(57) **CLAIM**

The ornamental design for a pocket carrier, as shown and described.

DESCRIPTION

FIG. 1 is an elevation view of the front of a first embodiment of a pocket carrier, the back being identical to the front except for the alteration or absence of the Texas feature in some variant embodiments;

FIG. 2 is a plan view of the top thereof;

FIG. 3 is a plan view of the bottom thereof;

FIG. 4 is an elevation view of the left side thereof;

FIG. 5 is an elevation view of the right side thereof;

FIG. 6 is a perspective view thereof;

FIG. 7 is an elevation view of the front of a second embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the Texas feature in some variant embodiments, the left and right sides being identical to those of the first embodiment, the top being identical to the bottom of the first embodiment, and the bottom being identical to the top of the first embodiment;

FIG. 8 is a perspective view thereof;

FIG. 9 is an elevation view of the front of a third embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the Texas feature in some embodiments, and the left and right sides, top, and bottom being identical to those of the first embodiment;

FIG. 10 is a perspective view thereof;

FIG. 11 is an elevation view of the front of a fourth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the Texas feature in some variant embodiments, the left and right sides being identical to those of the first embodiment,

the top being identical to the bottom of the first embodiment, and the bottom being identical to the top of the first embodiment;

FIG. 12 is a perspective view thereof;

FIG. 13 is an elevation view of the front of a fifth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the Texas feature in some variant embodiments, and the left and right sides, top, and bottom being identical to those of the first embodiment;

FIG. 14 is a perspective view thereof;

FIG. 15 is an elevation view of the front of a sixth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the Texas feature in some variant embodiments, the left and right sides being identical to those of the first embodiment, the top being identical to the bottom of the first embodiment, and the bottom being identical to the top of the first embodiment;

FIG. 16 is a perspective view thereof;

FIG. 17 is an elevation view of the front of a seventh embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the helmet feature in some variant embodiments, and the left and right sides, top, and bottom being identical to those of the first embodiment;

FIG. 18 is a perspective view thereof;

FIG. 19 is an elevation view of the front of an eighth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the helmet feature in some variant embodiments, the left and right sides being identical to those of the first embodiment, the top being identical to the bottom of the first embodiment, and the bottom being identical to the top of the first embodiment;

FIG. 20 is a perspective view thereof;

FIG. 21 is an elevation view of the front of a ninth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the helmet feature in some variant embodiments, and the left and right sides, top, and bottom being identical to those of the first embodiment;

FIG. 22 is a perspective view thereof;

FIG. 23 is an elevation view of the front of a tenth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the helmet feature in some variant embodiments, the left and right sides being identical to those of the first embodiment, the top being identical to the bottom of the first embodiment, and the bottom being identical to the top of the first embodiment;

FIG. 24 is a perspective view thereof;

FIG. 25 is an elevation view of the front of an eleventh embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the helmet feature in some variant embodiments, and the left and right sides, top, and bottom being identical to those of the first embodiment;

FIG. 26 is a perspective view thereof;

FIG. 27 is an elevation view of the front of a twelfth embodiment of the design shown in FIG. 1, the back being identical to the front except for the alteration or absence of the helmet feature in some variant embodiments, the left and right sides being identical to those of the first embodiment, the top being identical to the bottom of the first embodiment,

and the bottom being identical to the top of the first embodiment; and,

FIG. 28 is a perspective view thereof.

The broken lines showing cards are for the purposes of illustrating environment and form no part of the claimed design.
