(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for a control unit for a fire prevention system, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee. FIG. 1 is a colorized version of a display screen with graphical user interface for a control unit for a fire prevention system embodying our new design; and, FIG. 2 is a black and white version thereof. The broken lines showing a display screen illustrate portions of the article and form no part of the claimed design.
