(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen with animated graphical user interface, showing the new design;

FIG. 2 is a front view of a second image thereof;

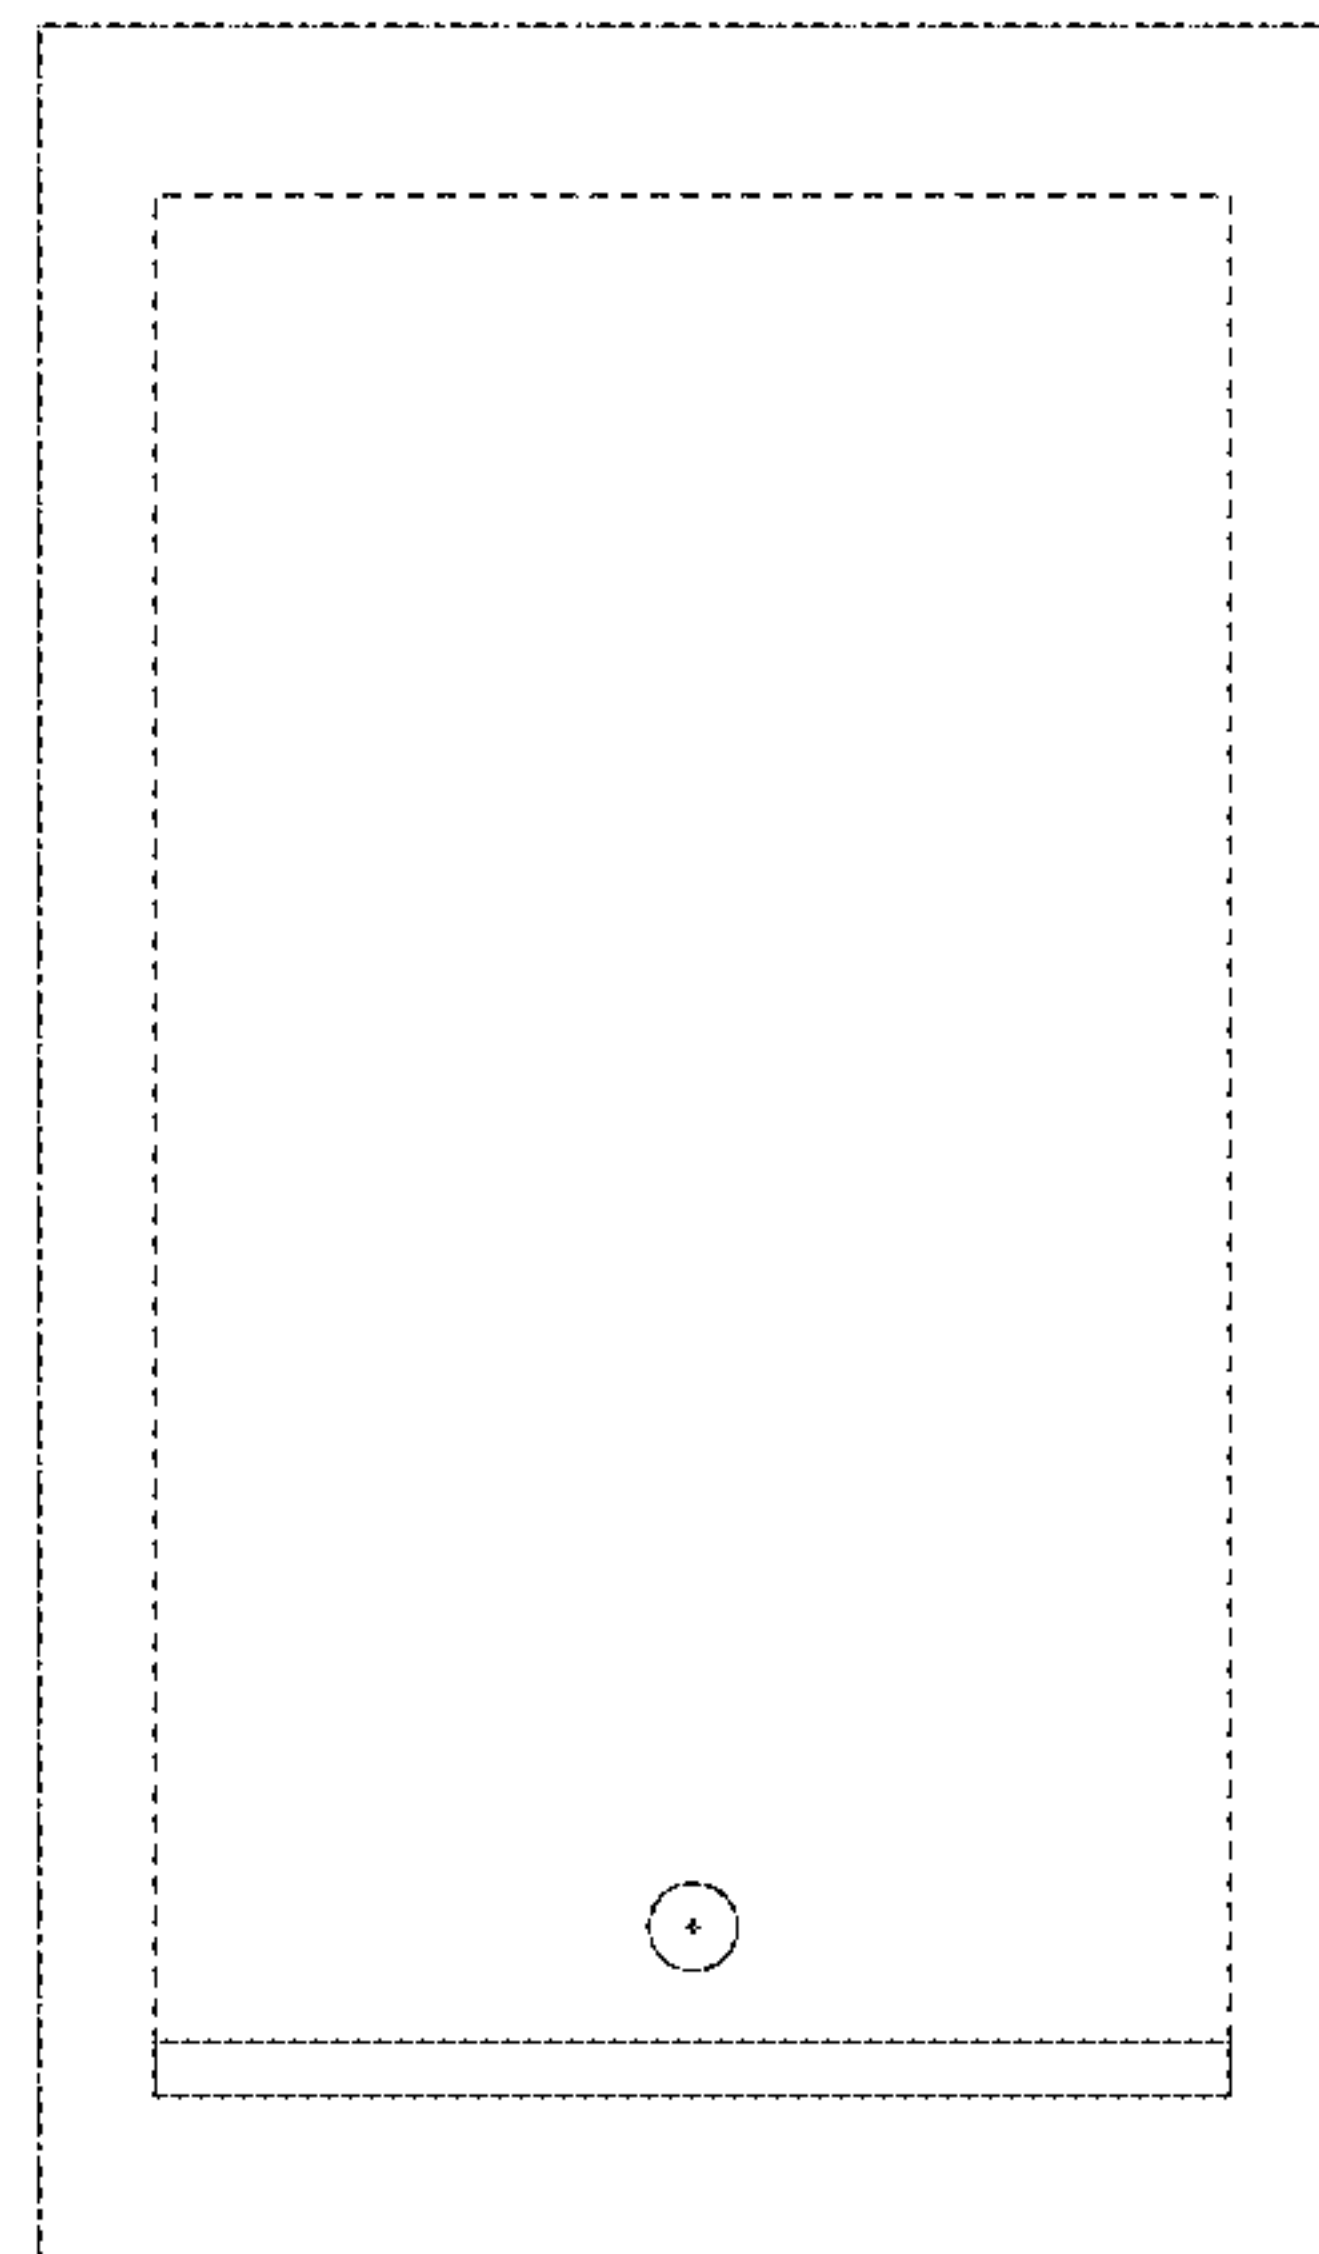

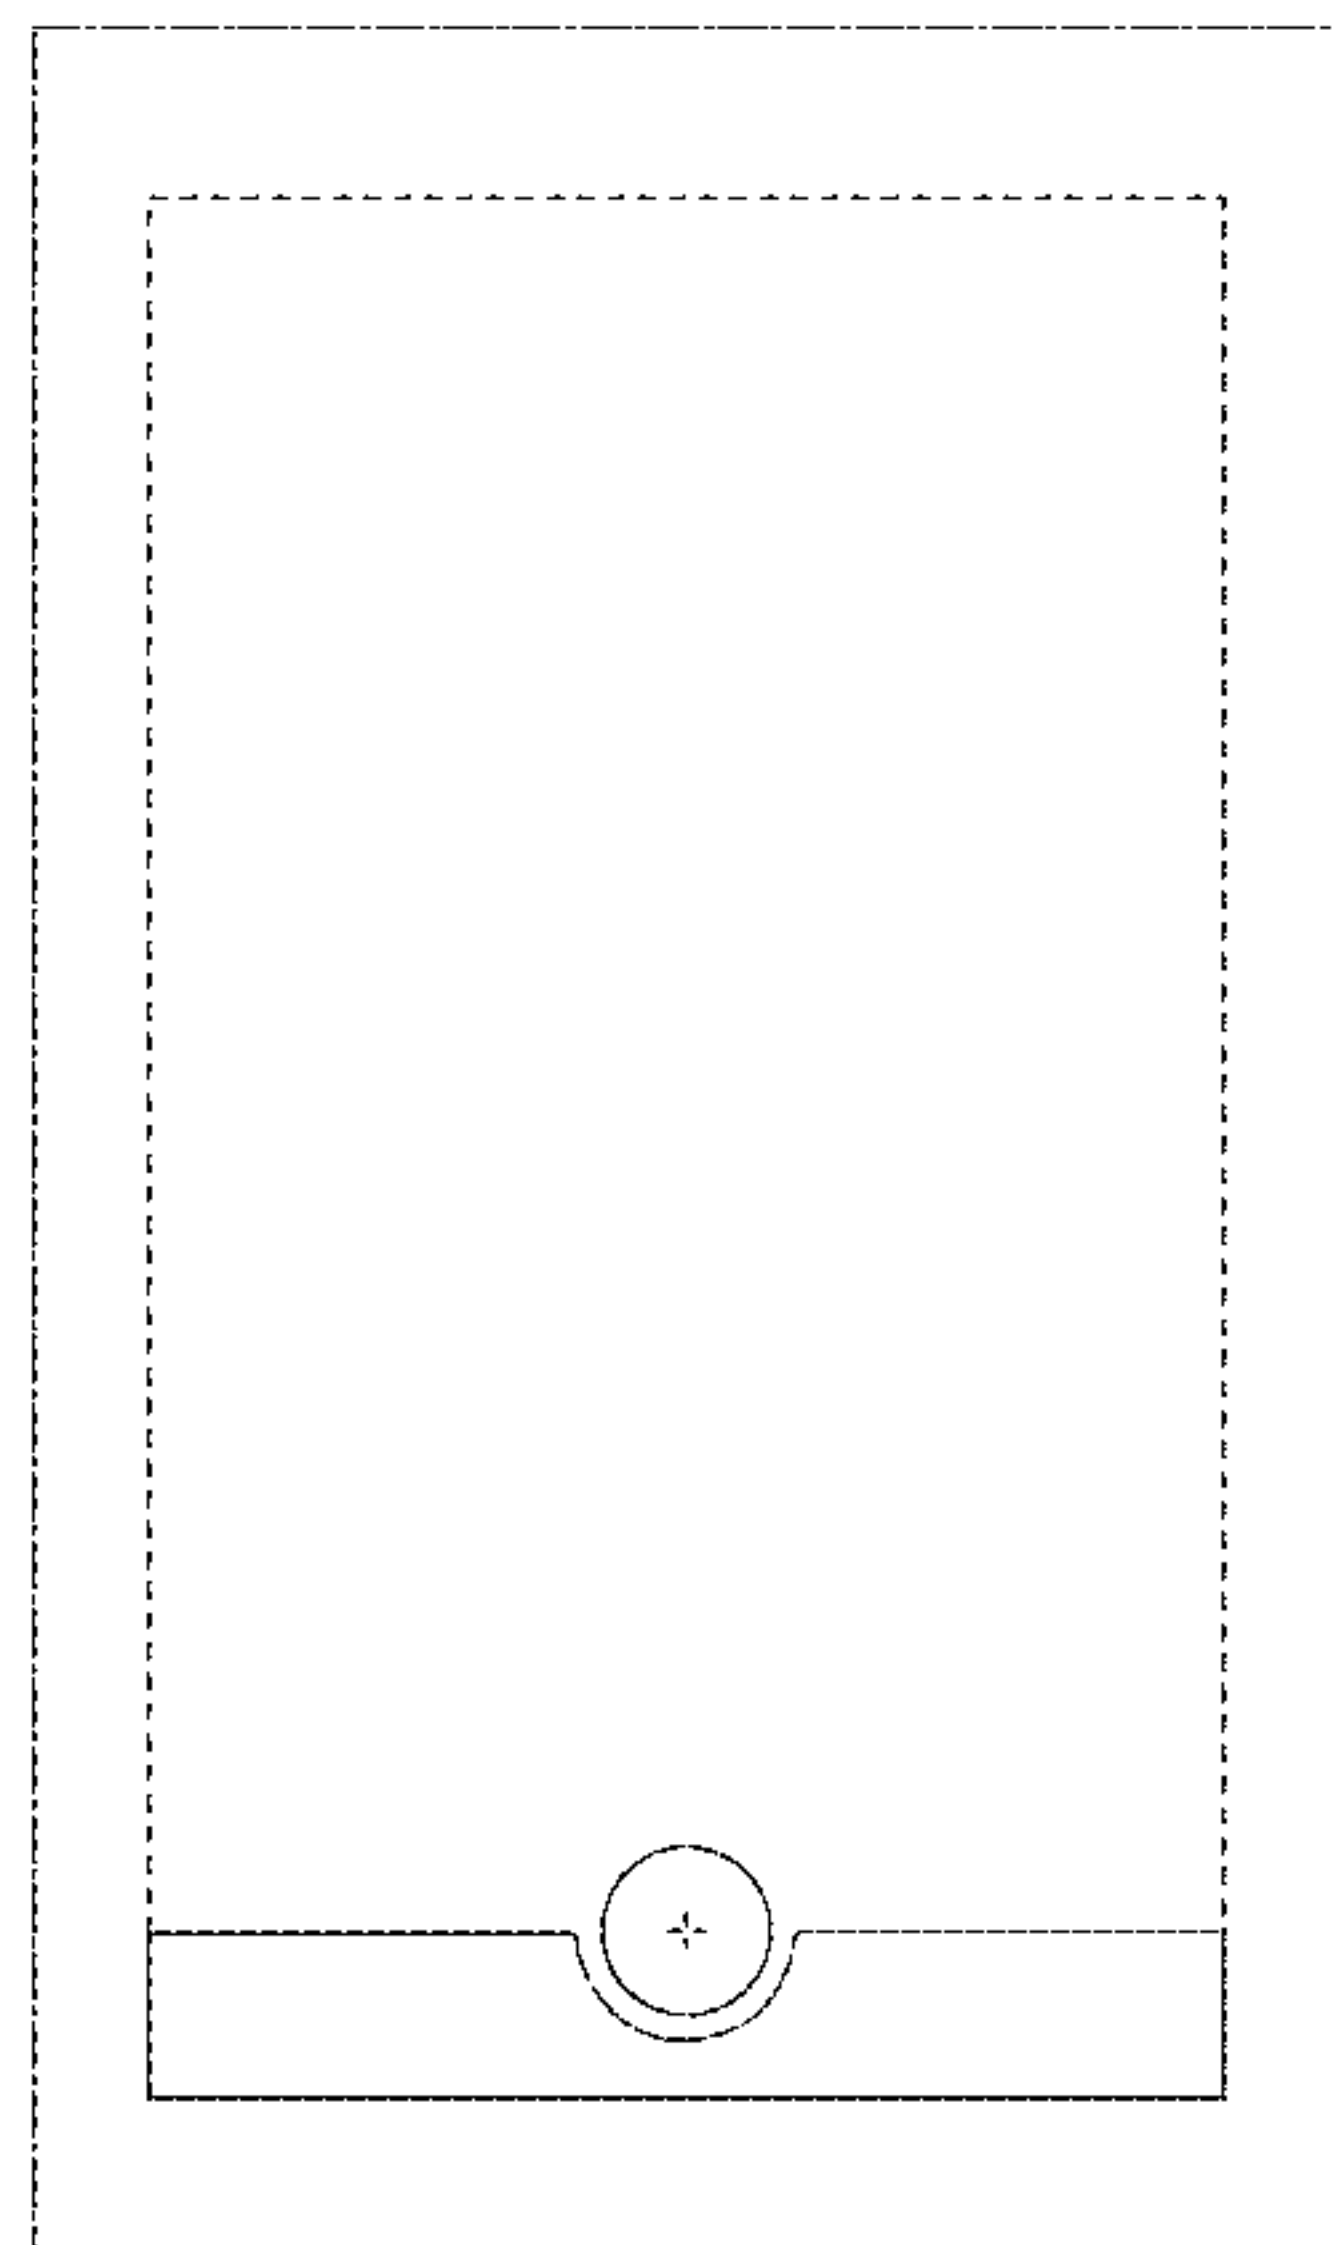

FIG. 3 is a front view of a third image thereof; and,

FIG. 4 is a front view of a fourth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken dashed lines of uneven length illustrate a display screen and define the boundary of the claimed design. The broken dashed lines of even length, including the graphical element within the claimed circle element in FIGS. 1-3, illustrate portions of the animated graphical user interface and form no part of the claimed design.

1 Claim, 4 Drawing Sheets
