US00D872861S

(12) United States Design Patent

Adams

(10) Patent No.: US D872,861 S
(45) Date of Patent: ** Jan. 14, 2020

(54) **DOUBLE STRAND TWIST BI-DIRECTIONAL BARB SUTURE WITH SINGLE COATING SHIELD**

(71) Applicant: **Jason P. Adams**, Farmington, NM (US)

(72) Inventor: **Jason P. Adams**, Farmington, NM (US)

(**) Term: **15 Years**

(21) Appl. No.: **29/623,778**

(22) Filed: **Oct. 26, 2017**

Related U.S. Application Data

(63) Continuation-in-part of application No. 15/096,496, filed on Apr. 12, 2016, now abandoned.

(57) **CLAIM**

The ornamental design for a double strand twist bi-directional barb suture with single coating shield, as shown and described.

DESCRIPTION

FIG. **1** is a side elevation view of a double strand twist bi-directional barb suture with single coating shield in according with the invention, in a first condition of use, with the strands having a clear coating, with all other side views are substantially the same, as based on the repeating pattern of the barb;

FIG. **2** is a perspective view thereof;

FIG. **3** is a cross-section view thereof taken along line **3-3**, the bottom view being a mirror image thereof; and,

FIG. **4** is a cross-section view of the double strand twist bi-directional barb suture with single coating shield taken along line **3-3** in a second condition of use, with the coating dissolved, the bottom view being a mirror image thereof.
