(57) **CLAIM**

The ornamental design for a computer display screen or portion thereof with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a computer display screen or portion thereof with animated graphical user interface showing a first image in a sequence according to the claimed design; and,

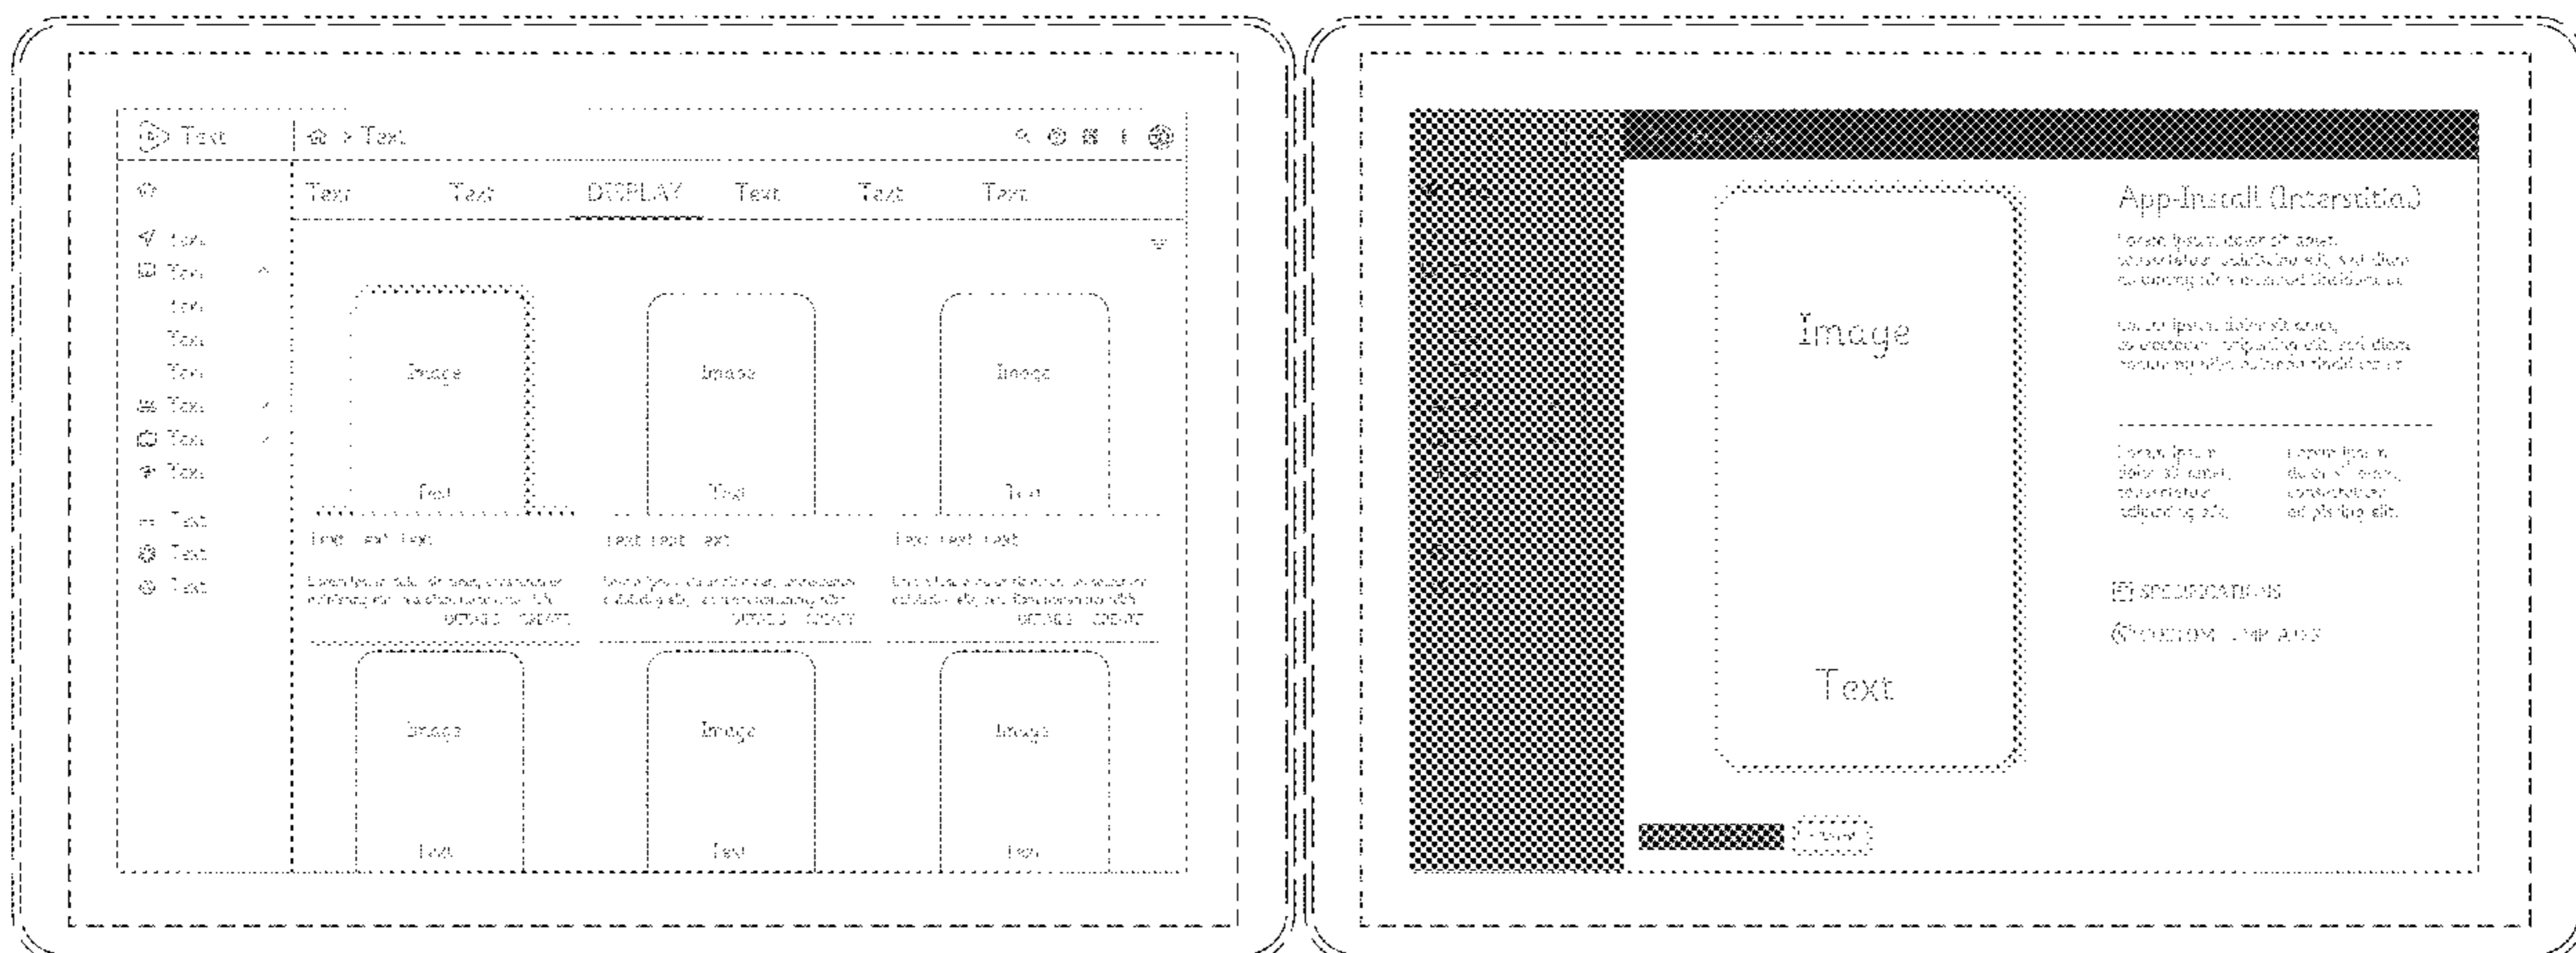

FIG. 2 is a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.

The shading depicts a contrast in appearance.

The longer-dash broken-lines at the periphery of the figures show a portion of a computer and the intermediate-length broken-lines show the display screen of the computer. The remaining broken lines illustrate features within the interface. The broken lines form no part of the claimed design.
