CLAIM

The ornamental design of a case for electronic devices, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a case for electronic devices, showing my new design;

FIG. 2 is a rear perspective view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is an enlarged top plan view thereof;

FIG. 8 is an enlarged bottom plan view thereof;

FIG. 9 is a front perspective view of the protective screen of the case, shown isolated from the case for clarity of illustration;

FIG. 10 is a rear perspective view of the protective screen of the case, shown isolated from the case for clarity of illustration;

FIG. 11 is a front perspective view of the hard inner frame of the case, shown isolated from the case for clarity of illustration;

FIG. 12 is a rear perspective view of the hard inner frame of the case, shown isolated from the case for clarity of illustration;

FIG. 13 is a front perspective view of the hard inner shell of the case, shown isolated from the case for clarity of illustration;

FIG. 14 is a rear perspective view of the hard inner shell of the case, shown isolated from the case for clarity of illustration;

FIG. 15 is a front perspective view of the soft outer shell of the case, shown isolated from the case for clarity of illustration;

FIG. 16 is a rear perspective view of the soft outer shell of the case, shown isolated from the case for clarity of illustration;

FIG. 17 is a front exploded perspective view of the case for electronic devices; and,

FIG. 18 is a rear exploded perspective view of the case for electronic devices.

The case for electronic devices in which the claimed design is embodied consists of a protective screen, a hard inner frame, a hard inner shell, and a soft outer shell. However, the claim is directed to the ornamental appearance of the case for electronic devices in its entirety and does not extend to the ornamental appearance of each of the individual components in isolation.

The broken lines, and unshaded regions bounded by broken lines, depict portions of the case for electronic devices that form no part of the claimed design.
