The representations show a card comprising a flattened rectangular, flattened square or flattened circular object inside a transparent window.

The parts shown in broken lines such as numbers, letters, chips, signature fields, and magnetic strips are included to show features that form no part of the claimed design. Separate elevational views of the top, bottom, left and right sides of the card are omitted because they are flat and include no ornamentation. Color forms part of the claimed design as shown in FIGS. 28.1-28.4.
