(57) **CLAIM**

The ornamental design for a display panel or portion thereof with a transitional mixed reality graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display panel or portion thereof with a transitional mixed reality graphical user interface showing a first image in a sequence of our design;

FIG. 2 is a front view of a display panel or portion thereof with a transitional mixed reality graphical user interface showing a second image in the sequence thereof; and,

FIG. 3 is a front view of a display panel or portion thereof with a transitional mixed reality graphical user interface showing a third image in the sequence thereof.

The appearance of the image sequentially transitions between the images shown in FIGS. 1 through 3. The process or period in which one image transitions into another forms no part of the claimed design.

The outermost broken line rectangle illustrates a display panel or portion thereof that forms no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.
