(57) **CLAIM**

The ornamental design for a mobile communication terminal with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of an embodiment of the mobile communication terminal with animated graphical user interface showing the new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The broken lines shown in the drawings of a mobile communication terminal and certain graphic features of the animated graphical user interface form no part of the claimed design.

The appearance of the animated graphical user interface sequentially transitions through each image. The process or period in which one image transitions to another forms no part of the claimed design.
