(57) **CLAIM**

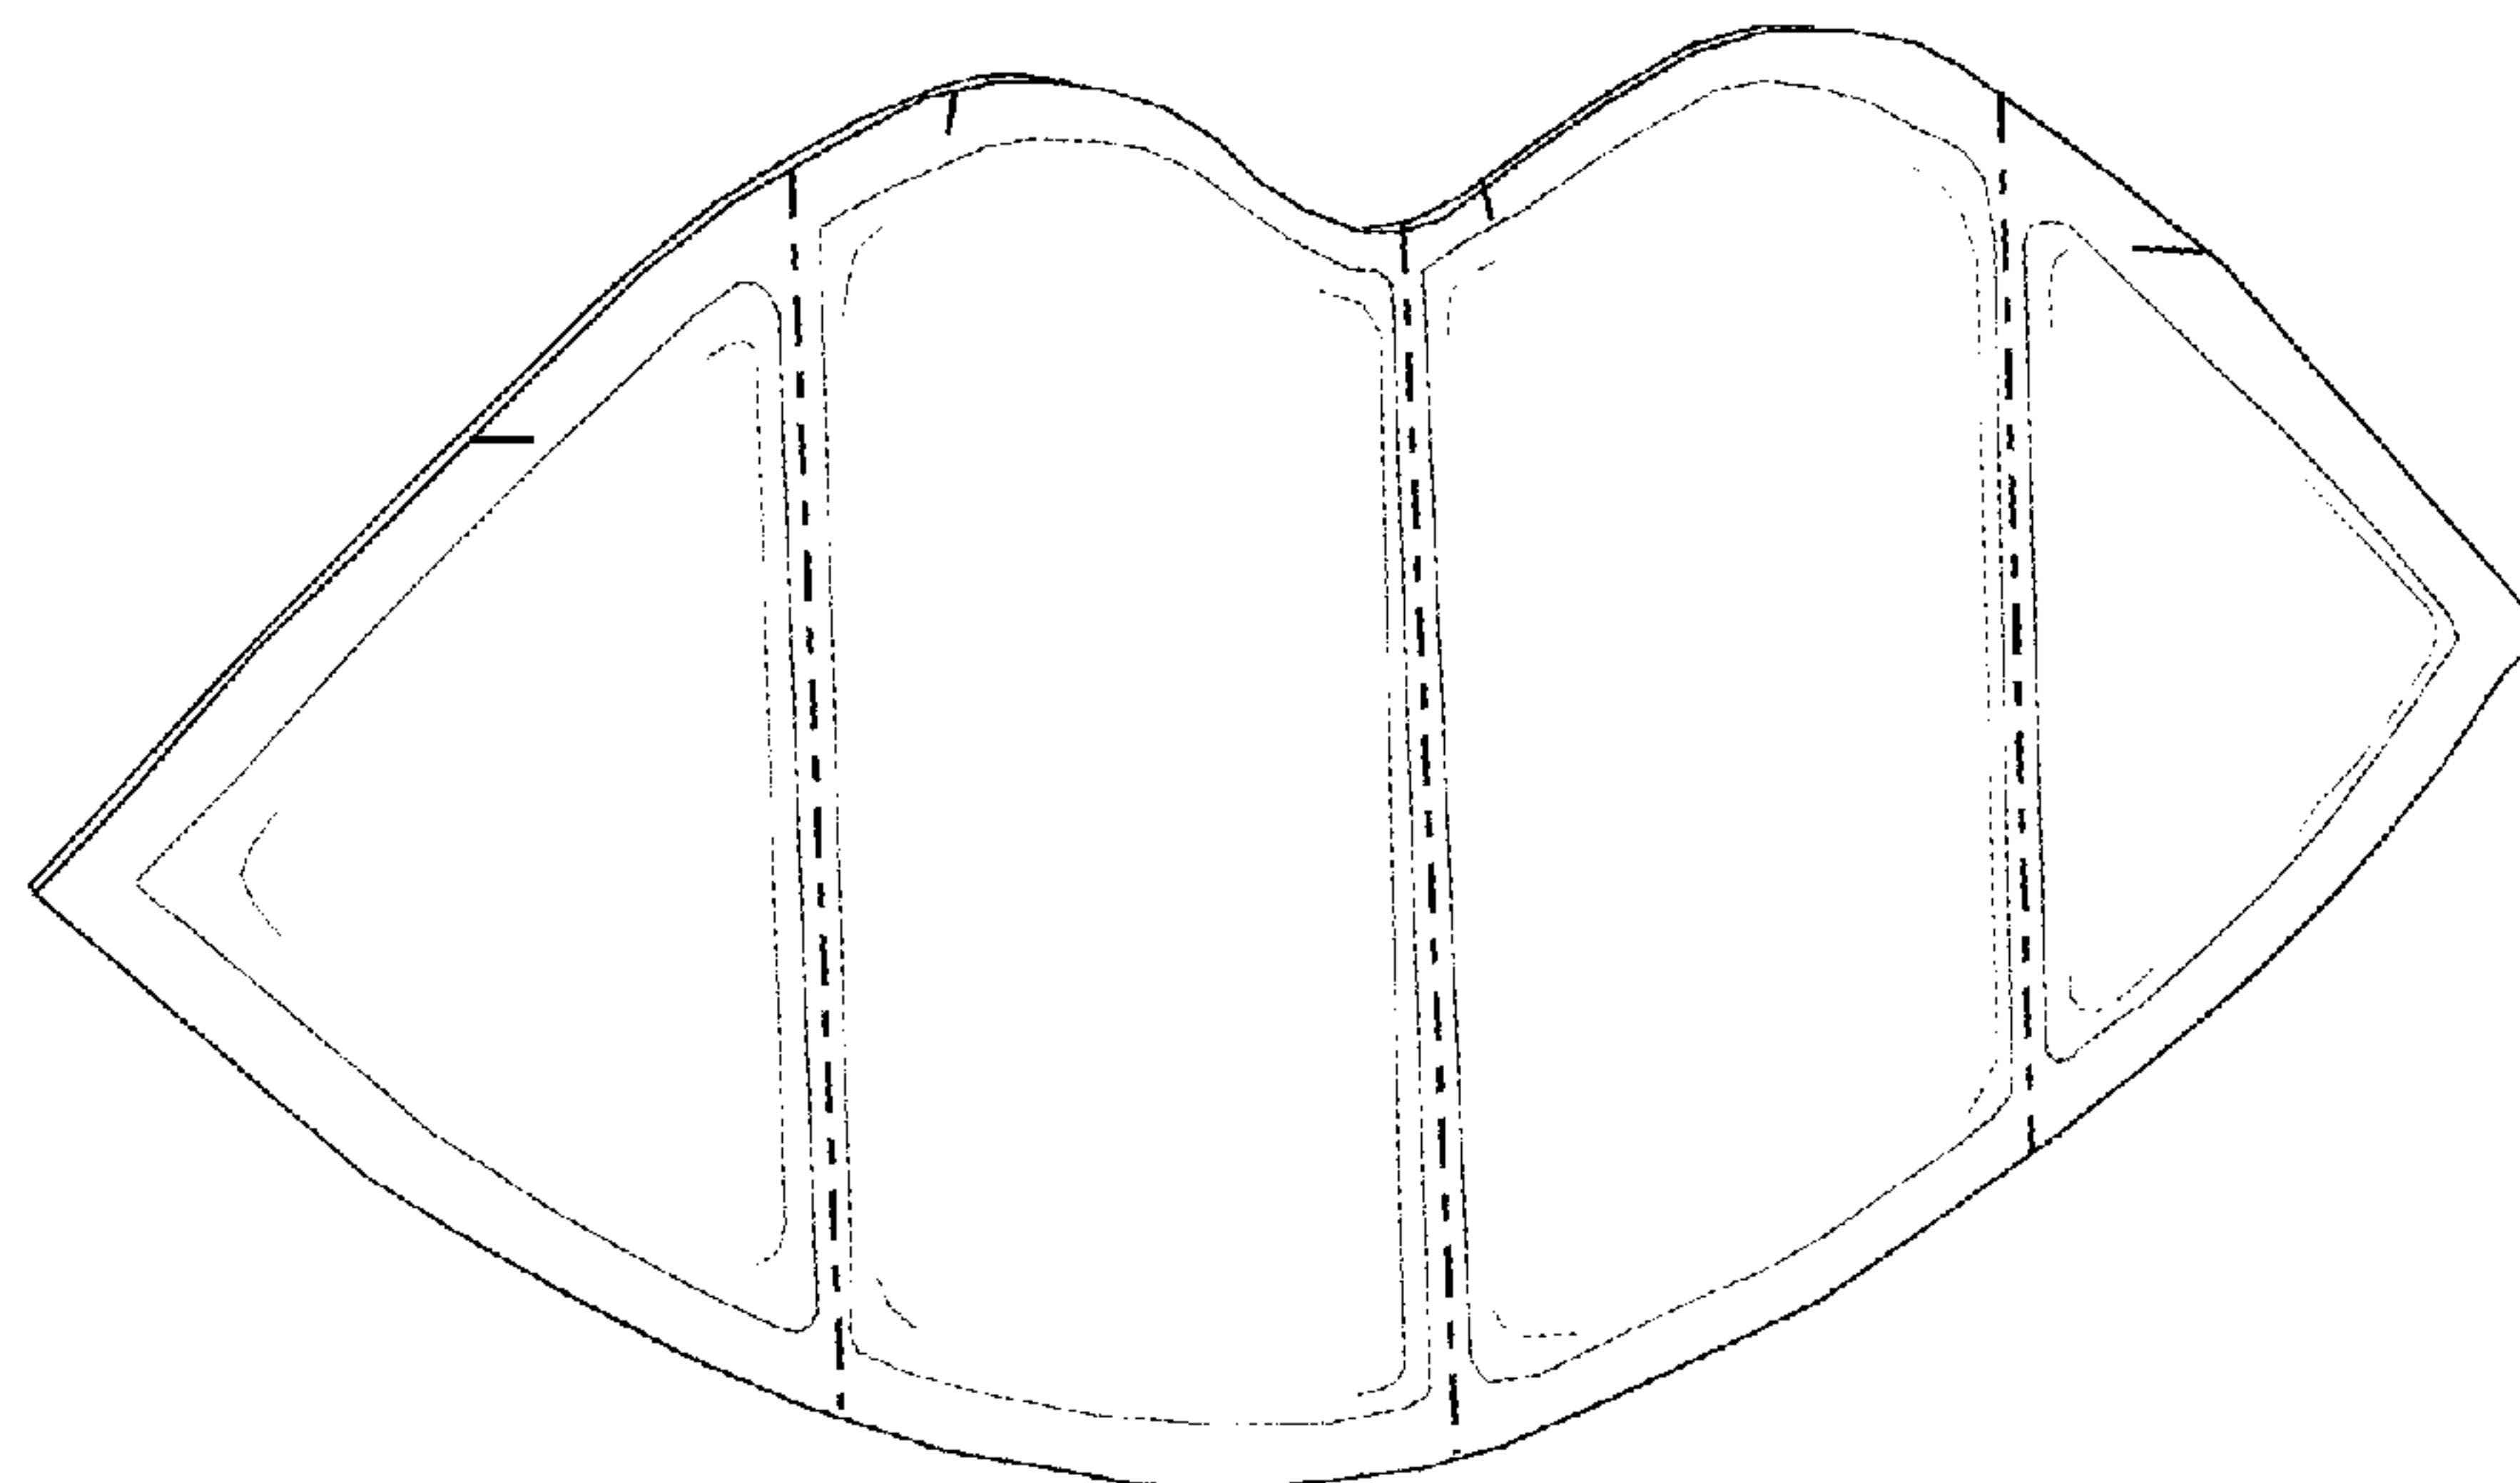

I claim the ornamental design for “lip-gloss or other fluid packaging,” as shown.

DESCRIPTION

FIG. 1 is a perspective view of lip-gloss or other fluid packaging;
FIG. 2 is a front view of the lip-gloss or other fluid packaging;
FIG. 3 is a left-side view of the lip-gloss or other fluid packaging;
FIG. 4 is a bottom view of the lip-gloss or other fluid packaging;
FIG. 5 is a right-side view of the lip-gloss or other fluid packaging;
FIG. 6 is a back view of the lip-gloss or other fluid packaging; and,
FIG. 7 is a top view of the lip-gloss or other fluid packaging. Broken lines illustrate environmental features and form no part of the claimed design.

The packaging comprises four break-away packets of lip gloss or other fluid that together form the shape of lips. The packets are suitably separable via perforations along the broken lines depicted between the packets. Each packet suitably features an “s” cut along the top margin of the packaging. Each “s” cut may be used to tear open the associated packet for dispensing lip-gloss or other fluid packaged therein.
