(57) **CLAIM**

The ornamental design for an oven display screen with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

1. Oven display screen with graphical user interface

1.1 is a front view of a first image in a sequence of an oven display screen with graphical user interface;

1.2 is an enlarged view thereof provided for clarity of illustration;

1.3 is a front view of a second image in a sequence of an oven display screen with graphical user interface; and,

1.4 is an enlarged view thereof provided for clarity of illustration.

The outer edge of the portion of the display screen is understood to be congruent with the outer edge of the graphical user interface.

The appearance of the transitional image sequentially transitions between the images shown in reproductions 1.1 and 1.3. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines indicate portions of the article that form no part of the claimed design.
