(57) **CLAIM**

The ornamental design for an adjustable balance and stability training board, as shown and described.

DESCRIPTION

FIG. 1 is a top right front perspective view in a first configuration of the adjustable balance and stability training board showing the new design;

FIG. 2 is an exploded perspective view in a first configuration of the adjustable balance and stability training board thereof;

FIG. 3 is a front elevational view of the adjustable balance and stability training board thereof;

FIG. 4 is a rear elevational view of the adjustable balance and stability training board thereof;

FIG. 5 is a left side elevational view of the adjustable balance and stability training board thereof;

FIG. 6 is a right side elevational view of the adjustable balance and stability training board thereof;

FIG. 7 is a top plan view of the adjustable balance and stability training board thereof;

FIG. 8 is a bottom plan view of the adjustable balance and stability training board thereof;

FIG. 9 is a rotated left side plan view of the adjustable balance and stability training board thereof;

FIG. 10 is a rotated front plan view in an alternate configuration of the adjustable balance and stability board thereof;

FIG. 11 is an alternate perspective environmental view of the adjustable balance and stability board;

FIG. 12 is a top right front perspective view in an alternate configuration of the adjustable balance and stability board; and,

FIG. 13 is an exploded perspective view in an alternate configuration of the adjustable balance and stability board thereof.

The broken lines in the drawings illustrate environmental subject matter and form no part of the claimed design.
