(57) **CLAIM**

We claim the ornamental design for a combined food and food package, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a combined food and food package.

FIG. 2 is a top view of the combined food and food package shown in FIG. 1.

FIG. 3 is a bottom view of the combined food and food package shown in FIG. 1.

FIG. 4 is a front view of the combined food and food package shown in FIG. 1.

FIG. 5 is a rear view of the combined food and food package shown in FIG. 1.

FIG. 6 is a left side view of the combined food and food package shown in FIG. 1.

FIG. 7 is a right side view of the combined food and food package shown in FIG. 1.

FIG. 8 is a perspective view of a combined food and food package.

FIG. 9 is a top view of the combined food and food package shown in FIG. 8.

FIG. 10 is a bottom view of the combined food and food package shown in FIG. 8.

FIG. 11 is a front view of the combined food and food package shown in FIG. 8.

FIG. 12 is a rear view of the combined food and food package shown in FIG. 8.

FIG. 13 is a left side view of the combined food and food package shown in FIG. 8; and,

FIG. 14 is a right side view of the combined food and food package shown in FIG. 8.

The broken lines having equal segments in the figures represent portions of the article that form no part of the claimed design. The broken lines having unequal length segments illustrate the boundaries between claimed and unclaimed portions of the design.

Any line in a drawing may provide a boundary line of a claimed design element. A boundary line of a claimed design element may also be defined in an area between lines in a

(Continued)

drawing. An element or a subset of any combination of elements in a drawing may form a claimed design.

1 Claim, 10 Drawing Sheets
