(57) **CLAIM**

The ornamental design for a watercraft hull, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from a bottom, rear, left side of a watercraft hull according to a first embodiment of our design;

FIG. 2 is a left side elevation view thereof, a right side elevation view being a mirror image of the left side elevation view;

FIG. 3 is a transversal cross-sectional view thereof taken at line 3-3 in FIG. 2;

FIG. 4 is a transversal cross-sectional view thereof taken at line 4-4 in FIG. 2;

FIG. 5 is a transversal cross-sectional view thereof taken at line 5-5 in FIG. 2;

FIG. 6 is a transversal cross-sectional view thereof taken at line 6-6 in FIG. 2;

FIG. 7 is a transversal cross-sectional view thereof taken at line 7-7 in FIG. 2;

FIG. 8 is a front elevation view thereof;

FIG. 9 is a perspective view taken from a bottom, rear, left side of watercraft hull according to a second embodiment of our design;

FIG. 10 is a left side elevation view thereof, a right side elevation view being a mirror image of the left side elevation view;

FIG. 11 is a transversal cross-sectional view thereof taken at line 11-11 in FIG. 10;

FIG. 12 is a transversal cross-sectional view thereof taken at line 12-12 in FIG. 10;

(Continued)

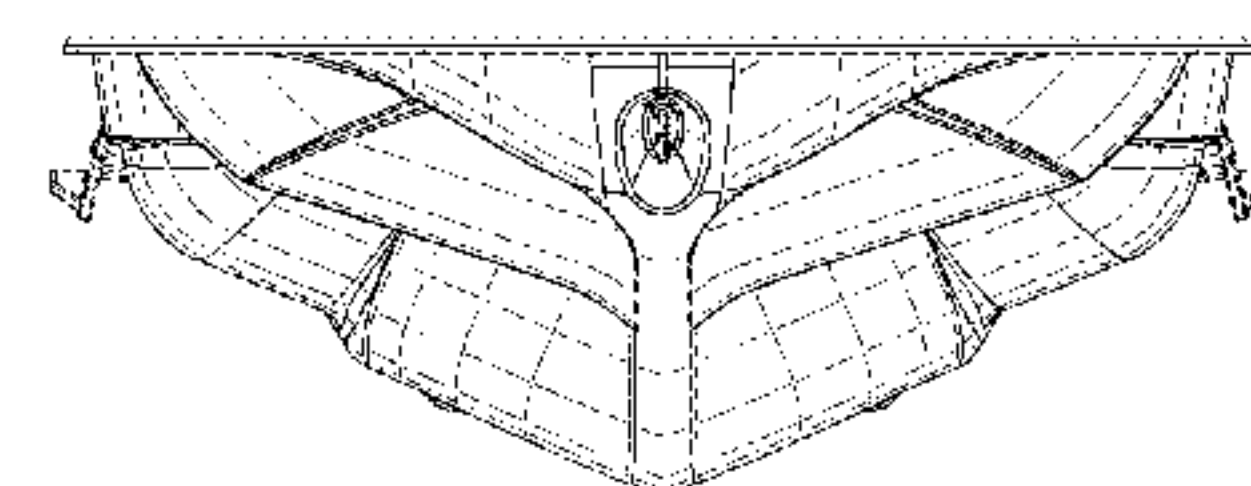

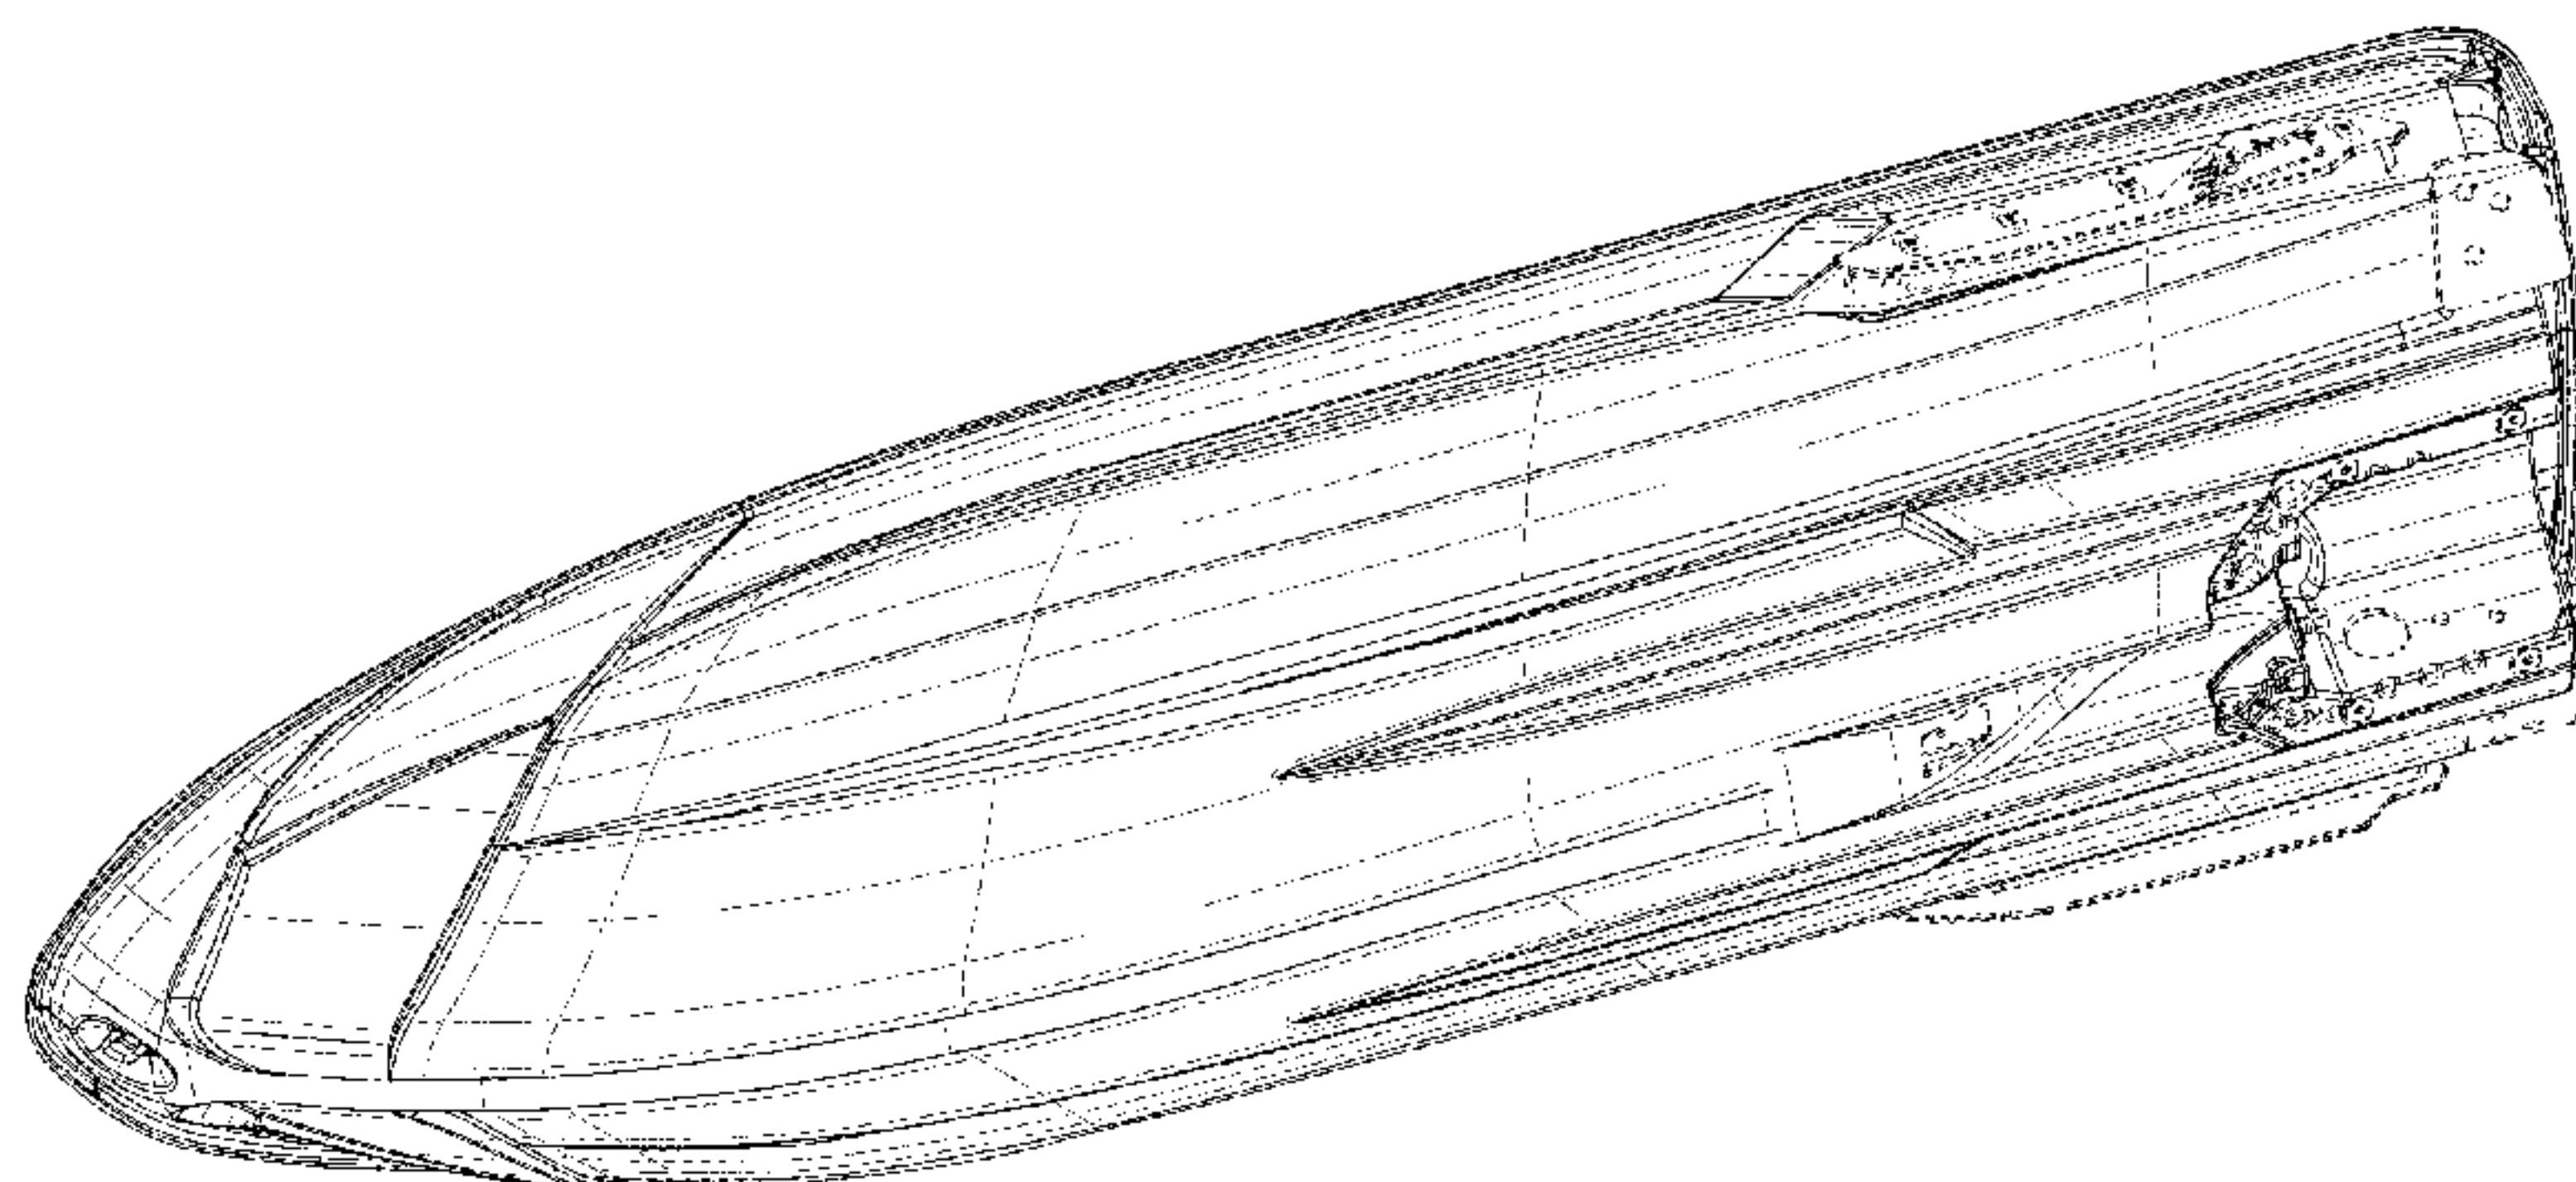

FIG. 13 is a transversal cross-sectional view thereof taken at line 13-13 in FIG. 10;

FIG. 14 is a transversal cross-sectional view thereof taken at line 14-14 in FIG. 10;

FIG. 15 is a transversal cross-sectional view thereof taken at line 15-15 in FIG. 10; and,

FIG. 16 is a front elevation view thereof.

Throughout the Figures, where shown: (i) the dashed lines are included for the purpose of illustrating portions of the watercraft hull which form no part of the claimed design; and (ii) the dotted/dashed lines illustrate unclaimed boundaries of surfaces claimed as part of the design.
