(57) **CLAIM**

I claim the ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in a sequence for a display screen with graphical user interface showing our new design; and, FIG. 2 is a front view of a second image in the sequence thereof.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design. The dash-dash broken lines showing portions of the graphical user interface form no part of the claimed design. The dash-dot broken lines showing the display screen form no part of the claimed design.
