(57) **CLAIM**
What is claimed is the ornamental design for a media sharing device display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a sequence of the new design. FIG. 2 is a second image of the sequence of the new design; and, FIG. 3 is a third image of the sequence of the new design. The broken line rectangle showing the display screen, and all other broken lines showing portions of the graphical user interface, illustrate portions of the article and form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
