The file of this patent contains at least one drawing or photograph executed in color. Copies of this patent with color drawings/photographs will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 shows a first embodiment of a display panel of an electronic device with a changeable computer generated icon, showing our new design;

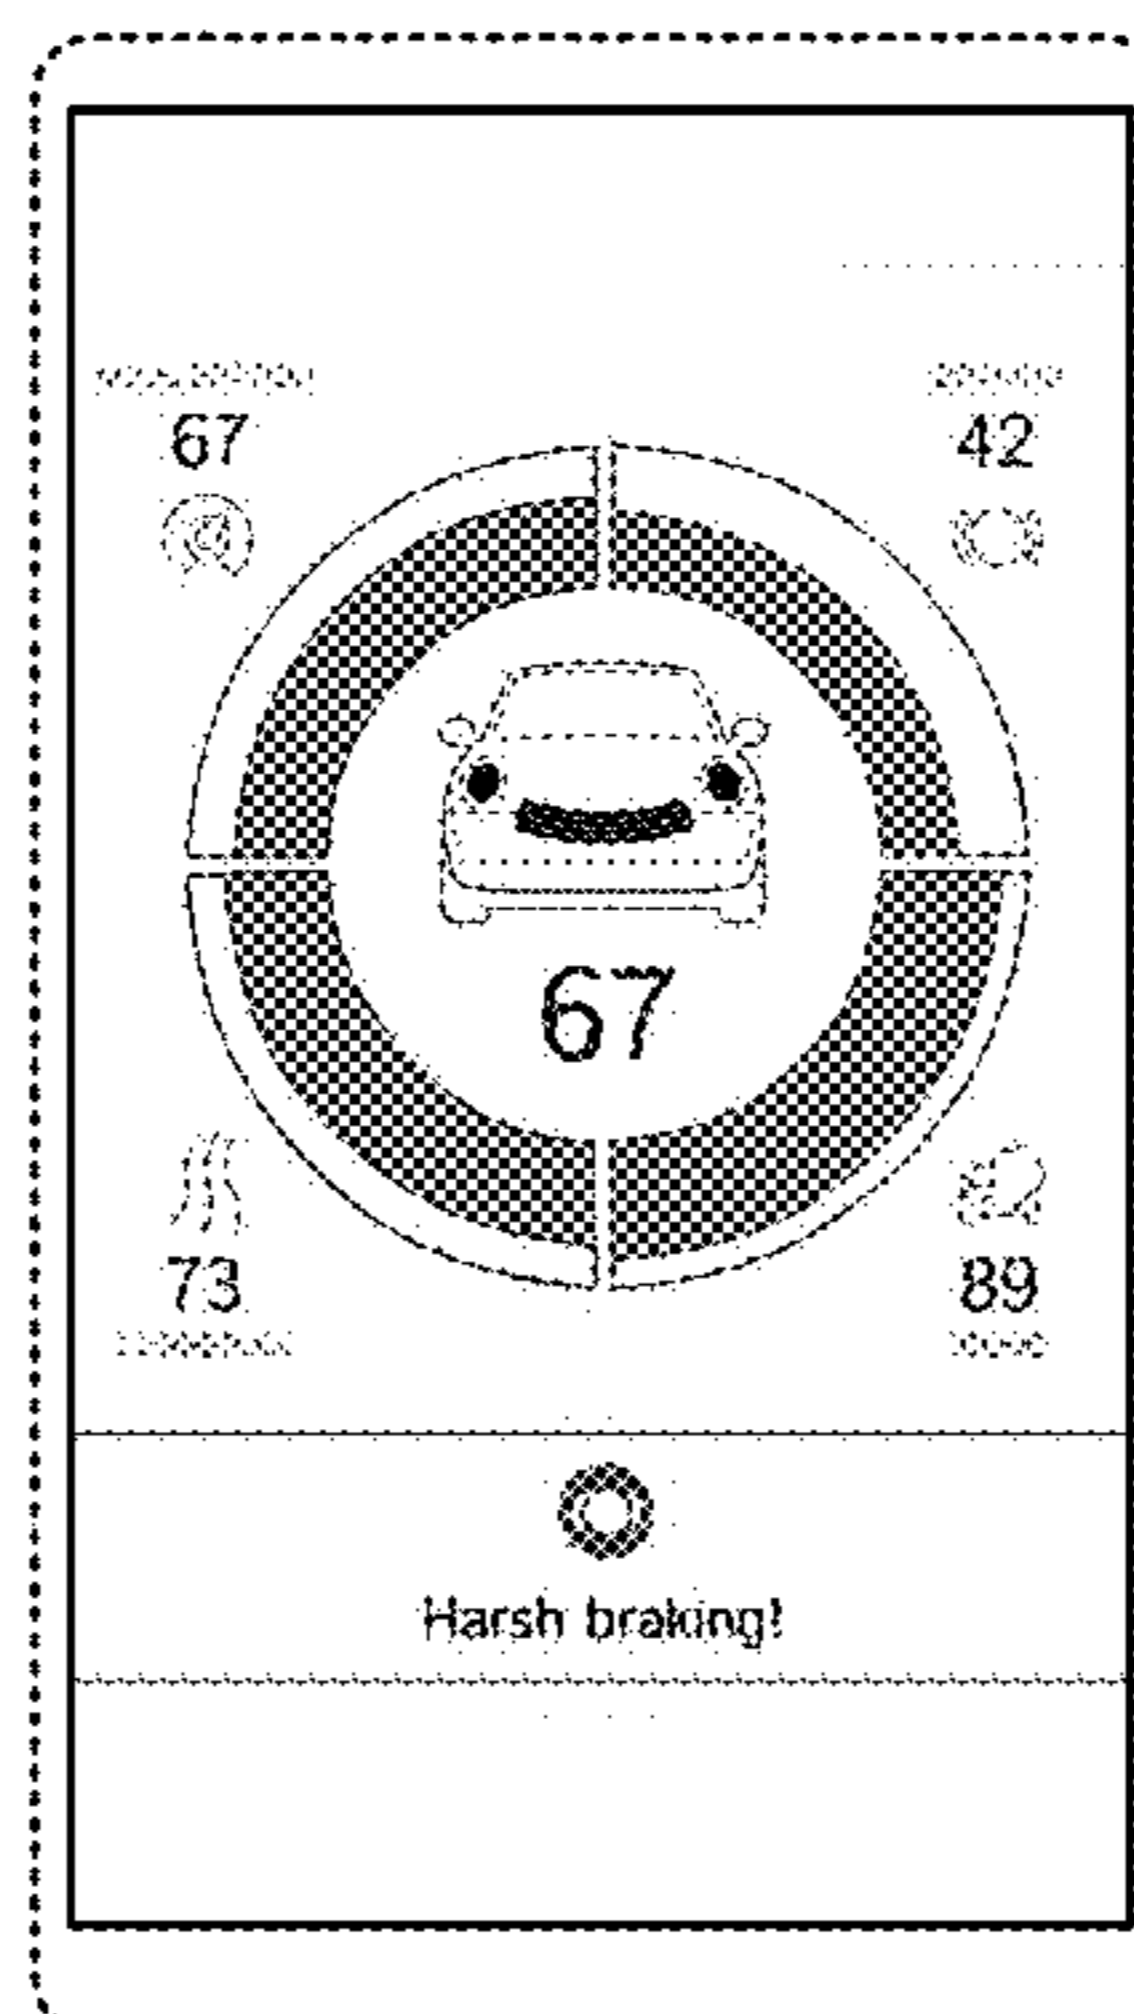

FIG. 2 shows a second embodiment of a display panel of an electronic device with a changeable computer generated icon; and,

FIG. 3 shows a third embodiment of a display panel of an electronic device with a changeable computer generated icon.

The design comprises a changeable computer generated icon on a display panel, such as a liquid crystal display panel, of an electronic device; the device arranged to provide information in real-time to a driver of a vehicle in relation to their driving style.

The broken lines shown in FIGS. 1-3 illustrate the display panel of an electronic device and form no part of the claimed design.
