(57) **CLAIM**

We claim the ornamental design for buttons for a load control device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of buttons for a load control device according to our new design.

FIG. 2 is a front view thereof.

FIG. 3 is a left side view thereof.

FIG. 4 is a right side view thereof.

FIG. 5 is a top view thereof.

FIG. 6 is a bottom view thereof.

FIG. 7 is a perspective view of buttons for a load control device according to a second embodiment of our new design.

FIG. 8 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the second embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

FIG. 9 is a perspective view of buttons for a load control device according to a third embodiment of our new design. FIG. 10 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the third embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

FIG. 11 is a perspective view of buttons for a load control device according to a fourth embodiment of our new design; and,

FIG. 12 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the fourth embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

The rear views form no part of the design and are omitted. The portions of the drawings appearing in broken line are for environment only and do not form a part of the claimed design.
