(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of a display screen with transitional graphical user interface. FIG. 2 is a front view of a second image in the sequence of the display screen with transitional graphical user interface. FIG. 3 is a front view of a third image in the sequence of the display screen with transitional graphical user interface; and, FIG. 4 is a front view of a fourth image in the sequence of the display screen with transitional graphical user interface. The appearance of the transitional graphical user interface of the is embodiment sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design. The broken line showing of the display screen is for the purpose of illustrating environment and forms no part of the claimed design.
