(57) **CLAIM**

The ornamental design for a portion of a display screen with transitional graphical user interface, as shown and described.

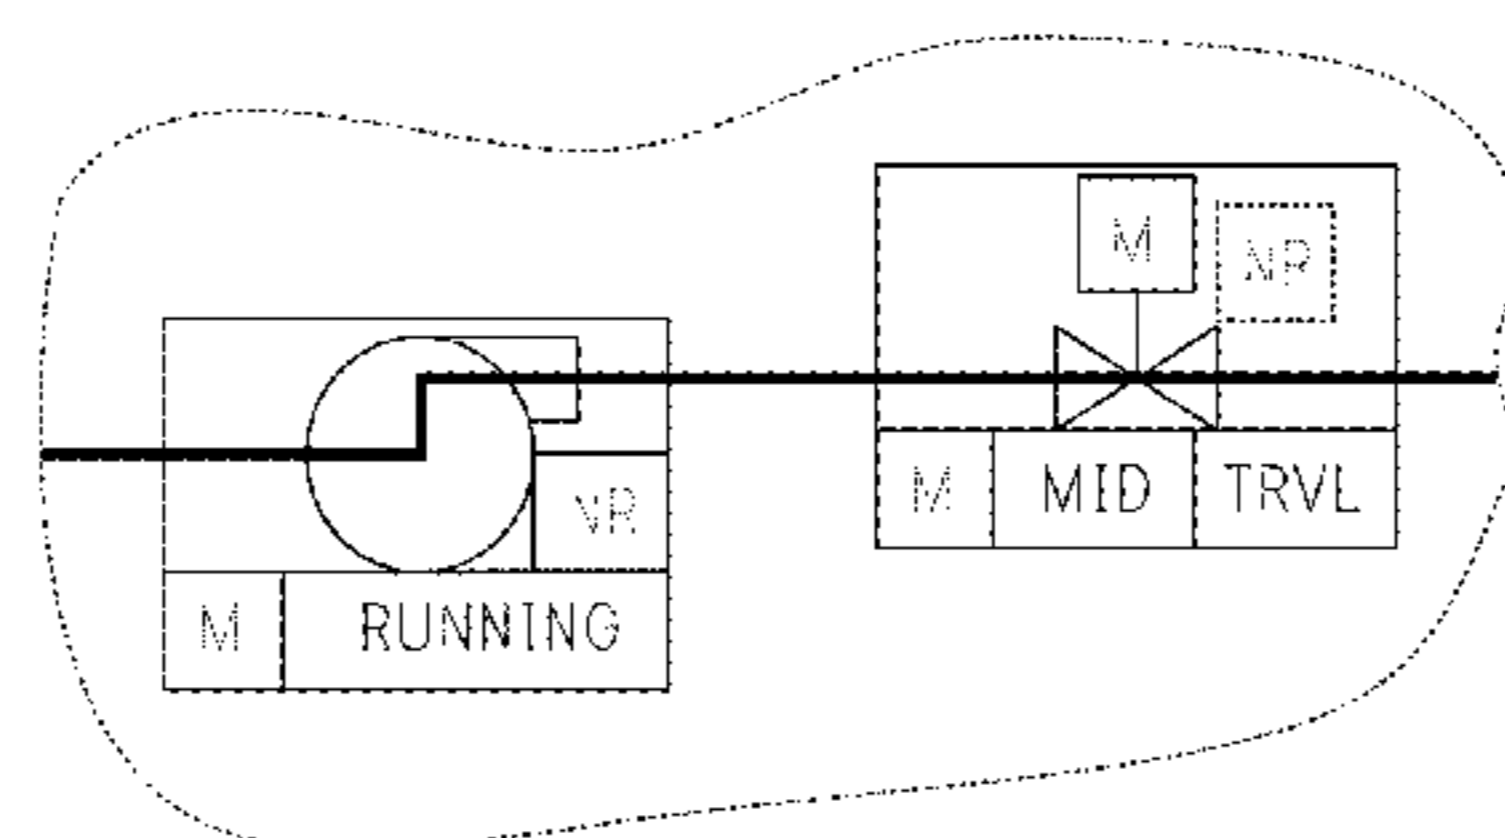

DESCRIPTION

FIG. 1 is a first image of a portion of a display screen with a transitional graphical user interface showing my new design; and,

FIG. 2 is a second image thereof.

The appearance of the transitional graphical user interface transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design. The outermost broken-line perimeter illustrates a portion of a display screen and forms no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface and form no part of the claimed design.
