**CLAIM**

The ornamental design for a clamping element of a dashboard vent mount for an electronic device, as shown and described.

**DESCRIPTION**

FIG. 1 is an elevation view of a clamping element of a dashboard vent mount for an electronic device;

FIG. 2 is a plan view of the top of the clamping element of the dashboard vent mount for an electronic device;

FIG. 3 is an elevation view of the left side of the clamping element of the dashboard vent mount for an electronic device;

FIG. 4 is an elevation view of the right side of the clamping element of the dashboard vent mount for an electronic device;

FIG. 5 is a plan view of the bottom of the clamping element of the dashboard vent mount for an electronic device;

FIG. 6 is an isometric view, from the front right, of the clamping element of the dashboard vent mount for an electronic device; and,

FIG. 7 is an isometric view, from the back left, of the clamping element of the dashboard vent mount for an electronic device.

The dash-dot-dash broken line portion of the figure drawings, which illustrate a vent attachment portion of a dashboard vent mount for a portable electronic device, is included to show unclaimed subject matter only and forms no part of the claimed design. The evenly spaced dashed broken lines shown on shaded and claimed surfaces, including the evenly spaced dashed broken line concentric circles shown on a shaded and claimed surface in FIG. 6, form no part of the claimed design.
