(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with a graphical user interface, showing our new design. The broken lines showing the watch bands and the outer housing of the watch body and button illustrate an electronic device, which is the environment of the design, and forms no part of the claim. The remaining broken lines, including all text and icons, illustrate portions of the graphical user interface that form no part of the claimed design.
