(57) **CLAIM**

The ornamental design of a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of the display screen with transitional graphical user interface of the new design; and,

FIG. 2 is a front view of a second image thereof.

The outermost broken line rectangle shows the display screen and forms no part of the claimed design. All other broken lines show portions of the graphical user interface and form no part of the claimed design.

The graphical user interface transitions sequentially between the two images shown in FIGS. 1 and 2, respectively. The process or period in which one image transitions to another forms no part of the claimed design.
