(57) **CLAIM**

The ornamental design for decorative ears for a lap desk, as shown and described.

DESCRIPTION

FIG. 1 is a front, elevated, right-quartering perspective view of a first embodiment of the new design for decorative ears for a lap desk of the present invention;

FIG. 2 is a top plan view of the first embodiment; FIG. 3 is a bottom plan view of the first embodiment; FIG. 4 is a rear elevational view of the right half of the first embodiment (as viewed in FIG. 2), shown relative to axis A, the rear elevational view of the left half being the mirror image of FIG. 4; and

FIG. 5 is a right side elevational view of the first embodiment, the left side elevational view being the mirror image thereof.

FIG. 6 is a front, elevated, right-quartering perspective view of a second embodiment of the new design for decorative ears for a lap desk of the present invention;

FIG. 7 is a top plan view of the second embodiment; FIG. 8 is a bottom plan view of the second embodiment; FIG. 9 is a rear elevational view of the right half of the second embodiment (as viewed in FIG. 7), shown relative to axis A, the rear elevational view of the left half being the mirror image of FIG. 9; and

FIG. 10 is a right side elevational view of the second embodiment, the left side elevational view being the mirror image thereof.

FIG. 11 is a front, elevated, right-quartering perspective view of a third embodiment of the new design for decorative ears for a lap desk of the present invention;

FIG. 12 is a top plan view of the third embodiment; FIG. 13 is a bottom plan view of the third embodiment; FIG. 14 is a rear elevational view of the right half of the third embodiment (as viewed in FIG. 12), shown relative to axis A, the rear elevational view of the left half being the mirror image of FIG. 14; and

FIG. 15 is a right side elevational view of the third embodiment, the left side elevational view being the mirror image thereof.

FIG. 16 is a front, elevated, right-quartering perspective view of a fourth embodiment of the new design for decorative ears for a lap desk of the present invention;

FIG. 17 is a top plan view of the fourth embodiment; FIG. 18 is a bottom plan view of the fourth embodiment; FIG. 19 is a rear elevational view of the right half of the fourth embodiment (as viewed in FIG. 17), shown relative to axis A, the rear elevational view of the left half being the mirror image of FIG. 19; and

(Continued)

FIG. 20 is a right side elevational view of the fourth embodiment, the left side elevational view being the mirror image thereof.

FIG. 21 is a front, elevated, right-quartering perspective view of a fifth embodiment of the new design for decorative ears for a lap desk of the present invention;

FIG. 22 is a top plan view of the fifth embodiment;

FIG. 23 is a bottom plan view of the fifth embodiment;

FIG. 24 is a rear elevational view of the right half of the fifth embodiment (as viewed in FIG. 22), shown relative to axis A, the rear elevational view of the left half being the mirror image of FIG. 24; and,

FIG. 25 is a right side elevational view of the fifth embodiment, the left side elevational view being the mirror image thereof.

The broken lines included within the drawing figures depict environmental subject matter only and form no part of the claimed design.
