(57) **CLAIM**

The ornamental design for a vehicle-lighting mount platform, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a vehicle-lighting mount platform secured atop an upper rear portion of a truck cab, the vehicle-lighting mount platform shown carrying lighting devices including a roof light bar, a rear-facing light stick, and a truck-cab brake light;

FIG. 2 is an isometric view of the vehicle-lighting mount platform of FIG. 1;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a front elevational view thereof;

FIG. 6 is a rear elevational view thereof;

FIG. 7 is a left side elevational view thereof; and,

FIG. 8 is a right side elevational view thereof.

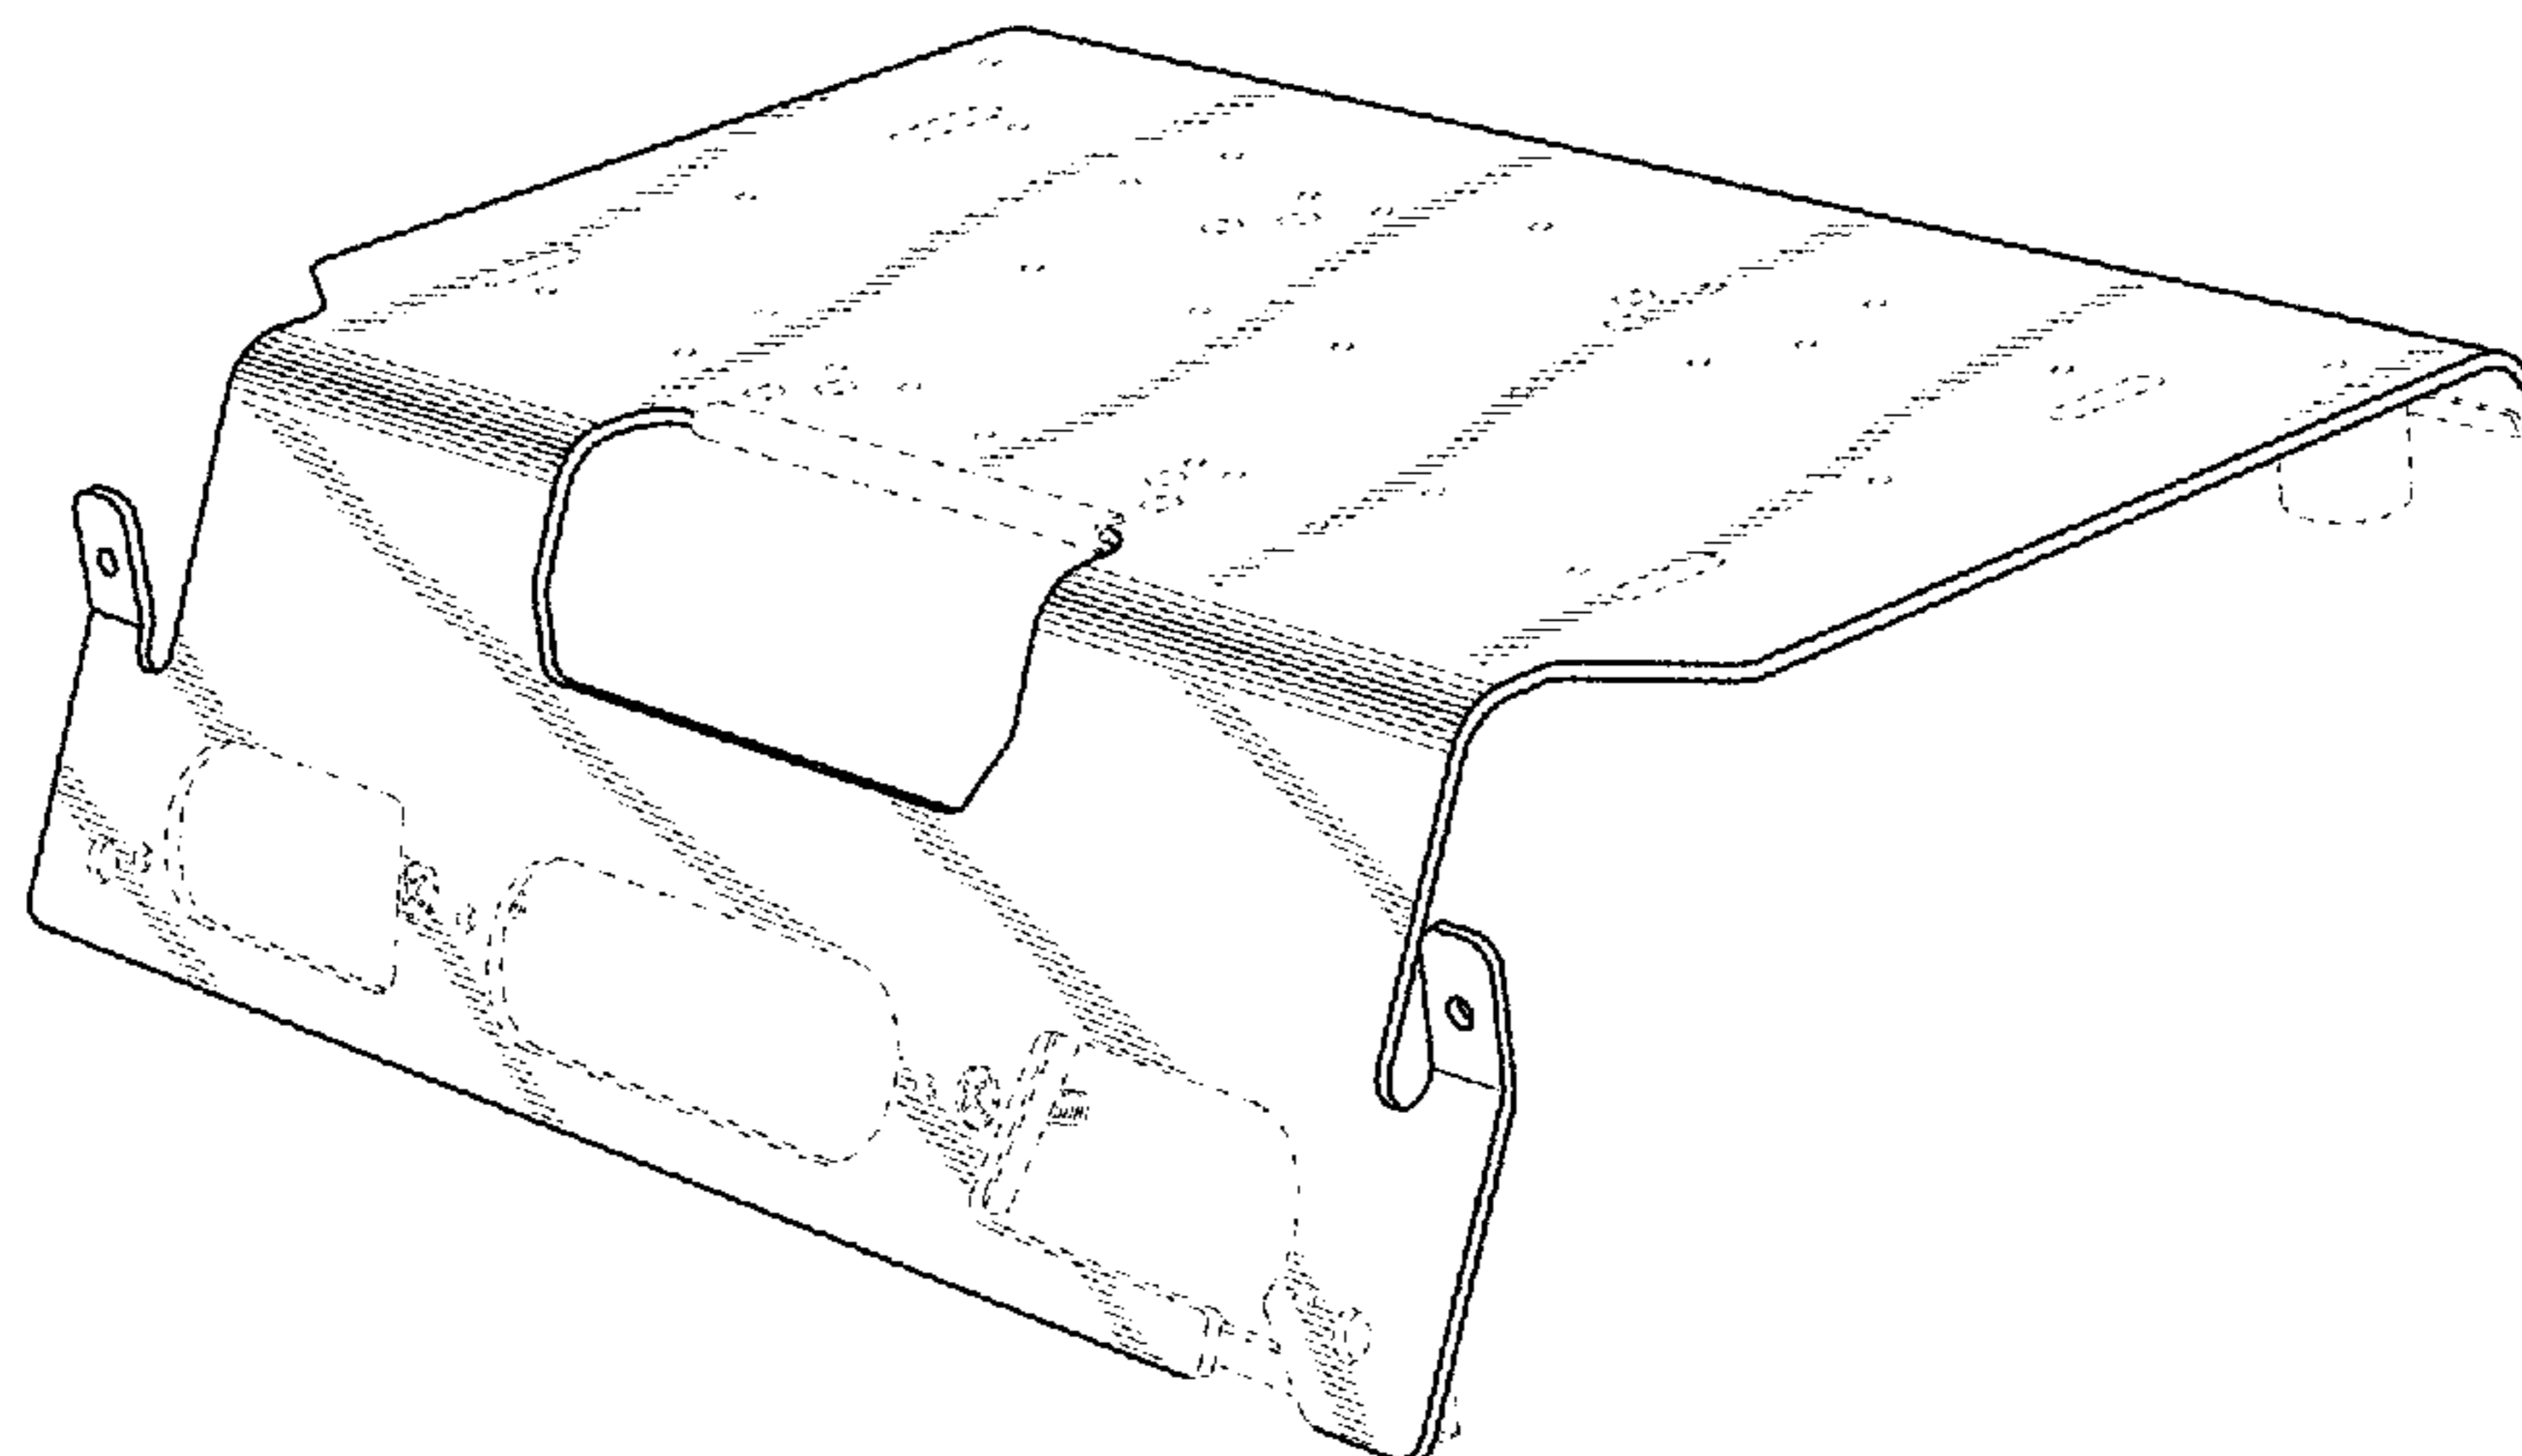

In FIG. 1, broken lines showing the lighting devices and the truck cab are for the purpose of illustrating environmental structures forming no part of the claimed design.

In FIGS. 1-6, broken lines showing predrilled fastener holes and truck-cab brake light wiring apertures are illustrative of portions of the vehicle-lighting mount platform forming no part of the claimed design.

In FIGS. 1, 2, and 4-8, broken lines showing cylindrical pads are illustrative of portions of the vehicle-lighting mount platform forming no part of the claimed design.

In FIGS. 1-8, broken lines showing edge-guard strips and weather-seal strips and associated mounting hardware for the truck-cab brake light are illustrative of portions of the vehicle-lighting mount platform forming no part of the claimed design.

1 Claim, 3 Drawing Sheets
