(57) **CLAIM**

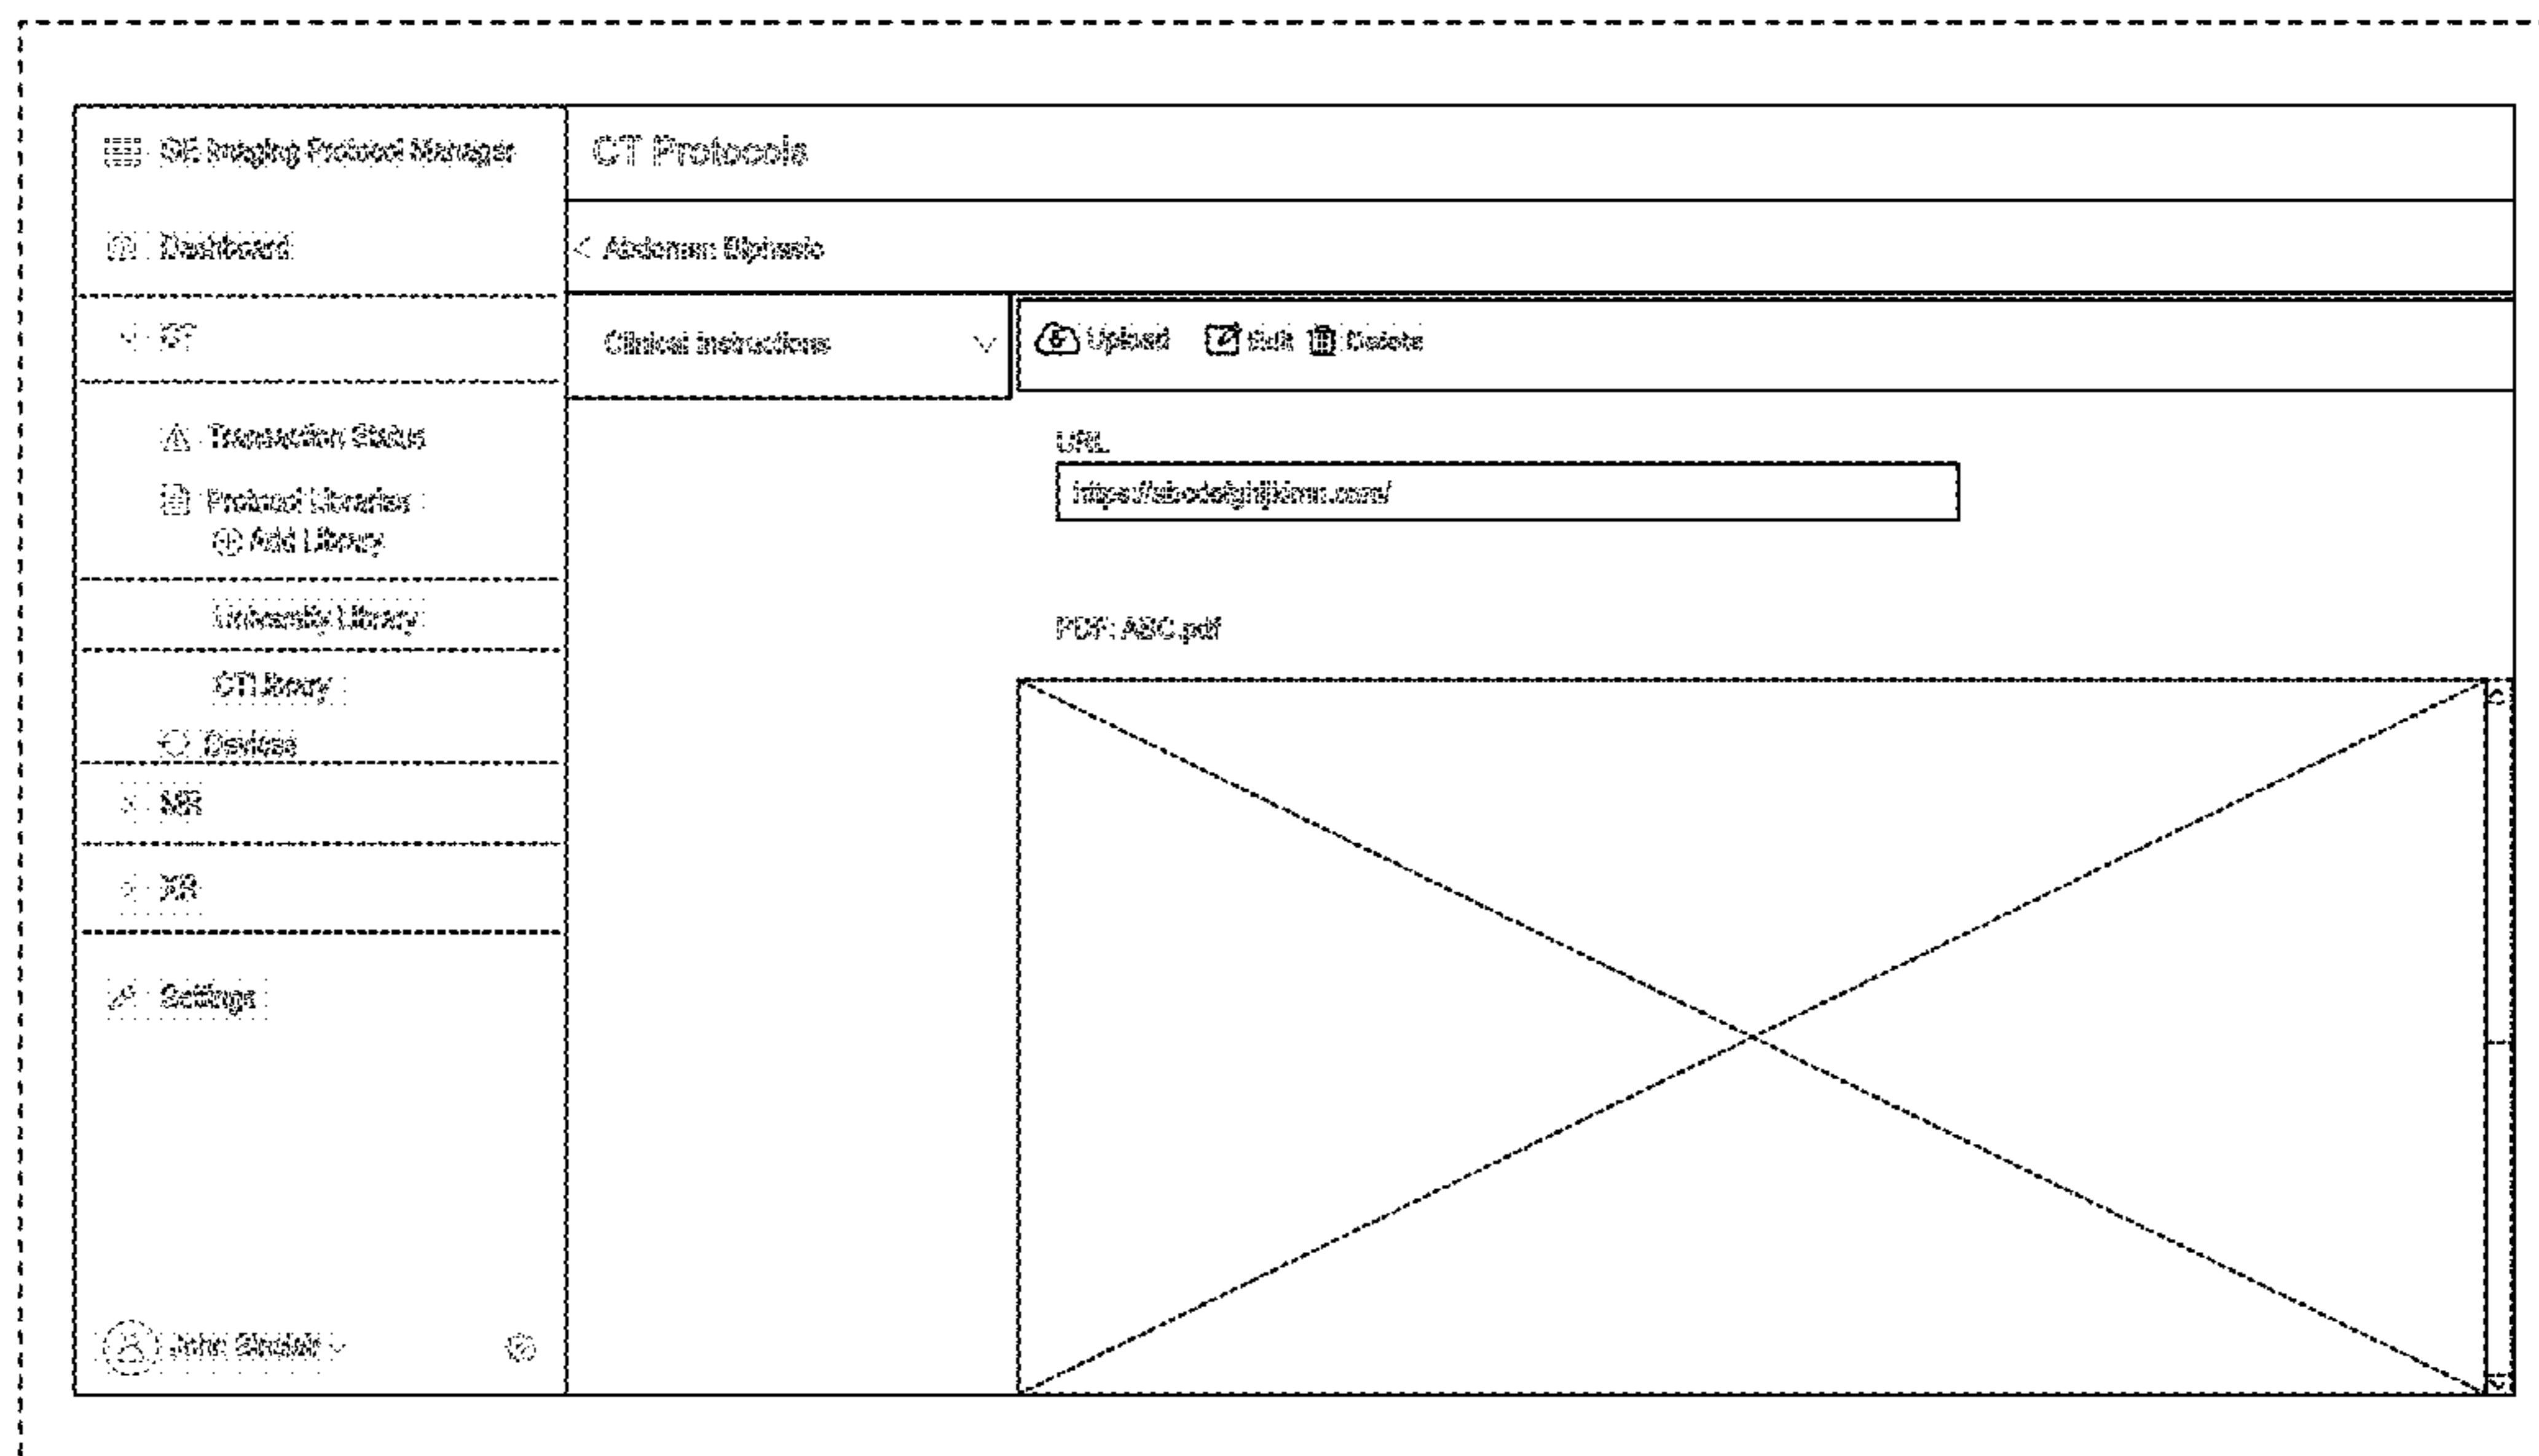

The ornamental design for a display screen with graphical user interface for an imaging protocol manager, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for an imaging protocol manager of the present invention.

The broken lines in the FIGURE are included for the purpose of illustrating environmental structure and form no part of the claimed design. The broken lines in the FIGURE depicting text/words, numbers, symbols, and other shapes in the graphical user interface currently form no part of the claimed design.

1 Claim, 1 Drawing Sheet
