(57) **CLAIM**

The ornamental design for a case for a vibrating electromechanical device for female stimulation, as shown and described.

DESCRIPTION

FIG. 1 is a top, left and front perspective view of a case for a vibrating electromechanical device for female stimulation showing our new design; FIG. 2 is a back elevational view thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a top plan view thereof; FIG. 5 is a bottom plan view thereof; and, FIG. 6 is an exploded top and front perspective view thereof. The broken lines depict portions of the article that form no part of the claimed design.
