This application is related to the following commonly owned co-pending patent application: U.S. application Ser. No. 15/439,884, entitled "Nail With a Head Having an Inwardly Curved Top Surface."

FIG. 1 is a top-perspective view of a nail with a head having an inwardly curved top surface of our new design.

FIG. 2 is a front-side-elevational view of the nail with a head having an inwardly curved top surface of FIG. 1, the back-side-, right-side-, and left-side-elevational views being identical thereto.

See application file for complete search history.

FIG. 3 is a top-plan view of the nail with a head having an inwardly curved top surface of FIG. 1.
