(57) **CLAIM**

The ornamental design for a display screen or portion thereof having a graphical user interface for initiating a live event, as shown and described.

**DESCRIPTION**

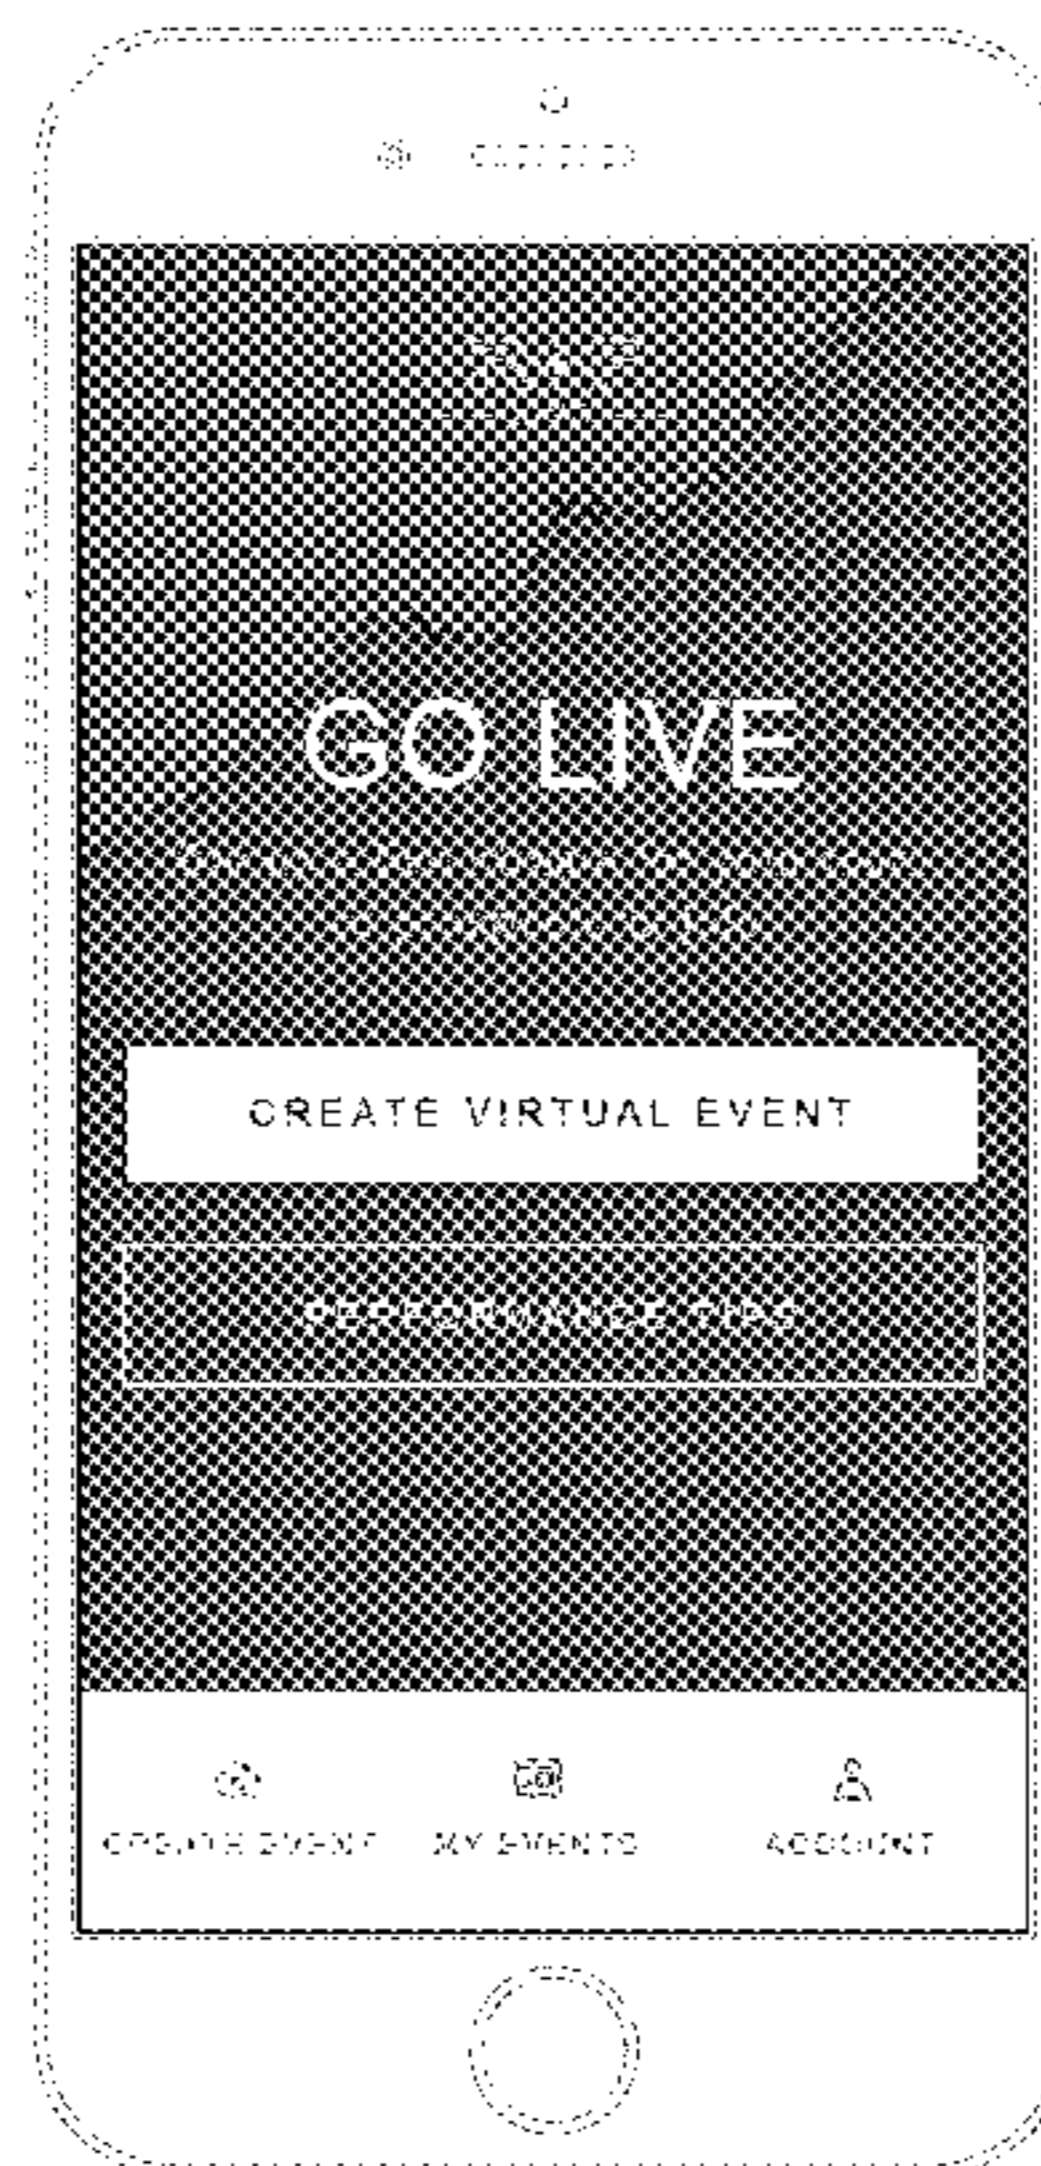

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of an embodiment of a display screen or portion thereof having a graphical user interface for initiating a live event showing our new design; and, FIG. 2 is a front view of a color embodiment of a display screen or portion thereof having a graphical user interface for initiating a live event showing our new design.

The broken line showing of the display screen or portion thereof illustrates the environment of the claimed design and forms no part thereof. The broken line showing within the graphical user interface illustrate portions of the graphical user interface which form no part of the claimed design.

Any trademarks are the property of their respective owners and do not form part of the claimed design.
