1. Display screen with animated graphical user interface
1.1 is a front view of a first image in a sequence of a display screen with animated graphical user interface showing the new design;
1.2 is a front view of a second image thereof;
1.3 is a front view of a third image thereof;
1.4 is a front view of a fourth image thereof; and,
1.5 is a front view of a fifth image thereof.

The broken lines depict portions of the display screen with animated graphical user interface that form no part of the claimed design; the dash-dot broken lines define the boundary of the claimed design and form no part thereof.

The appearance of the image transitions sequentially between the images shown in reproductions 1.1-1.5. The process or period in which one image transitions to another forms no part of the claimed design.
