(57) **CLAIM**

The ornamental design for a display device with bar animation for a user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first view of the design according to the invention. FIG. 2 is a second view of the design transitioned from the first view to show the second view according to the invention.

FIG. 3 is a third view of the design transitioned from the second view to show the third view according to the invention.

FIG. 4 is a fourth view of the design transitioned from the third view to show the fourth view according to the invention.

FIG. 5 is a fifth view of the design transitioned from the fourth view to show the fifth view according to the invention.

FIG. 6 is a sixth view of the design transitioned from the fifth view to show the sixth view according to the invention; and, FIG. 7 is a seventh view of the design transitioned from the sixth view to show the seventh view according to the invention.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1, 2, 3, 4, 5, 6, and 7. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines showing the electronic device and display screen are for the purpose of illustrating environment and forms no part of the claimed design. The broken line showing of elements, including text, on the display screen illustrates portions of the user interface and forms no part of the claimed design.
