(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevation view of a first image of a display screen with animated graphical user interface, showing our new design;

FIG. 2 is a front elevation view of a second image thereof;

FIG. 3 is a front elevation view of a third image thereof;

FIG. 4 is a front elevation view of a fourth image thereof;

FIG. 5 is a front elevation view of a fifth image thereof;

FIG. 6 is a front elevation view of a sixth image thereof;

FIG. 7 is a front elevation view of a seventh image thereof;

FIG. 8 is a front elevation view of an eighth image thereof;

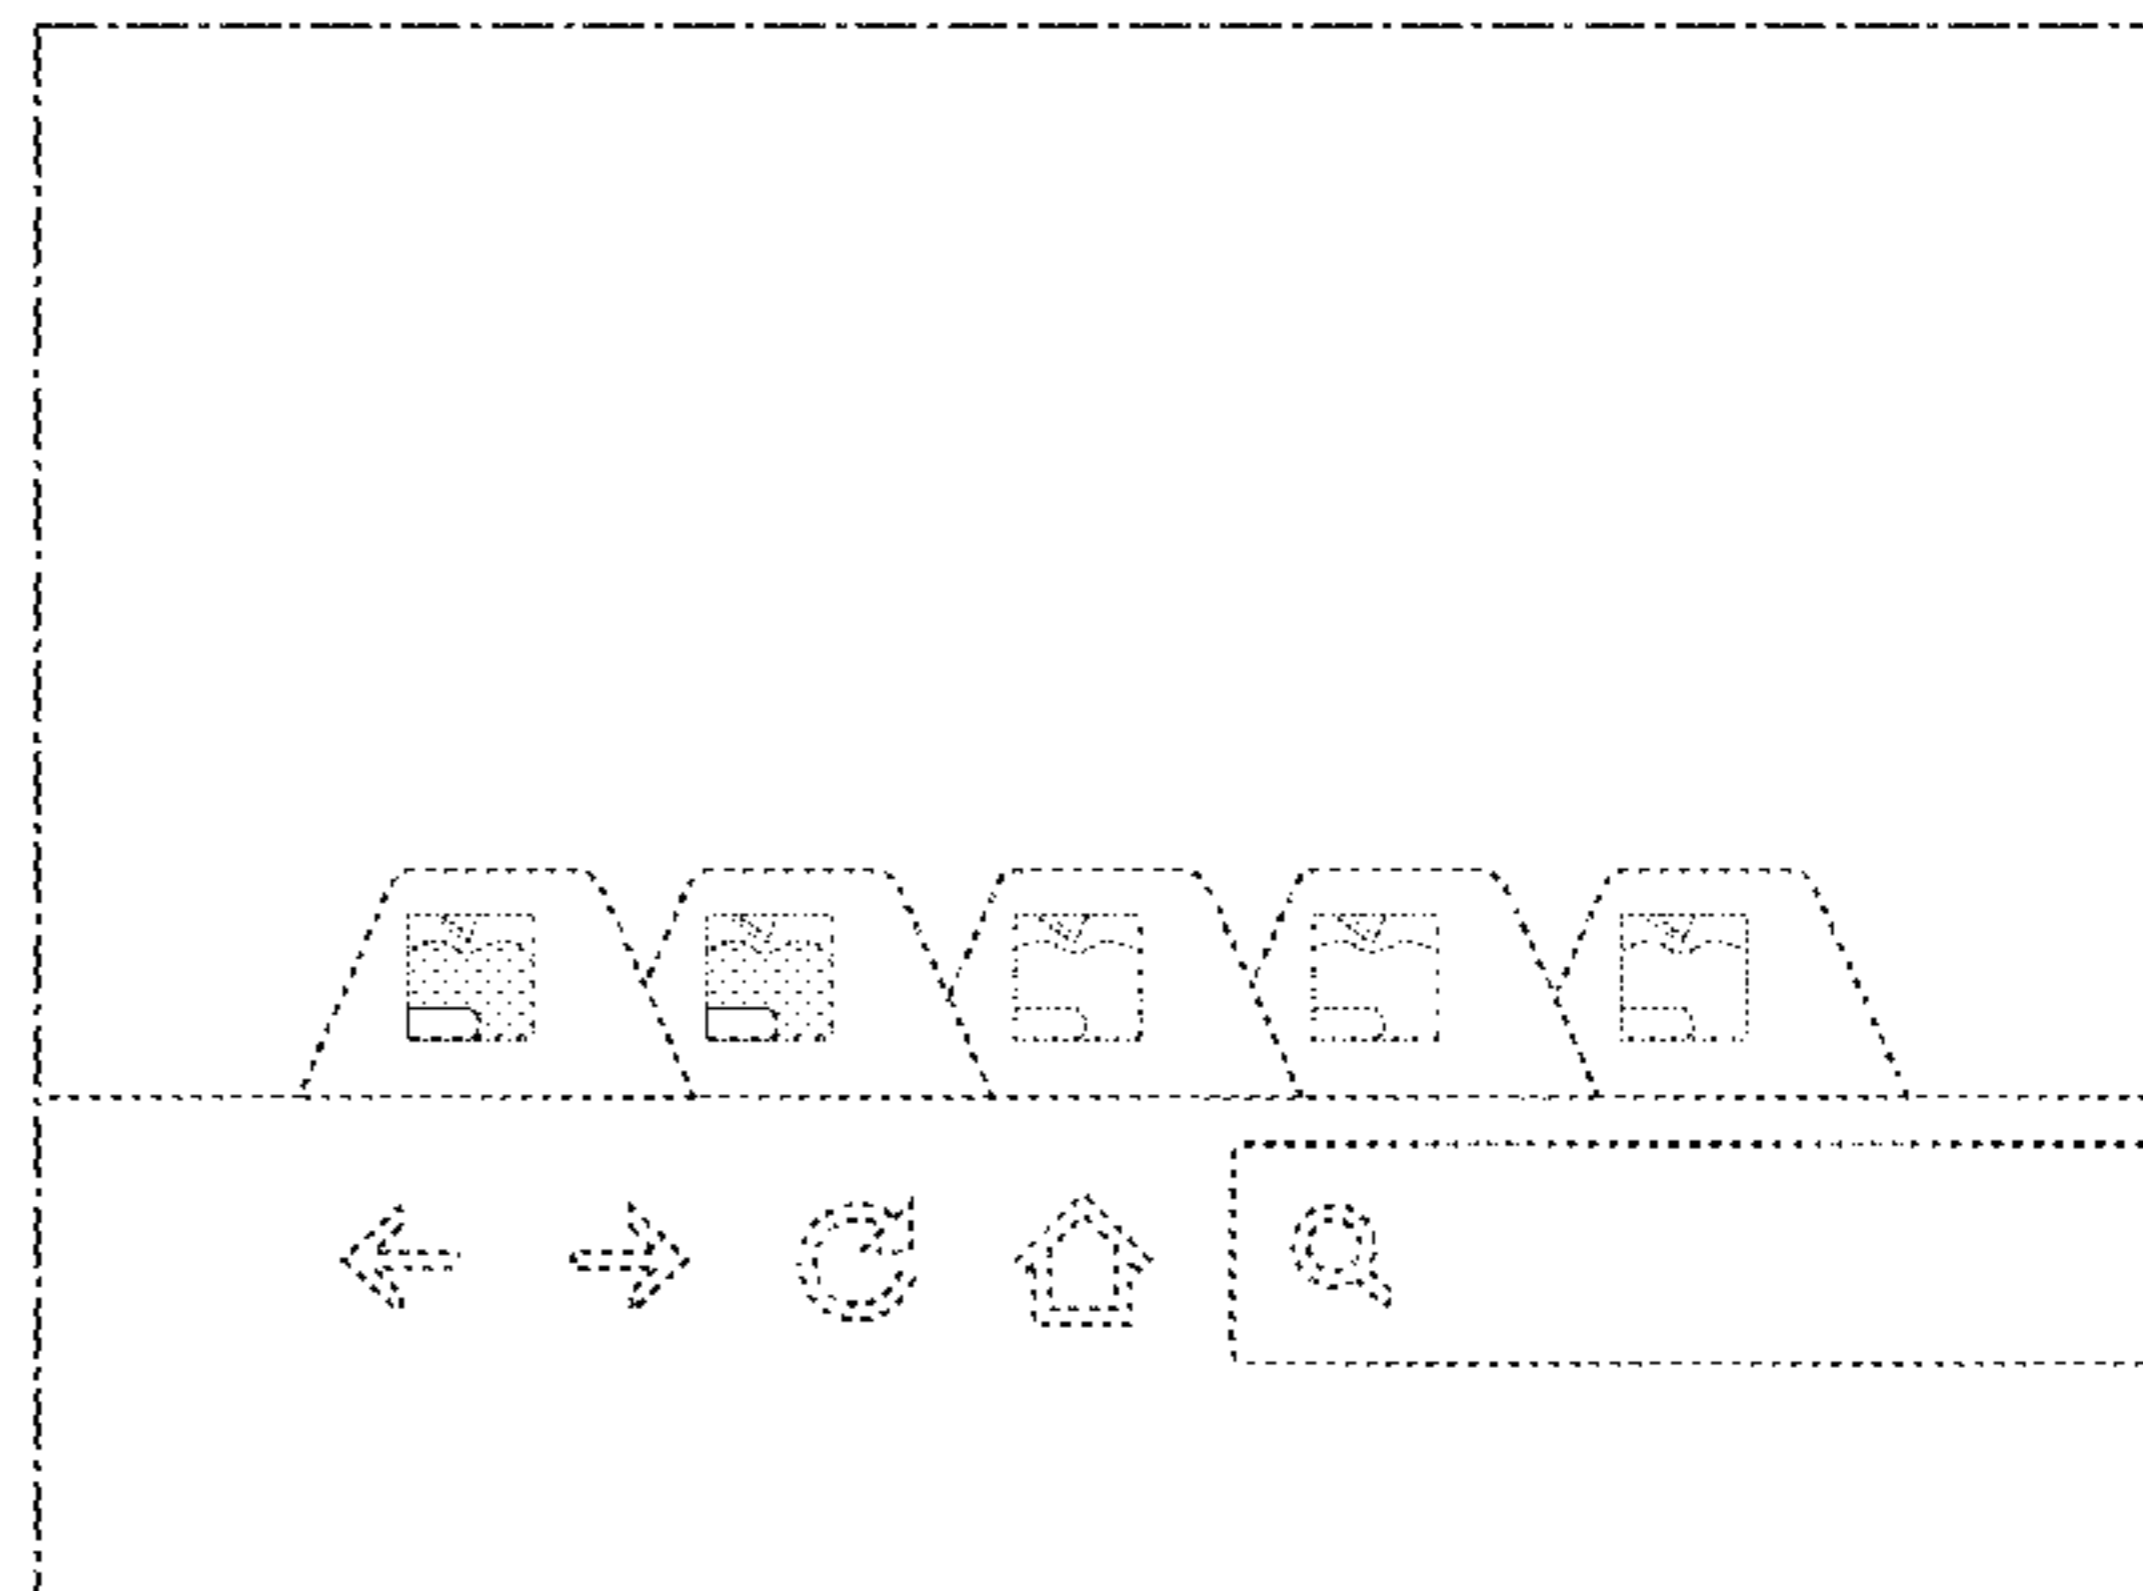

and,

FIG. 9 is a front elevation view of a ninth image thereof.

The appearance of the display screen with animated graphical user interface sequentially transitions between the images shown in FIGS. 1-9. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of even length illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design. The unshaded portions of the display screen with animated graphical user interface that are bounded by broken line form no part of the claimed design.
