A portion of the disclosure of this patent document contains material which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the US Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever. The FIGURE is a front view of a computer display or portion thereof with icon showing our new design. The outer broken line showing a computer display or portion thereof forms no part of the claimed design. The long and short inner broken lines depict portions of the graphical user interface that form no part of the claimed design.
