See application file for complete search history.

FIG. 1 is a front perspective view of a video intubation instrument according to the present invention.

FIG. 2 is a front view of the video intubation instrument of FIG. 1.

FIG. 3 is a rear view of the video intubation instrument of FIG. 1.

FIG. 4 is a left side view of the video intubation instrument of FIG. 1.

FIG. 5 is a right side view of the video intubation instrument of FIG. 1.

FIG. 6 is a top view of the video intubation instrument of FIG. 1; and,

FIG. 7 is a bottom view of the video intubation instrument of FIG. 1.

The video intubation instrument is shown with a symbolic break in its length. The appearance of any portion of the article between the break lines forms no part of the claimed design.

The dashed lines illustrate environment that does not form a part of the present invention, and no claim is made to the material illustrated with dashed lines.
