(57) **CLAIM**

We claim the ornamental design for an upper front suspension arm for a model vehicle, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, left, front perspective view of a first embodiment of an upper front suspension arm for a model vehicle;

FIG. 2 is a front elevation view thereof;

FIG. 3 is a rear elevation view thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a left side elevation view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a lower, left, rear perspective view;

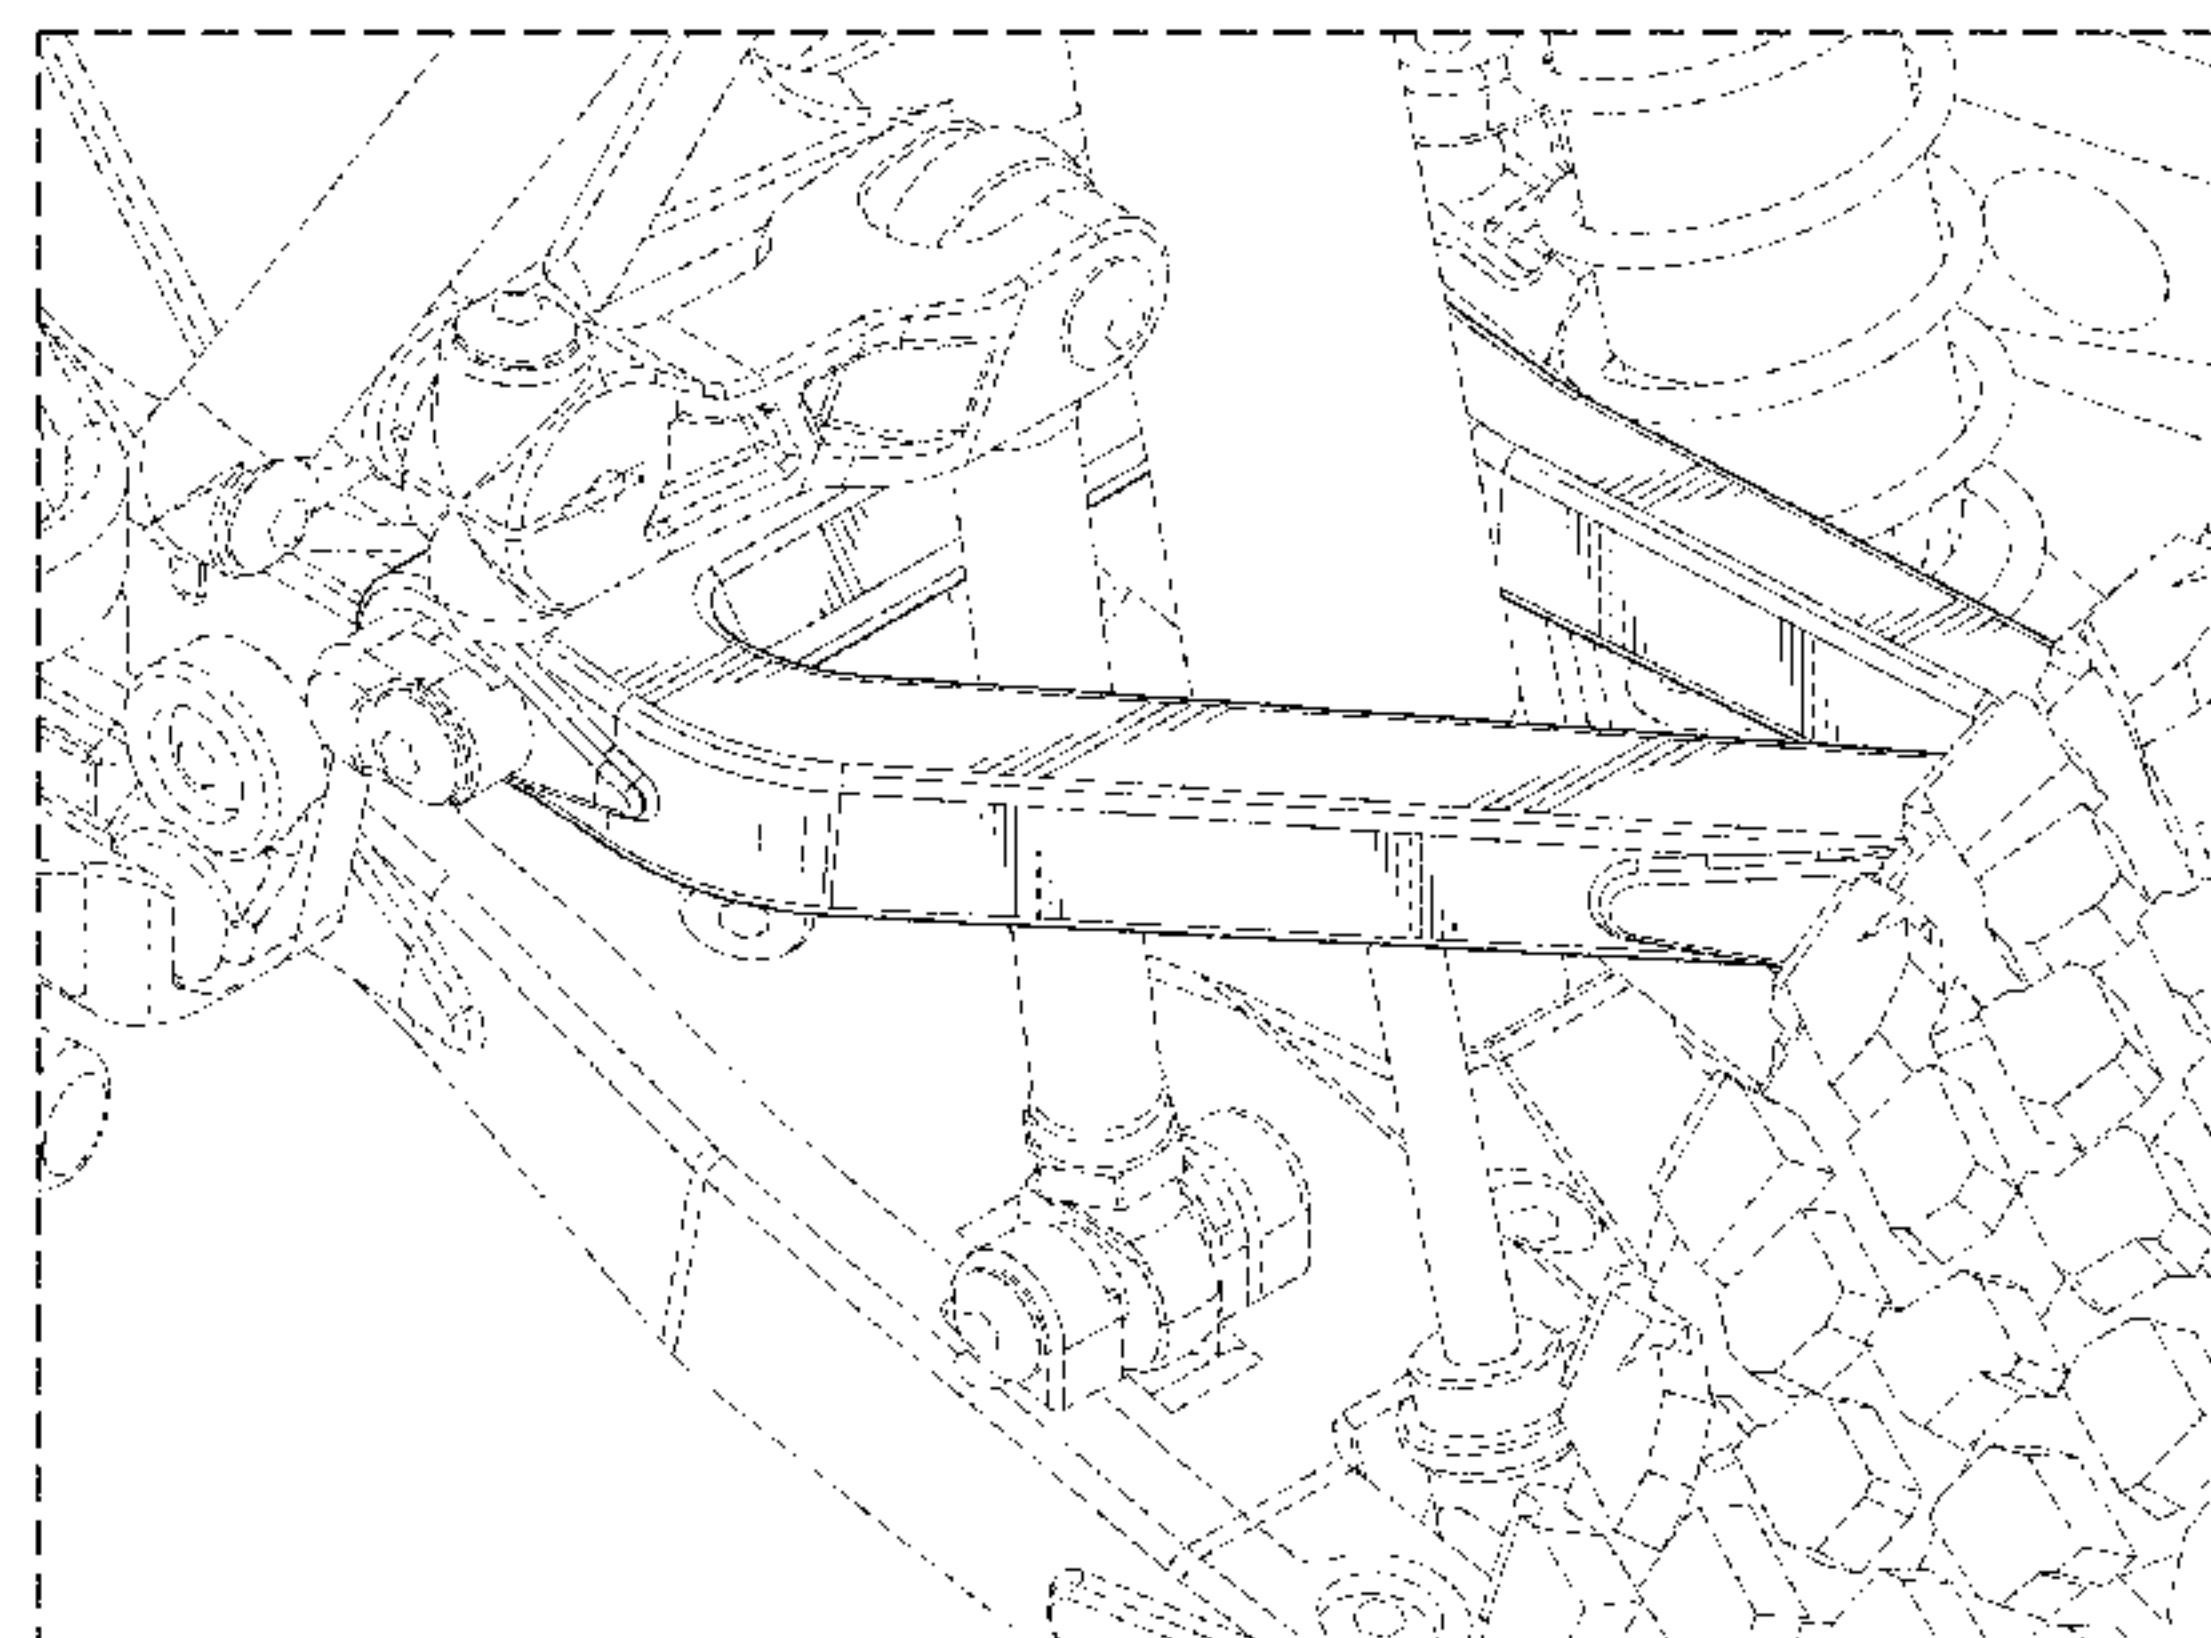

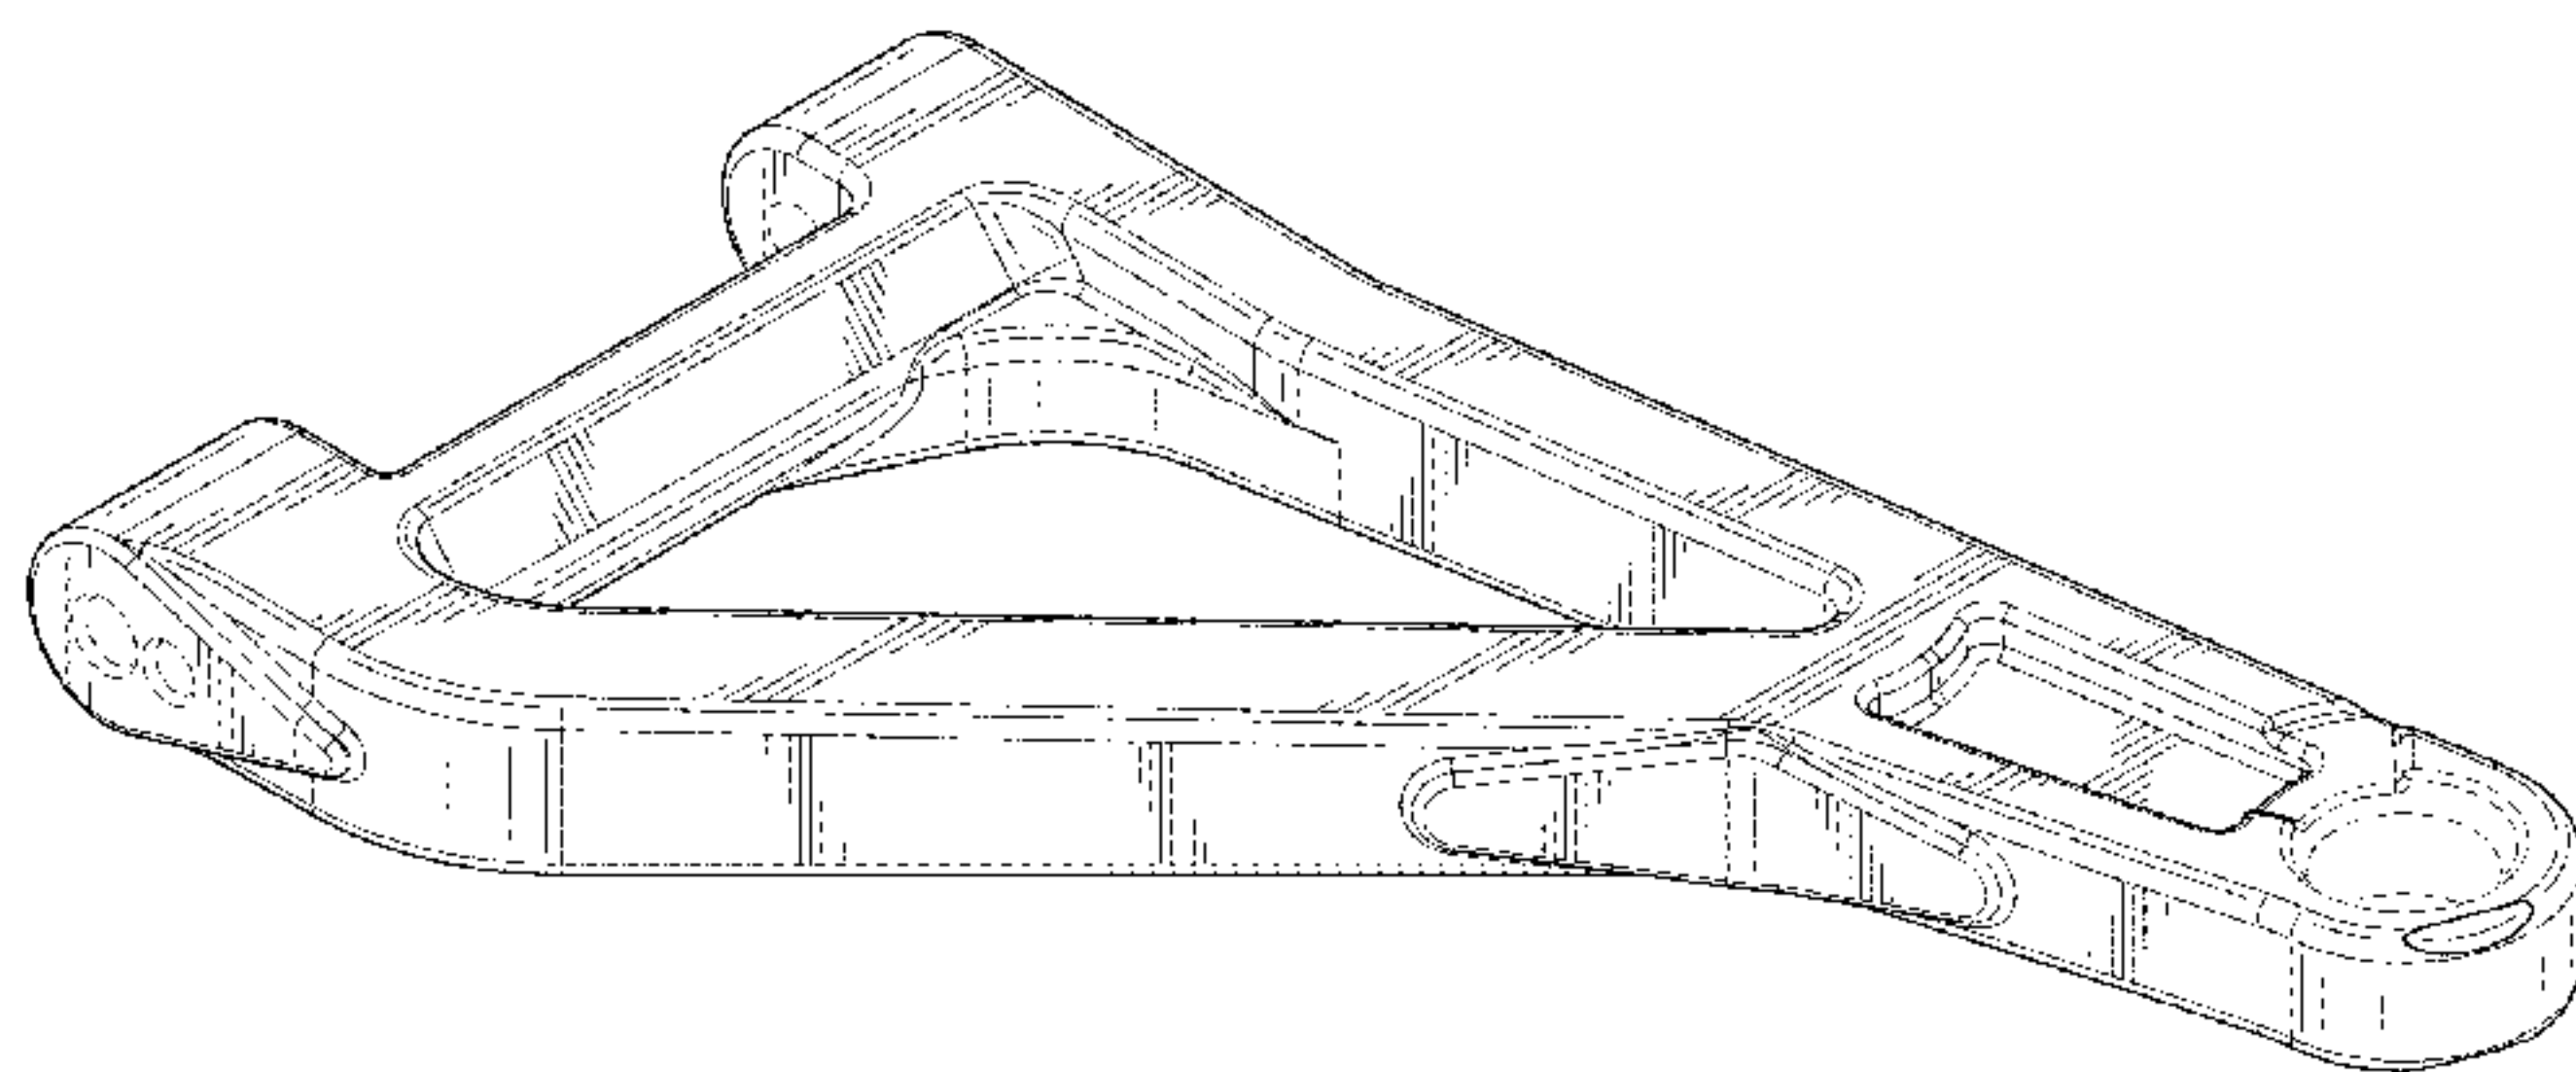

FIG. 9 is an upper, left, front perspective view thereof showing the upper front suspension arm for a model vehicle within a broken line environment of use; and,

FIG. 10 is an enlarged detail view of the upper front suspension arm for a model vehicle shown in FIG. 9.

In the drawings, the broken line showing of features of the upper front suspension arm for a model vehicle illustrate portions of the upper front suspension arm for a model vehicle that form no part of the claimed design; whereas, the broken lines showing a model vehicle in FIGS. 9-10 are included to illustrate environmental structure and form no part of the claimed design.

In the drawings, only the first embodiment of an upper front suspension arm for a model vehicle is shown. The second embodiment of the claimed design is a right upper front suspension arm for a model vehicle, which is a mirror image of the left upper front suspension arm for a model vehicle disclosed in the first embodiment.

**1 Claim, 8 Drawing Sheets**
