(57) **CLAIM**

The ornamental design for a portion of display panel or screen with graphical user interface, as shown and described.

DESCRIPTION

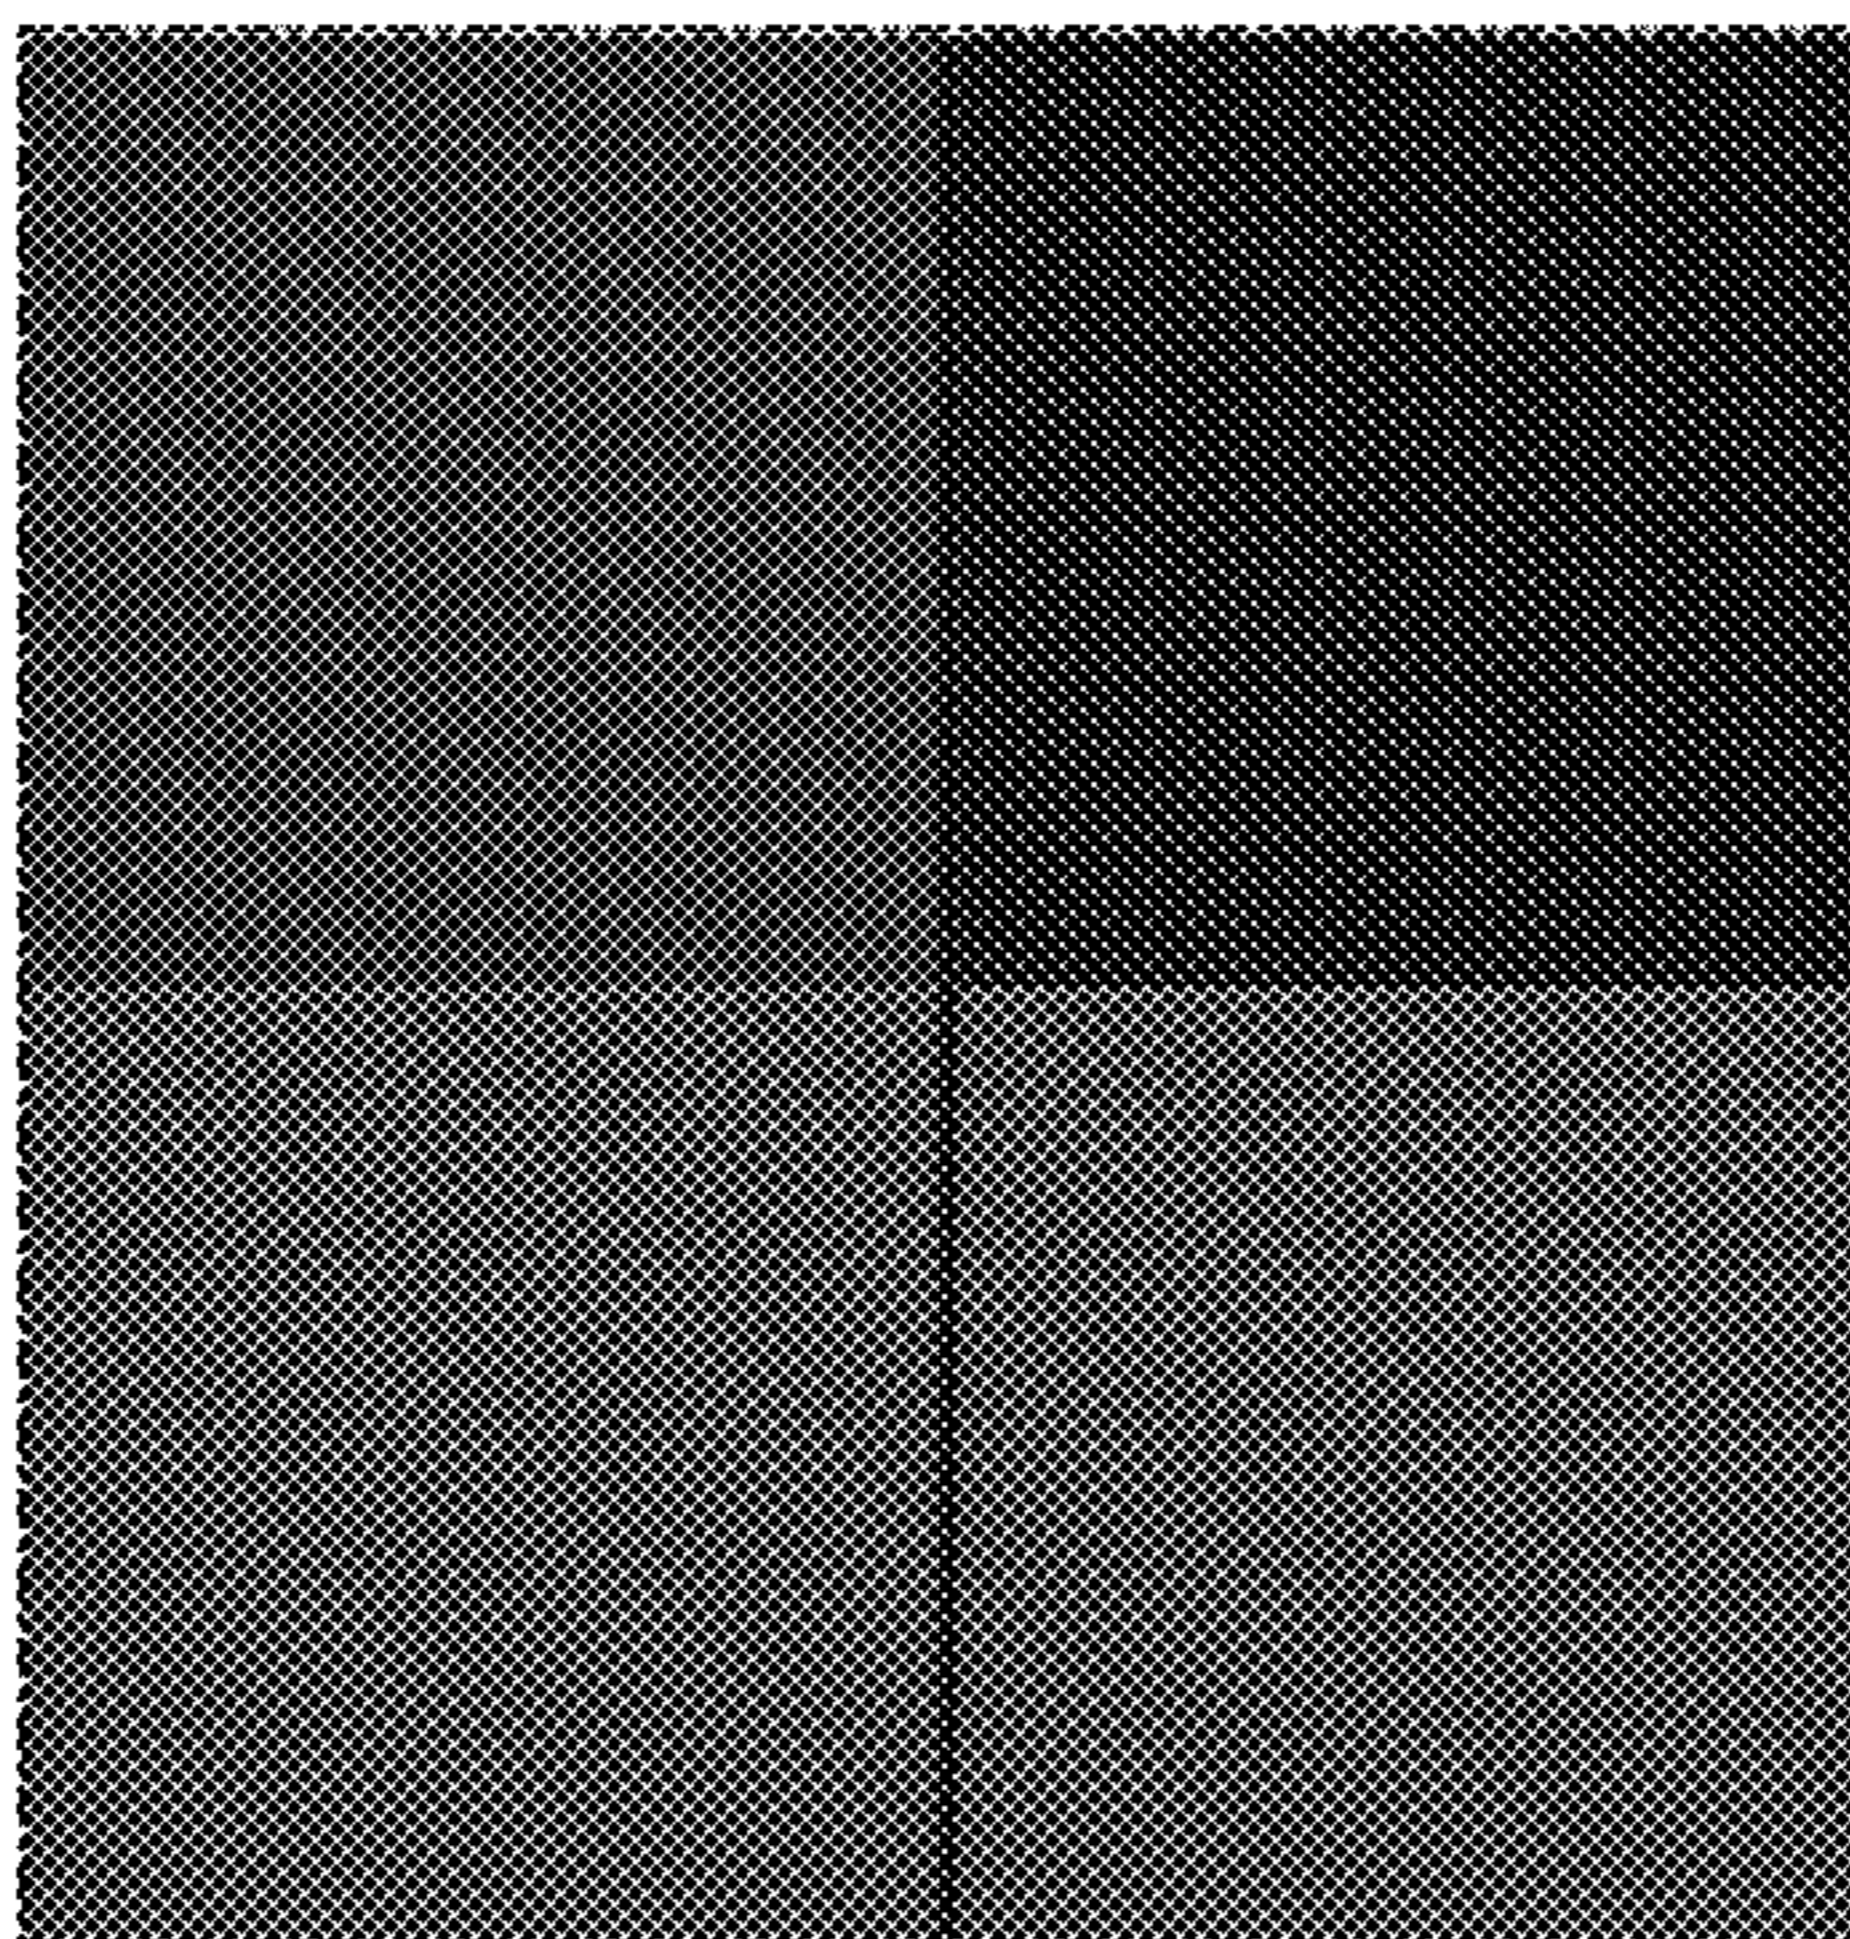

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a portion of a display panel or screen showing our new design, wherein the black dot-dash lines indicate the boundaries of, but are not included in, the claimed design; and,

FIG. 2 is an enlarged front view thereof.

The even dash broken lines illustrate the bezel of a display panel or screen and form no part of the claimed design. The portions of the graphical user interface shown in lighter value outside the boundary of the claimed design form no part of the claimed design.
