(57) **CLAIM**

The ornamental design for a wire dispenser enclosure, as shown and described.

DESCRIPTION

FIG. 1 is a front left-side perspective view of a wire dispenser enclosure showing my claimed design, shown with doors closed.

FIG. 2 is a front right-side perspective view thereof.

FIG. 3 is a front left-side perspective view, shown with the doors open.

FIG. 4 is a front right-side perspective view thereof.

FIG. 5 is a top plan view thereof, shown with the doors closed.

FIG. 6 is another front right-side perspective view of FIG. 2, shown in a configuration of use with a wire reel, reel retainer and an extended wire.

FIG. 7 is another front right-side perspective view of FIG. 4, shown in a configuration of use with four wire reels, four reel retainers and three extended wires.

FIG. 8 is a rear left-side perspective view, shown with the doors closed; and,

FIG. 9 is an enlarged detail view of the circled areas of FIG. 1, showing the mesh pattern.

The dash-dash broken lines illustrate environmental structure that forms no part of the claimed design. The bottom of the wire dispenser enclosure is flat but for the two forklift slots shown in the above-described figures.

1 Claim, 9 Drawing Sheets
