(57) **CLAIM**

The ornamental design for an instrument panel for an automobile, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an instrument panel for an automobile in accordance with our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a left side elevational view thereof;

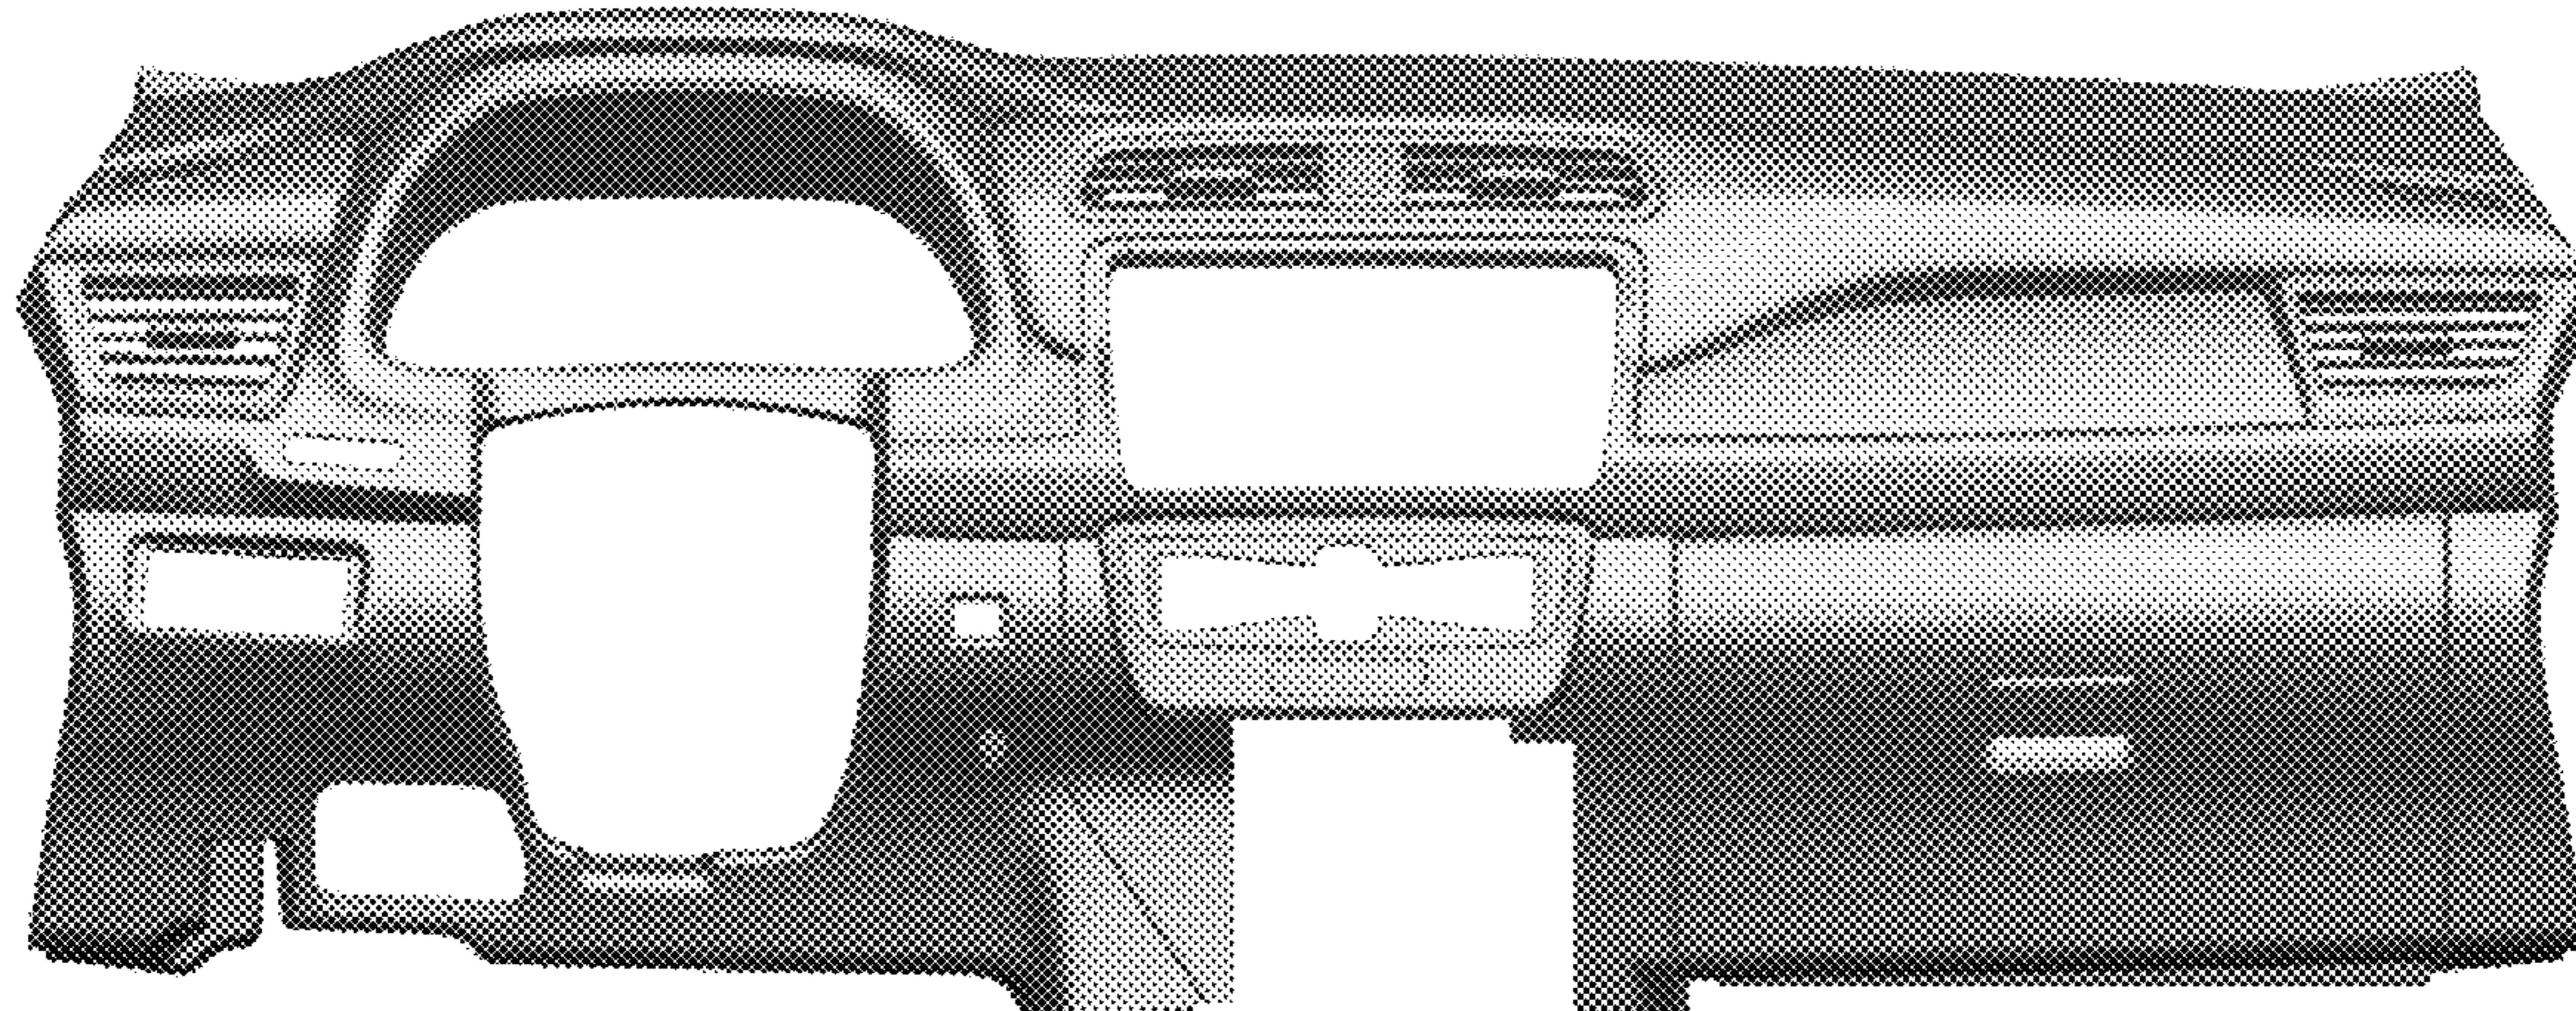

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a first side perspective view thereof; and,

FIG. 7 is a second perspective view thereof.

The rear view and rear surfaces of the instrument panel form no part of the claimed design. The instrument panel is configured to be mounted to an automobile. The inside surfaces of the instrument panel, shown in broken lines in FIGS. 2 to 7, form no part of the claimed design since the inside surfaces are hidden when the instrument panel is mounted to the automobile.

A second embodiment of our new design includes the mirror image of the instrument panel shown in FIGS. 1 to 7.
