

US00D865853S

(12) **United States Design Patent** (10) **Patent No.:** **US D865,853 S**  
**Wilkins** (45) **Date of Patent:** **\*\* Nov. 5, 2019**

(54) **GLASSES WITH OPTICAL IMAGE SENSOR**

(71) Applicant: **BAE SYSTEMS plc**, London (GB)

(72) Inventor: **Mark Wilkins**, Rochester (GB)

(73) Assignee: **BAE SYSTEMS plc**, London (GB)

(\*\*) Term: **15 Years**

(21) Appl. No.: **29/639,733**

(22) Filed: **Mar. 8, 2018**

(30) **Foreign Application Priority Data**

Sep. 8, 2017 (EP) ..... 004248144-0001

(51) **LOC (12) Cl.** ..... **16-06**

(52) **U.S. Cl.**  
USPC ..... **D16/313**

(58) **Field of Classification Search**  
USPC ..... D16/309, 311, 314, 300, 313, 321  
CPC ..... A61F 9/02; G02C 7/02  
See application file for complete search history.

(57) **CLAIM**

The ornamental design for glasses with optical image sensor, as shown and described.

**DESCRIPTION**

The sole FIGURE is a perspective view of glasses with optical image sensor according to the present design.

The broken lines in the drawing illustrate portions of the glasses with optical image sensor and form no part of the claimed design.

**1 Claim, 1 Drawing Sheet**
