(57) **CLAIM**

The ornamental design for a device mount, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the device mount in a first configuration according to the present design; FIG. 2 is a rear perspective view of the device mount in the first configuration of FIG. 1; FIG. 3 is a top plan view of the device mount in the first configuration of FIG. 1; FIG. 4 is a bottom plan view of the device mount in the first configuration of FIG. 1; FIG. 5 is a left-side elevational view of the device mount in the first configuration of FIG. 1; FIG. 6 is a right-side elevational view of the device mount in the first configuration of FIG. 1; FIG. 7 is a front elevation view of the device mount in the first configuration of FIG. 1; FIG. 8 is a rear elevation view of the device mount in the first configuration of FIG. 1; FIG. 9 is a front perspective view of the device mount in a second configuration according to the present design; FIG. 10 is a rear perspective view of the device mount in the second configuration of FIG. 9; FIG. 11 is a top plan view of the device mount in the second configuration of FIG. 9; FIG. 12 is a bottom plan view of the device mount in the second configuration of FIG. 9; FIG. 13 is a left-side elevational view of the device mount in the second configuration of FIG. 9; FIG. 14 is a right-side elevational view of the device mount in the second configuration of FIG. 9; FIG. 15 is a front elevational view of the device mount in the second configuration of FIG. 9; and, FIG. 16 is a rear elevational view of the device mount in the second configuration of FIG. 9. The broken lines showing in the figures illustrate portions of the device mount that form no part of the claimed design.

1 Claim, 14 Drawing Sheets
