(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a first embodiment;

FIG. 2 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a second embodiment;

FIG. 3 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a third embodiment;

FIG. 4 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a fourth embodiment;

FIG. 5 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a fifth embodiment;

FIG. 6 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a sixth embodiment;

FIG. 7 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a seventh embodiment;

FIG. 8 is an image of a display screen or portions thereof with graphical user interface showing our new design according to an eighth embodiment

FIG. 9 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a ninth embodiment;

(Continued)

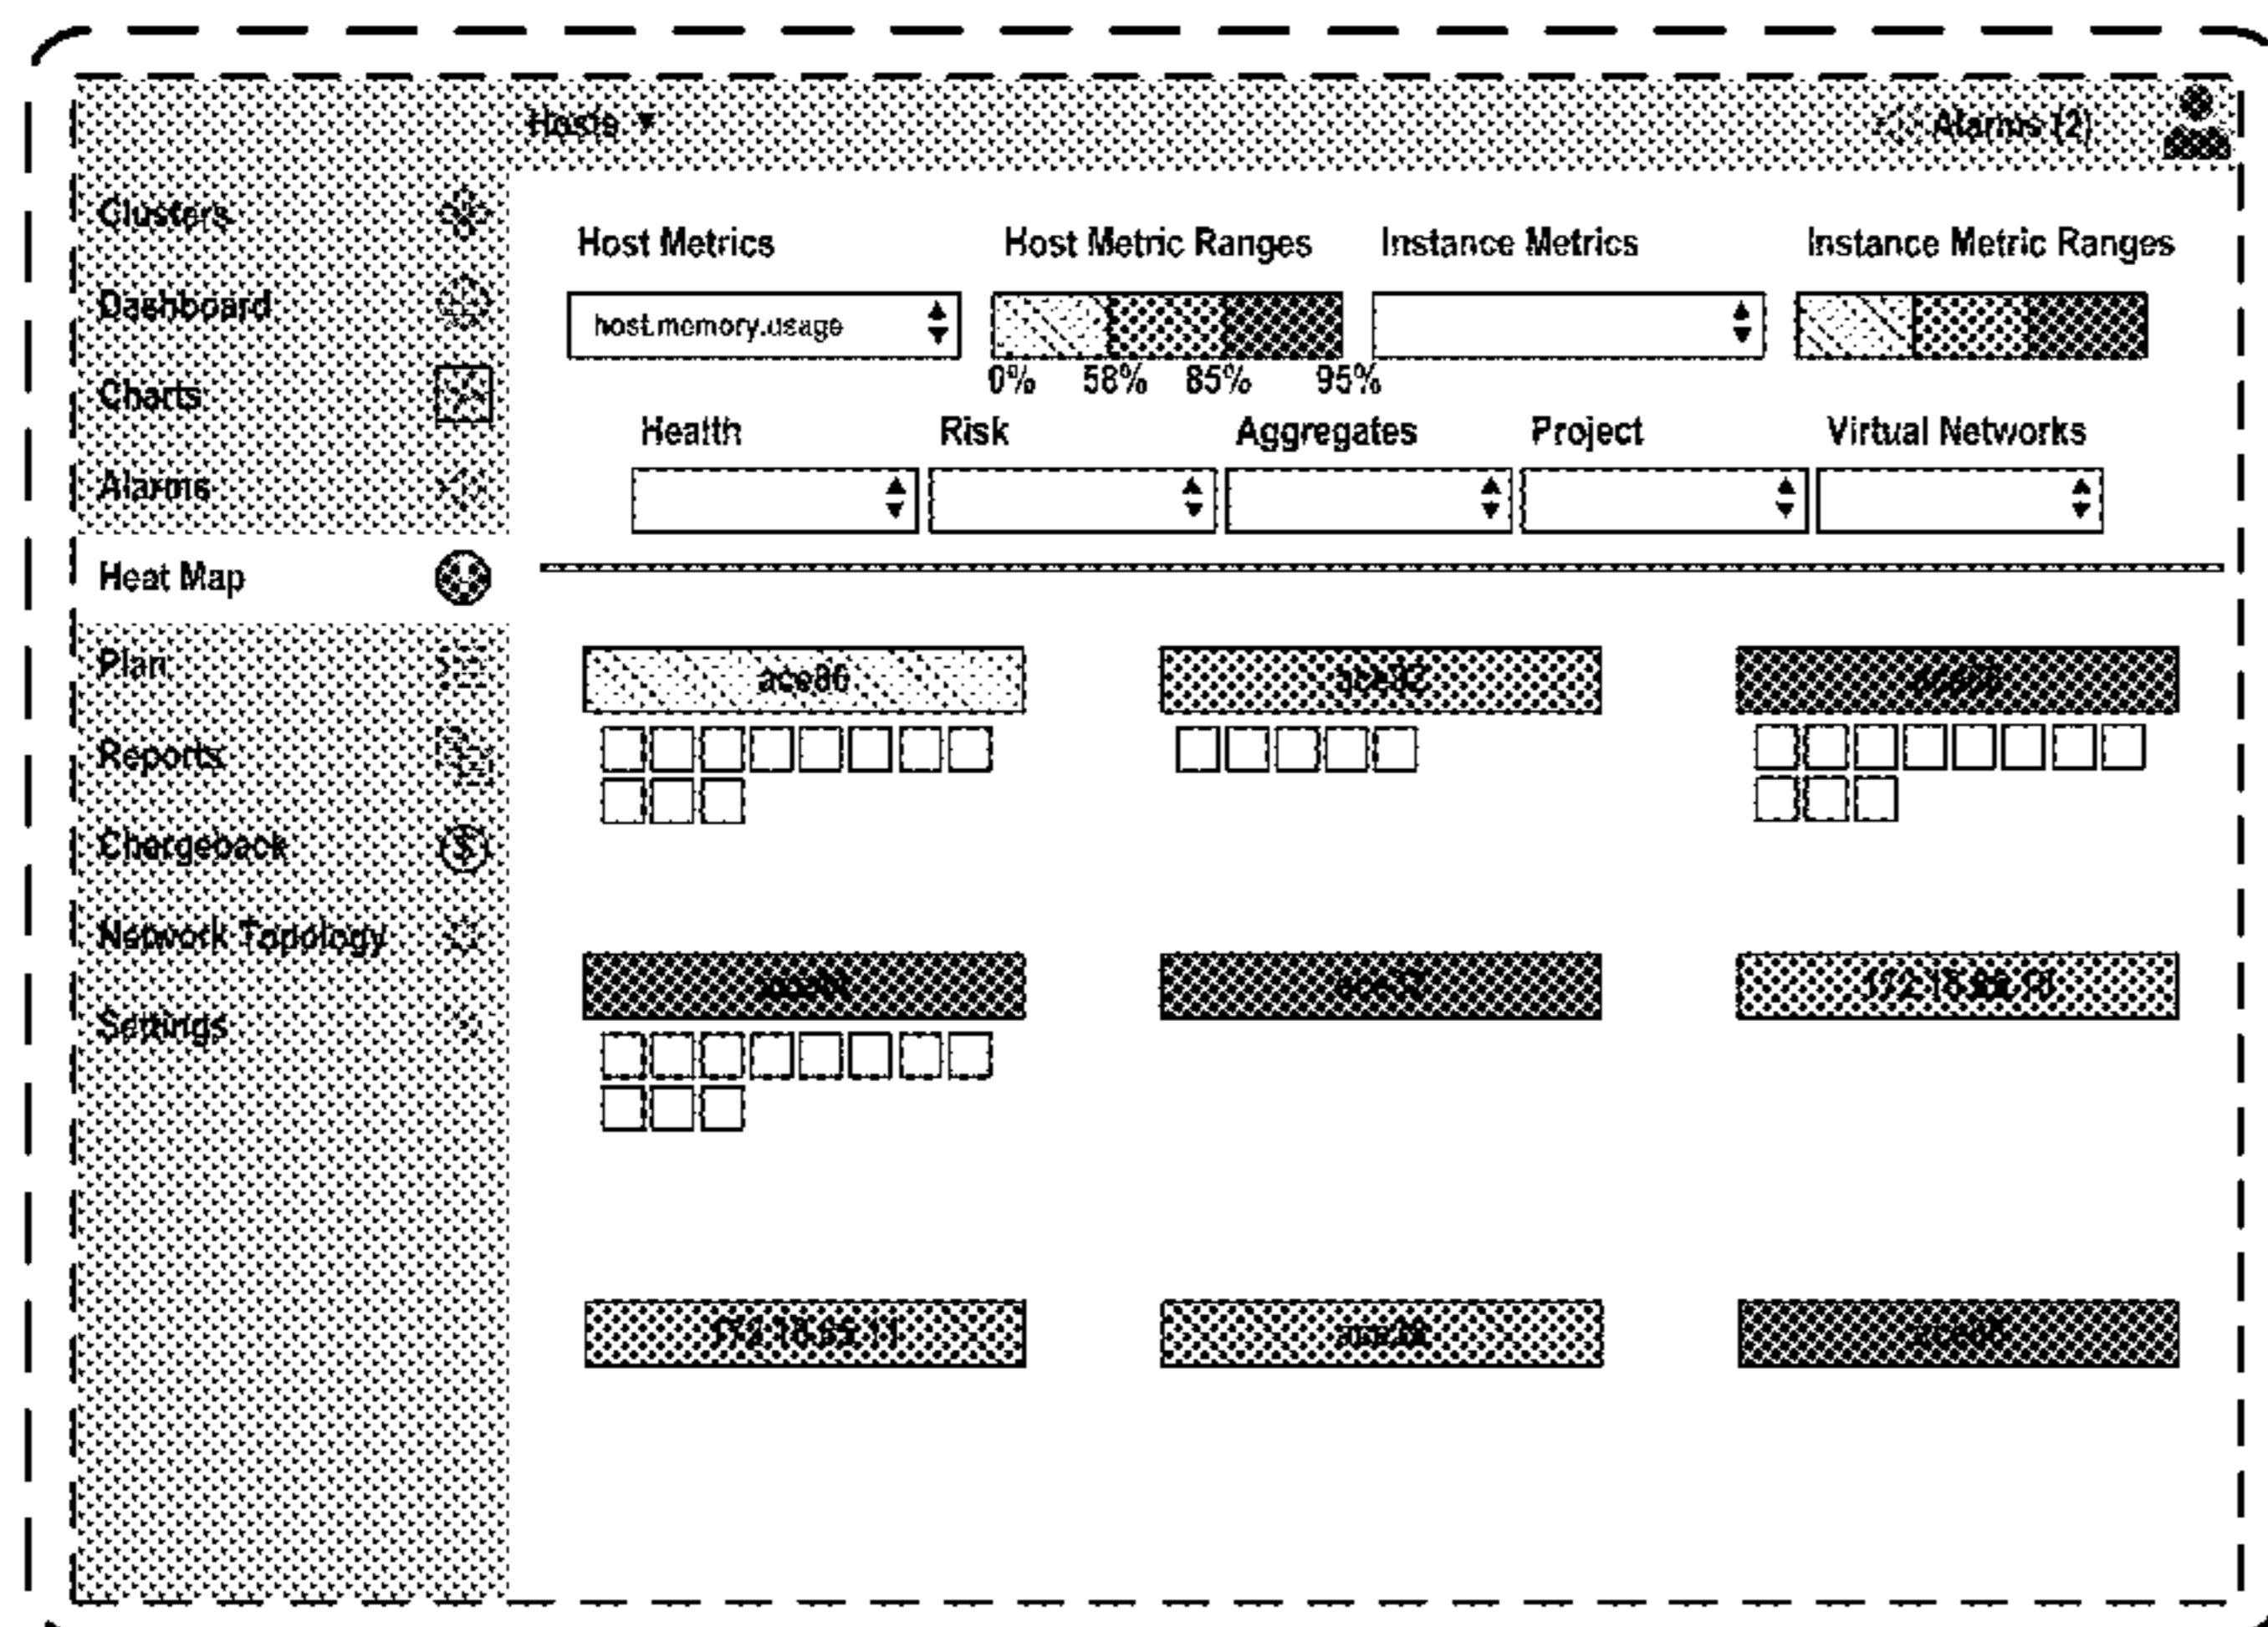

FIG. 10 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a tenth embodiment;

FIG. 11 is an image of a display screen or portions thereof with graphical user interface showing our new design according to an eleventh embodiment;

FIG. 12 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a twelfth embodiment;

FIG. 13 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a thirteenth embodiment;

FIG. 14 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a fourteenth embodiment;

FIG. 15 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a fifteenth embodiment; and,

FIG. 16 is an image of a display screen or portions thereof with graphical user interface showing our new design according to a sixteenth embodiment.

The outermost broken lines showing a display device illustrate environmental subject matter, whereas the broken lines showing a display screen and elements of the graphical user interface illustrate portions of the article. No subject matter depicted in broken lines forms part of the claimed design. Grey shading, patterning, or the appearance thereof included in at least the claimed portions of FIGS. 1-16 is illustrative of contrast, and is not representative of any particular color, or shade, or a particular pattern.
