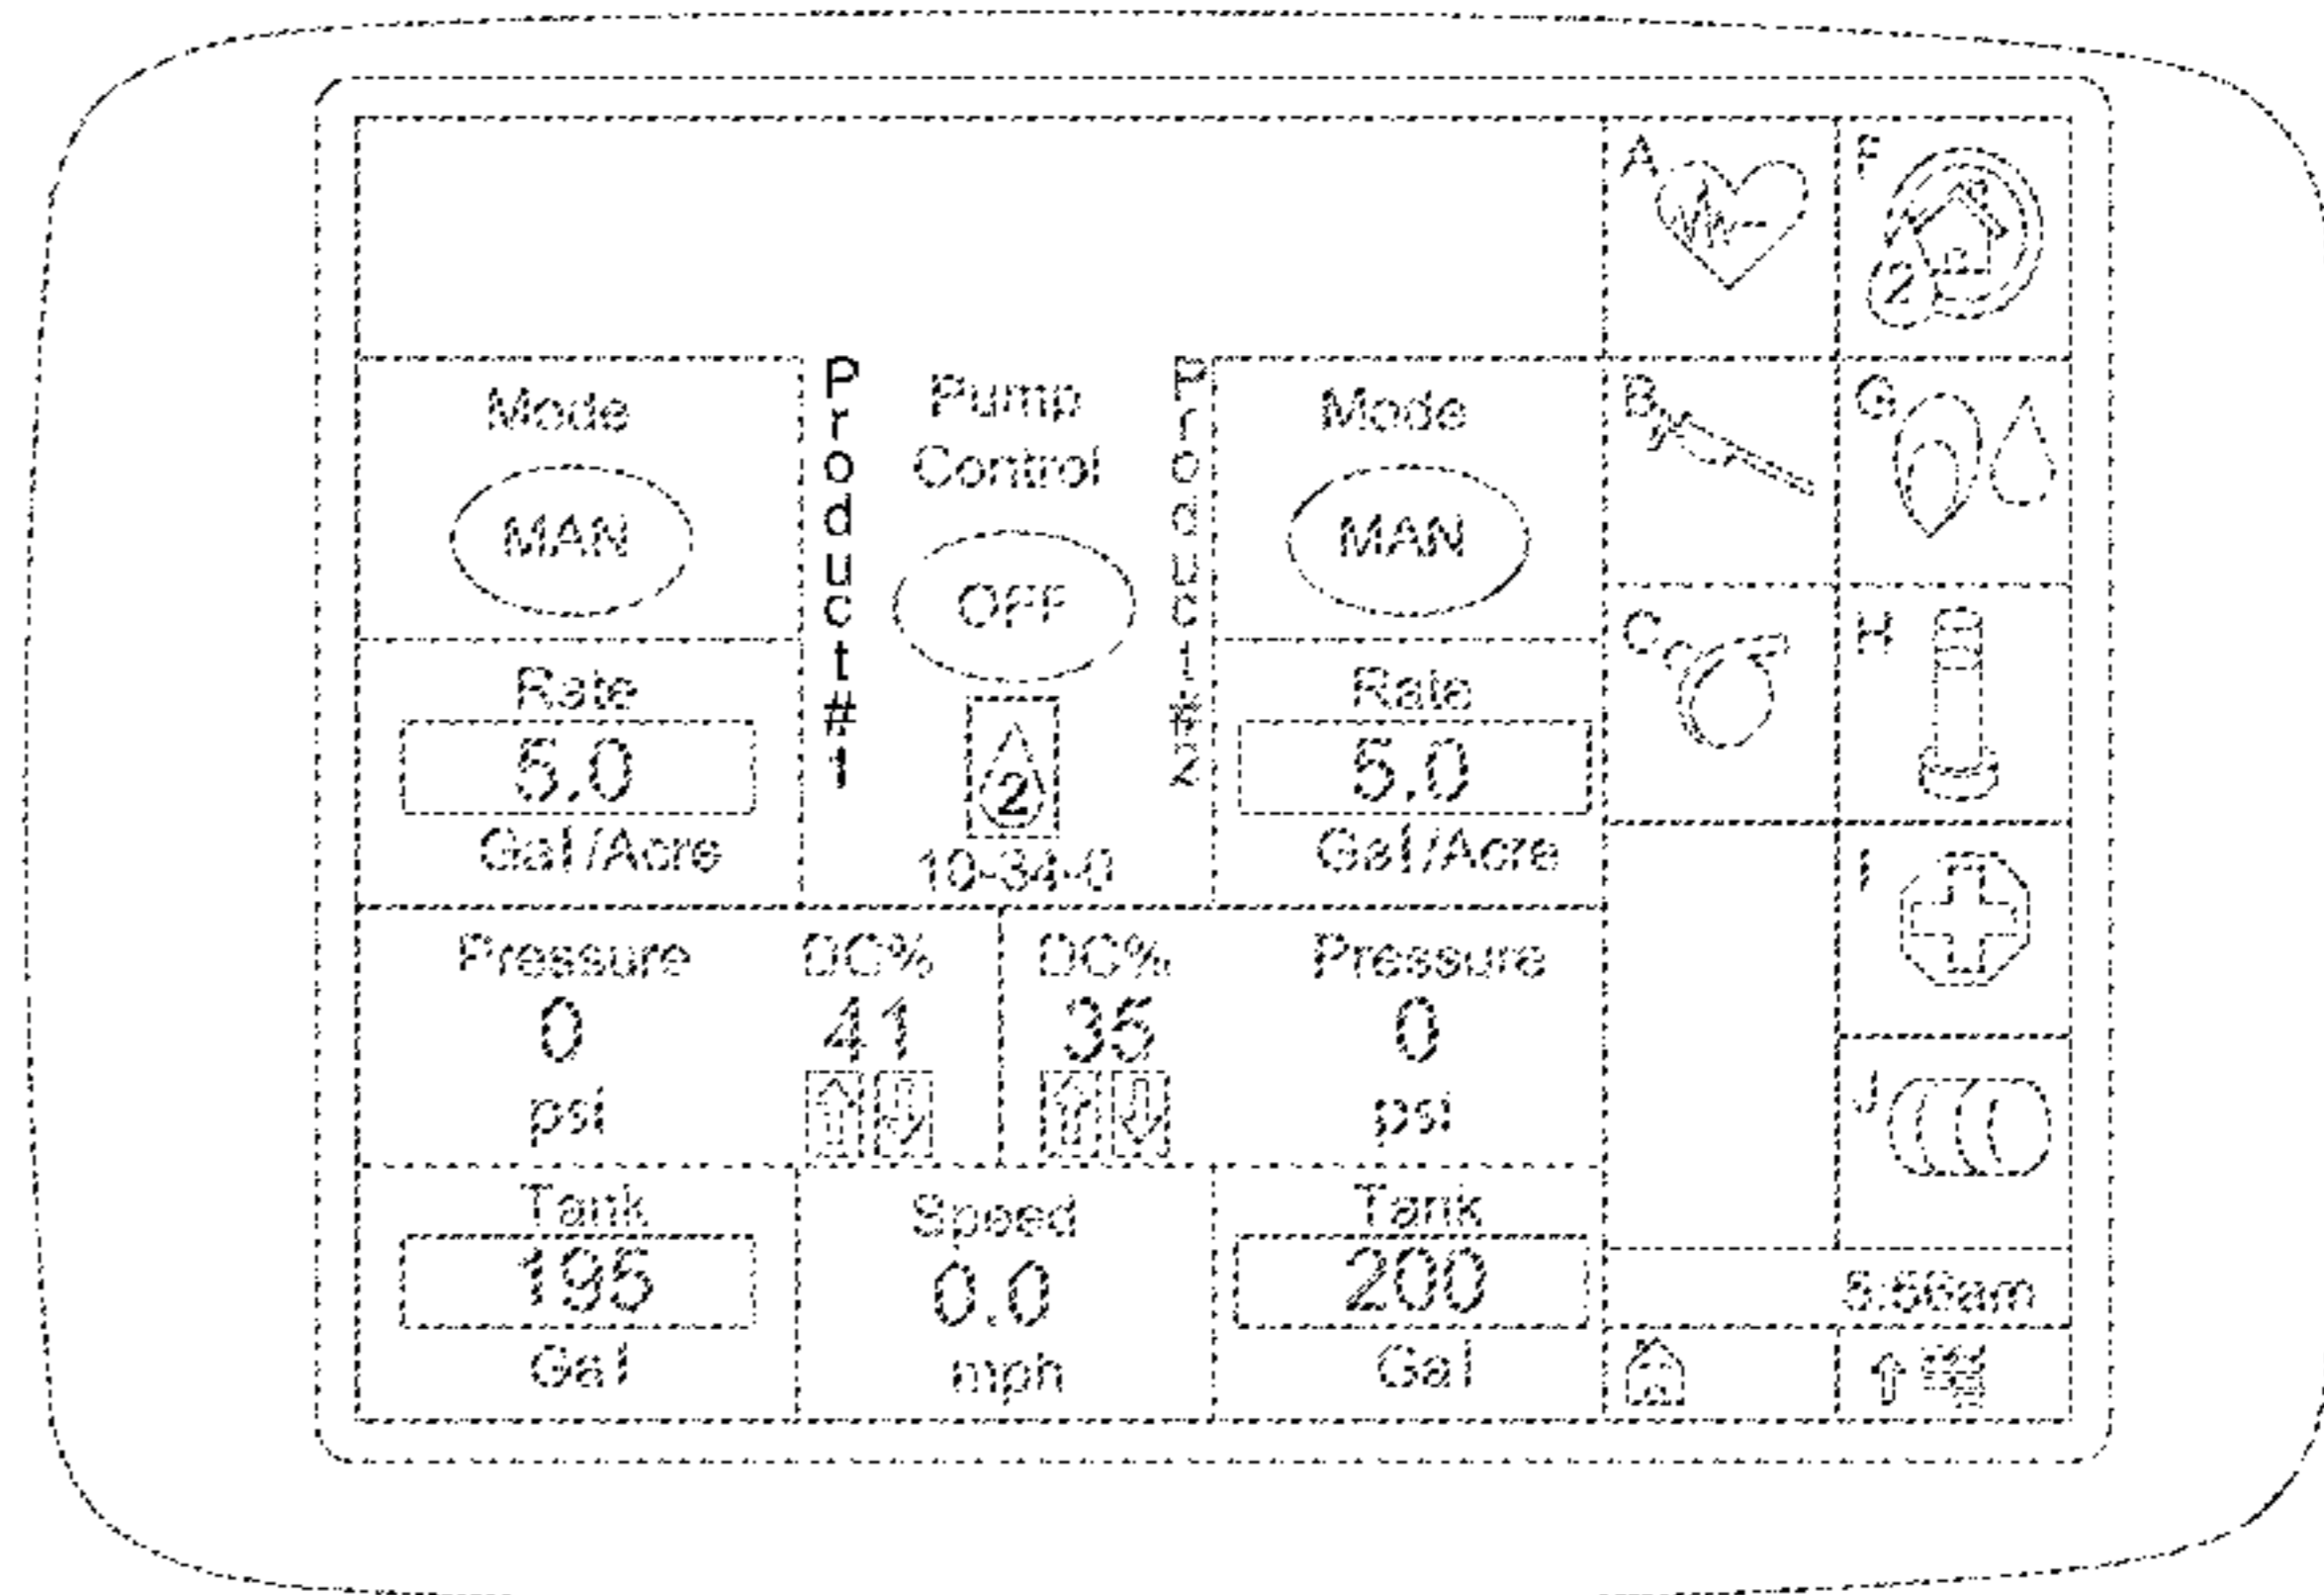

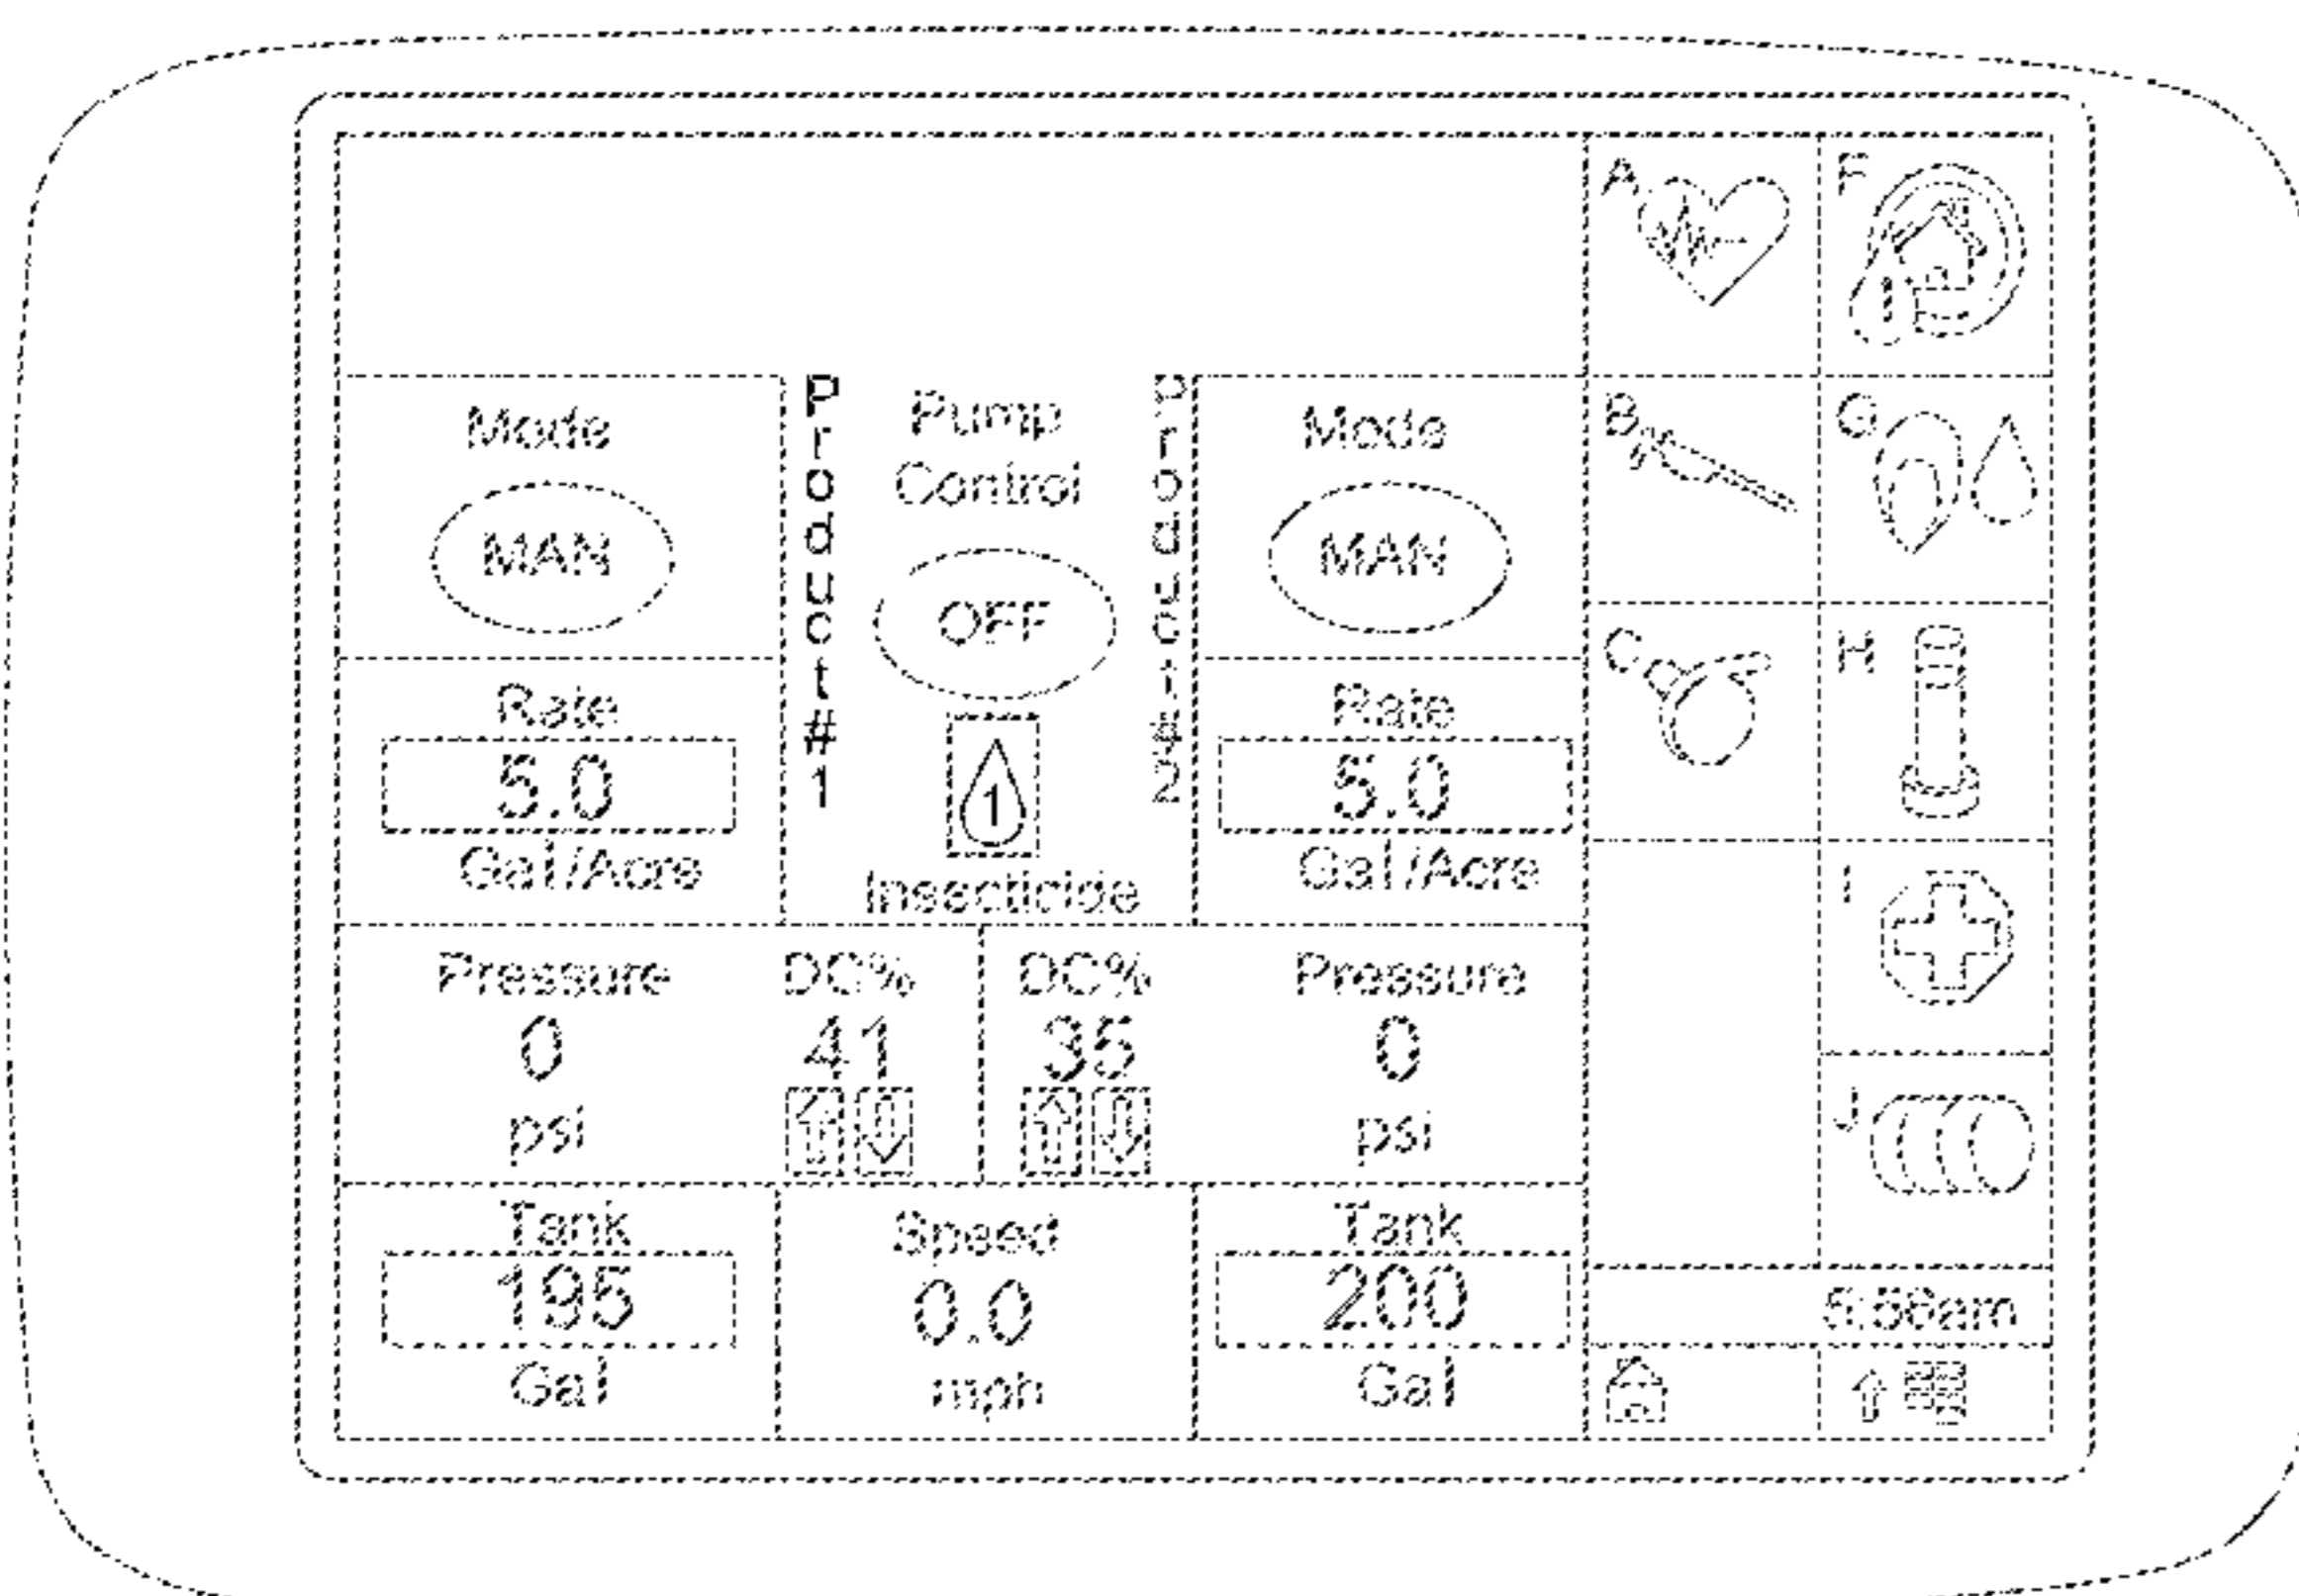

FIG. 3 is a front view of a first image of a display screen or portion thereof with graphical user interface showing a second embodiment of our new design; and,

FIG. 4 is a front view of a second image thereof.

In these drawings, the outermost broken lines show a display screen or portion thereof, and form no part of the claimed design. The other broken lines in the drawings show portions of the graphical user interface that form no part of the claimed design. Stippling is used in the drawings to indicate a contrast in appearance.

The appearance of the image of the first embodiment transitions sequentially between the images shown in FIGS. 1 and 2. The appearance of the image of the second embodiment transitions sequentially between the images shown in FIGS. 3 and 4. The process or period in which an image transitions to another forms no part of the claimed design.
